Editorial

"Change is inevitable in a progressive country." This statement has proved to us the truth in it for great and well-advanced countries like Russia, America, and England have experienced folds and folds of changes before they are as they are today. Similarly, our Malaya was also able to achieve her independence and put herself in the forefront where many countries have yet to reach the position she is in now.

Once again it was the changes that took place which helped Malaya to be quite different now from what she was about two generations ago. Quite different in the sense that Malaya's conditions of living are much better and that she is now well-advanced.

The formerly muddy and impassable roads in bad weather made way to the wider and beautifully constructed ones which proved to be some of the best in South East Asia. Better railway engines have also replaced the "old-fashioned" type. The fact that schools and hospitals have also sprung up while new scientific methods are being used experimentally on the sector of agriculture is another evidence to prove the truth of the statement above.

These were not all that made Malaya as she is today because after "Merdeka" more devices have been introduced to put Malaya still more to the forefront. Notable ones are the introduction of the recruiting of youths for national service, introduction of the International Airport and the mobile hospitals and the bettering of the sewage system. All these contribute toward the development of Malaya.

As already said, "Change is inevitable in a progressive country", but it can also be said of a progressive school.

This year we are made witnesses of several changes. To start with, as though by coincidence, we have a new principal who is the brains behind all these worthwhile plans. The new system of dividing the school into primary and secondary sections is a blessing to us as it gives our head, Mr. Kok Ah Too, all the time to concentrate on his bigger boys.

Though officially opened since November in 1957, the new workshop was put to use only early this year when every facility was ready. Under the favourable guidance of the tutors and the head, the younger boys (Form three and below) are getting invaluable benefits though some of them may not konw it.

The library too with a new and very active master-in-charge, Mr. Forshey, has improved by leaps and bounds. It was only during this year that a golden harvest of young readers was produced. Special credit should also be given to all the librarians who willingly came back every afternoon to the charge.

Finally, but not the least, there was a notable achievement—that for the first time in the school history, pure science and additional maths were taught to the very promising Form IV A students. Additional Maths was also taught to the ten most promising mathematicians in Form V A—a new subject which they are proud to learn.

Such are some of the changes in our ever developing school, but it is quite evident that these are but stepping stones to greater fame yet to be reached.

Yip Swee Mun,
Student Editor.

"CHANGE IS INEVITABLE IN A PROGRESSIVE COUNTRY."

The Changes in my Country.

A land of lush green foliage pierced by silvery lines of rivers has emerged from a backward state to a land "flowing with milk and honey"—this is my country, Malaya. The secret of this is changes which resulted in progress.

Less than three score years ago Malaya was a malaria-infected country with a low life expectancy. But today she has been saved by changes in the medical services—delapidated wooden hut hospitals have given way to modern concrete hospitals and mobile ones which tour the rural and river areas; the untrained "doctors" have been replaced by highly able doctors equipped with modern medicine and scientific apparatus — which were not in use at the beginning of the century.

Changes require money. Malaya's finance is basically founded on tin and rubber. The changes in these industries are themselves achievements. Once Malaya was undeveloped and uncultivated but now she is the greatest producer of tin in the world and comes next to Indonesia, the premier producer of natural rubber. The specialization in these industries is not a result of over-night changes but of persistant hard labour and constant ameliorations. These achievements demanded tremendous changes such as the introduction of high yielding trees, improving the environment, and the use of fertilisers which have evolved from modern scientific success.

Next to rubber in agriculture is rice. Though it is thought that Malaya would not achieve self-sufficiency in rice in the near future, considerable progress has been made in this sector of agriculture. Constant changes have been taking place in this cultivation—the old methods have been changed yielding place to new scientific methods and hygienic manuring. As a result now one million acres are under rice cultivation.

The changes in the Malayan transport system is most evident. Some fifty years ago, Malayan roads were of mud and were impassable in bad weather. But now the main arteries of transport are complete and efficient. The roads are acclaimed to be the best in South-East Asia! The Railways are also undergoing considerable changes—of which the introduction of high speed diesel locomotives in place of steam engines is an example.

Education came to Malaya through the early Christian missionaries. Until the First World War the progress in this field was steady but slow, but after the Japanese Occupation it has been greatly accelerated—the Education Ordinance of 1952 bears witness of this. Since education ouccpies the basis of the unity of a nation, it has taken priority in the Government's budget. The modernization of English and vernacular schools, the enrolment of 1,250,000 primary pupils in a year and the opening of the University of Malaya and ten new teacher's training centres are few of the many results due to the changes in the Educational policy in the past decade.

The heavy drain in the country's income is the internal armed insurrection which is commonly known as "The Emergency". To subdue this menace it costs the Government annually about a hundred million dollars. Rapid changes in the military tactics used to deal with the Emergency, such as the adoptation of psychological warfare, have accelerated the success. The once fifteen thousand terrorists have now been reduced to thirteen hundred—this shows that the close of the chapter of terrorism in Malaya is in view.

Lastly, but of course not the least, are the political changes which are the most apparent of all changes. The Federation was colonised in 1873 and since then excepting the Japanese Occupation, the British have developed justice, sound administrations and have shouldered the progress of the country. The end of the Japanese Occupation was the beginning of a new era with many changes in Malayan politics. The public became more national conscious and steadily Malaya progressed to achieve independence. The Federation of Malaya Agreement, the Local Council's Ordinances and the election for the Federal legislature were the stepping stones to the attainment of "Merdeka"; they are themselves great political achievements. The success of the Chief Minister's talks in London and the acceptance of the Reid Commission's report, by both sides, Malaya and Britain, materialised the hope that Malaya would be independent. This rise in the political ladder is the greatest of all achievements and has caused the most radical changes.

With the aid of the past changes in view, especially in a country like Malaya where there is ample room for ameliorations and progress, one can predict the future. There are likely to be many more changes such as the complete Malayanization of all posts and the enforcement of Malay as the national language—but all of them with one purpose, that is for the betterment of the country.

C. Christopher Samuel, Form V A.

THE CHANGES IN MY SCHOOL.

"Change is inevitable in a progressive country." If we wish to progress we must expect changes not only from the standpoint of a country but it is also true in a school situation. We must expect changes which will help to bring out students to a higher standard educationally, to prepare them to be good citizens for our school and country and to direct their attention towards science, craftsmanship and other careers which will help them in their future life.

Our school has had many changes which show that we are progressing and that we will still progress in the future. This year we have a new Principal, Mr. Kok Ah Too, who was the former senior science teacher at the Methodist Boys' School, Kuala Lumpur. The coming of Mr. Kok was due to two reasons; the loss of our former Principal, Mr. K. V. Thaver, who retired and the need for a Principal who would help to raise the standard of our school academically. The results of our school in the Senior Cambridge have not been what they should have been, and with the help of our new Principal we are looking forward to greater results.

The most important factor which has been completed and not functioning within our school compound is the workshop. Though it was completed last year, it was not until this year that the workshop has been put into working order for the boys. Many students have different desires for careers. Some may like technical lines and others may like handwork or office jobs. To bring out the interest in all these, our school has constructed a workshop in metal and wood work. Two of our staff members were selected and sent to study in the Vocational Teachers' Training School even before the workshop was completed. After a year's study they returned and are now holding the posts as teachers of those respective crafts. Since then two other teachers from our school have gone for the same training and also have returned to help in this growing career. At present the boys are learning the fundamentals of the work and it looks as if many are keen on this type of work.

The next improvement was the school library, which is used by the secondary school pupils. It is a rather small room but has acquired new equipment this year. It has about 1,500 books concerning many different subjects. It is very useful to our students especially those who are weak in English. The weaker students are encouraged to read a book a week and write a summary to be handed in to the form master for corrections. If a student wants to do more research and reference work he has the privilege of coming in the afternoon.

This year our school was divided into two sections, the primary and the secondary. This was done because now one Principal can concentrate more in one section. The Principal in the secondary section will have his experience in this section and will be to an extent a specialist. In this way the Principals will be better prepared to work in their respective sections and will have more time with fewer students, which will certainly give our school many advantages.

Many nations have advanced in science due mainly to their many scientists. Many inventions have come forth which people had never thought of. But still there are many more things to be discovered during the coming years. It is not worthwhile for us to admire other countries and their scientific achievements, but to improve our own country scientifically and be a part of these great discoveries. If we want this we must have scientists, and it is the responsibility of the schools to begin this process. Concerning this our school has started "pure science" classes in Form Four A. This year Additional Maths was also started in the Form Five classes. Malaya is progressing in the technical

line and therefore we must have more engineers and technicians to maintain this progress along this line.

Seeing all these changes in our school, we are very proud of the way our school has progressed to bring up the standard of our school boys with the hope that the changes that have taken place in our school will lead to greater changes in our country which will then continue to be a progressive country.

Selvarajah S.
Form Five B.

THE IMPORTANCE OF IMPROVEMENT IN THE EDUCATION OF MALAYA.

Malaya has attained its independence. It is now a member of the United Nations Organisation; therefore it must aim at reaching a standard as high if not higher than any of the countries in the United Nations Organization. A standard of living that will enable its people to live in happiness and harmony is needed.

To reach such a peak several factors have to be taken into account; such as the country's wealth, its civilization and the foundation of the people. As a nation Malaya is rich enough to support its population. As for the people's civilization, although we dare not claim to be the most civilised country in the world we can at least claim to be one of the most civilised countries in Asia. So this brings us to the foundation of the people.

Since Malaya is a very young nation it cannot claim to have any strong foundation. Moreover, as it is built up of a mixed race the traditions of the people differ greatly. Therefore to overcome this last difficulty we have to raise and improve the minds of the people so that they can understand one another.

The only way to make the people of Malaya understand one another is to build up many schools where its future citizens can study together and thereby learn to love one another more.

Though the system of education in Malaya is good enough for a small country, it is certainly not the best that men can think of. To raise the living standard of Malaya we have to establish a system of education where not only everybody can go to study if they wish, but where everybody must go to study at least for a specified number of years. That is to establish a compulsory education.

To attain this again many factors have to be taken into account. The emergency, which is now almost over, must be stopped. The Government workers, especially those of the higher rank, must not draw such a big salary; and big "Fords" must not be supplied to them by the Government. This money must be saved by the Government to improve on education. Of course you may say this will not fulfill our need to supply free compulsory education, but remember, "Where there's a will, there's a way". If we have a strong will to do a thing, we will eventually attain it though it may take years and hardship to achieve it. For I see no reason why Malaya, such a rich country, cannot afford a compulsory free education if the Government has the will to do so, when men have sent up "Sputniks" and "satellites" into space because they had the will to do so.

If a compulsory free education is achieved in Malaya, the standard of living in Malaya will surely rise by leaps and bounds.

Tan Pok Chin.

* KĚPĚNTINGAN PĚLAJARAN. *

Ra'ayat Pĕrsĕkutuan Tanah Mĕlayu yang baharu sa-tahun mĕndapat kĕmĕrdekaan-nya, makin bĕrtambah bilangan-nya dari sa-hari ka-sa-hari. Oleh kĕrana mĕreka ini-lah yang akan mĕngandalikan nĕgĕri ini pada masa hadapan, maka patut-lah mĕreka ini di-bĕri pĕlajaran yang utama, yang bĕrguna dan yang sĕmpurna supaya nĕgĕri ini mĕndapat kĕmajuan, kĕma'amoran dan kĕsĕjahtĕraan.

Sĕbagai pĕrmulaan-nya, mĕreka ini di-masokkan ka-sĕkolah-sĕkolah Rĕndah di-mana mĕreka mĕngĕnali yang mana baik dan burok. Mĕreka di-ajar mĕnggunakan fikiran mĕreka sendiri.

Sa-tĕlah mereka di-ajar di-Sĕkolah2 Rĕndah itu, pĕlajaran mereka itu di-sambong di-Sĕkolah2 mĕnĕngah pula. Di-sini nanti mĕreka akan sedar bagi kĕpĕntingan pĕlajaran itu.

Ya! Pĕlajaran-lah yang pĕnting sĕkali bagi tiap-tiap sa-orang. Jika sa-sa-orang ada bĕrpĕlajaran ia akan di-pandang mulia oleh kaum bangsa-nya dan tanah ayer-nya.

Tetapi, ada-kah mereka ini, ra'ayat Pĕrsĕkutuan Tanah Mĕlayu, akan tamat pĕlajaraan—mĕreka di-Sĕkolah Mĕnĕngah itu? .... Tĕntu tidak. Mĕreka akan menchoba dengan sĕdaya upaya mĕreka untok mĕlanjutkan lagi pĕlajaran mĕreka itu ka-Sĕkolah2 Tinggi atau Maktab2.

Bagitu jua bĕrapa banyak-kah Sĕkolah2 Tinggi dan Maktab2 yang ada di-Pĕrsĕkutuan Tanah Mĕlayu ini?

Sa-bagai mana yang kita tĕlah kĕtahui, Sekolah Tinggi yang ada di-nĕgĕri ini hanya sa-buah dan bĕbĕrapa buah Maktab. Tĕtapi ini tidak mĕnchukopi kĕrana pĕndudok-nya sa-makin bĕrtambah.

Oleh sĕbab itu sa-patut-nya banyak lagi Sĕkolah2 Tinggi dan juga Maktab2 di-dirikan untok mĕngatasi masalah yang akan di-hadapi itu.

Bahawa di-masa ini patut pula kita mĕmĕrima kaseh akan kĕrajaan yang tĕlah mĕndirikan bĕbĕrapa Sĕkolah Pĕrtukangan, Pĕrtanian dan Technical College, yang mana sĕmua-nya bĕrfaedah kapada pĕndudok-pĕndudok yang sĕdang bĕrtambah-tambah itu ada-nya.

Baharudin b. Hj. Sulaiman.
dan
Abdul Latiff b. Md. Eusoff.

MR. KOK AH TOO

THE PRINCIPAL'S MESSAGE.

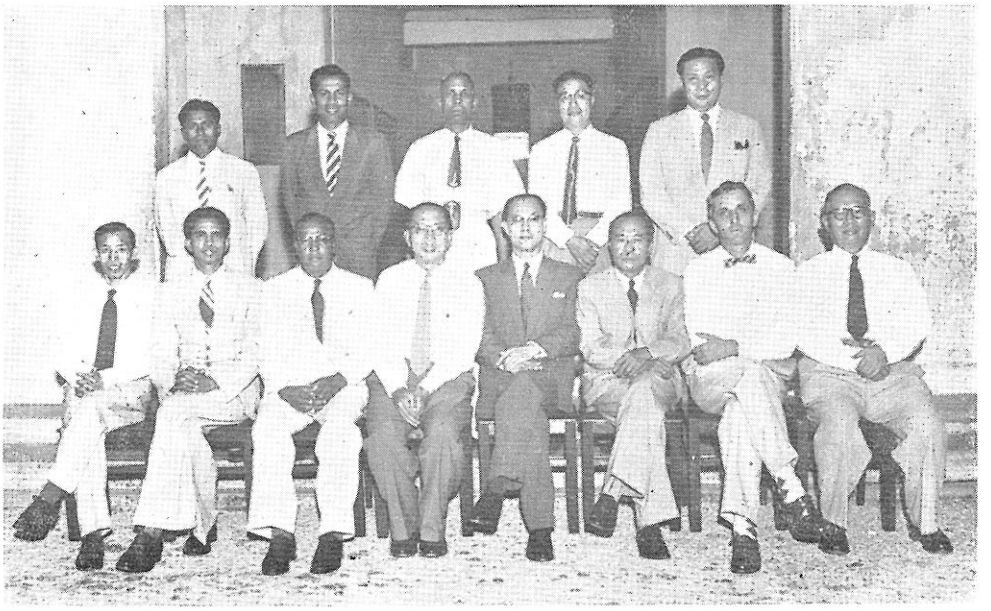

Many visitors to this school have remarked that we possess fine buildings which are equipped and furnished well up to the standard of good schools in Malaya. Our classrooms and laboratory provide training in the arts and sciences, our workshops give the vocational education so much needed in this area, and our extra-mural activities add to the all round development of our students. But a good school should provide more than physical education and academic training. We have to produce students of character and men of quality equipped to give of their best to an independent Malaya.

As I come to the end of my first year's headship I am encouraged by the improvement in the tone of the school. Many have been influenced to practise cleanliness in body, mind and spirit. Time will come when our students will so live their lives that the tower of the M.B.S., Sentul will be a symbol of purity in this area.

In the classrooms our boys have realised the importance of little tasks well done. In the workshops and laboratory I am heartened by the enthusiasm of many students who endeavour to put a fine finish to the smallest job undertaken. Thus the love of excellence has taken shape.

These are welcome signs for this young school and before very long our boys will distinguish themselves in every walk of life, and in their service of this country they will show Malaya that the products of the M.B.S., Sentul bear the stamp of purity and excellence.

BOARD OF GOVERNORS.

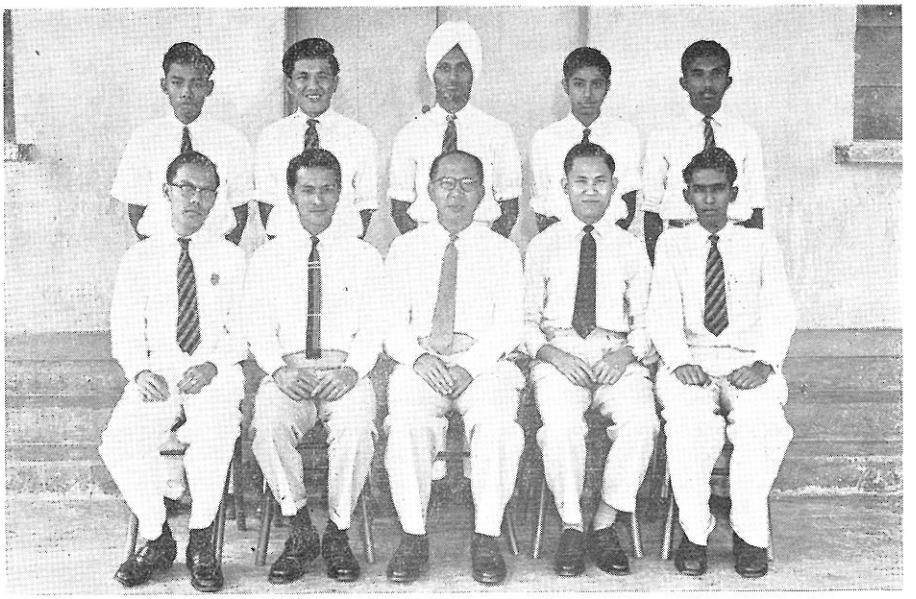

Seated (*L. to R.*):—Messrs. Chow Ah Choe, P. K. M. Menon, V. Balasingham, Kok Ah Too (Secretary), Tan Teik Hoe (Chairman), Inche Salleh bin Kakim, Rev. J. H. Haines, Mr. T. K. Cheong.

Standing (*L. to R.*):—Messrs. V. T. Sivasambu, A. Pathmanathan, D. T. Periathamby, Rev. C. H. Fang, Mr. Lee Kong Beng.

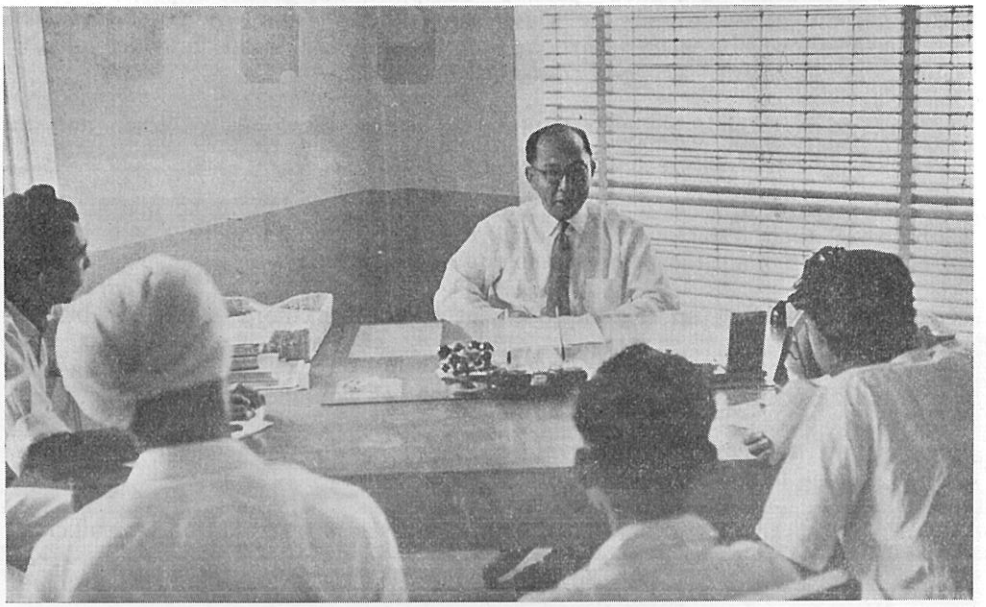

Absent:—Messrs. G. S. Arumugam, Wong Fook Seng, Khoo Oon Soo, Chan Weng Chiu.

EDITORIAL BOARD.

Sitting:—Yip Swee Mun, Mr. Chang Kwai, Mr. Kok Ah Too (Principal), Mr. Tham Seong Chee, S. Joseph.

Standing:—Kamsah, Joseph Lim, Pritam Singh, Swaminathan, H., Venugopal, P.

Joseph, Pritam Singh, Swaminathan, Venugopal.

WE INTERVIEWED THE PRINCIPAL.

This year we have the privilege to interview our new Principal, Mr. Kok Ah Too. We made an appointment with him. He was so busy teaching that we could see him only when he was free. We had an hour's friendly chat during which we asked him many questions.

Sir, we are glad to be able to speak to you.

1. What do you consider, sir, the most important improvement you have brought about since you came to this school?

Since I came here in January this year I have carried on with the projects begun by my predecessor and I cannot say that I have made any important improvement.

2. Do you have any definite plans to improve the school?

I think we have good buildings but we need chairs for the hall and better furniture for the classrooms. We need to buy more books for the school library which should be housed in a bigger room.

We have to improve the equipment in the science laboratory.

3. Academically what are some of the weakness of our school?

The greatest weakness is in English. It is essential to improve the standard of English in order to enable our students to get the full benefit from their secondary school education and higher studies. English is not only the common tongue of the Commonwealth countries but the free language of science.

4. What do you think of our school discipline, sir?

Our students have good "passive" discipline, but good discipline does not mean correct behaviour in the classroom alone. There should be greater enthusiasm shown by active participation in all extra-mural activities of the school.

5. Sir, do you think having school uniform is a good idea? When are we going to adopt this?

It is good to have a school uniform, but we cannot make all our boys throw away their old clothes and don new ones overnight. That will be too expensive. We plan to introduce a uniform next year.

6. What is holding up the improvement of the tuckshop? And the bicycle shed?

Lack of funds has held up all these things you mention.

7. Are we not going to build more science labs? Is there any possibility of having Form Six classes in the future?

We need an extra laboratory but I cannot see how we can obtain sufficient funds to do this now.

We cannot have Form Six classes.

8. Do you favour the idea of a gymnasium?

A school gymnasium is too expensive an undertaking and I do not think we can afford one.

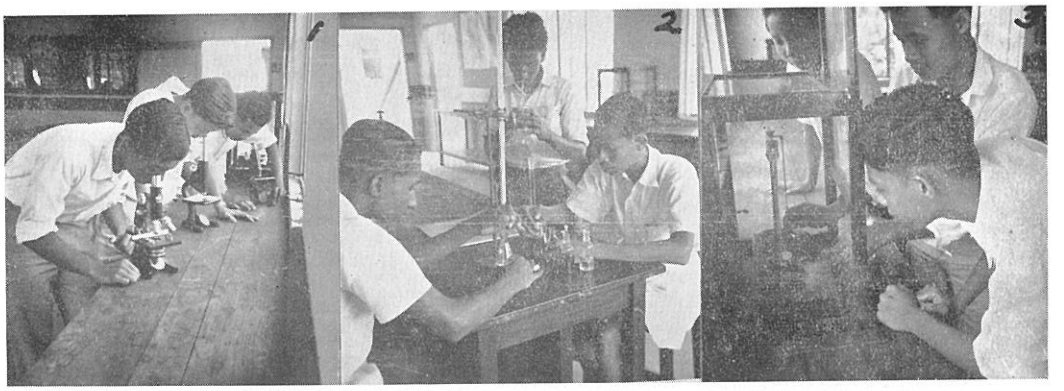

9. What do you think of our athletes? Have they been doing well?

We have some fine athletes and they have done well. I wish to see more of them in the years ahead.

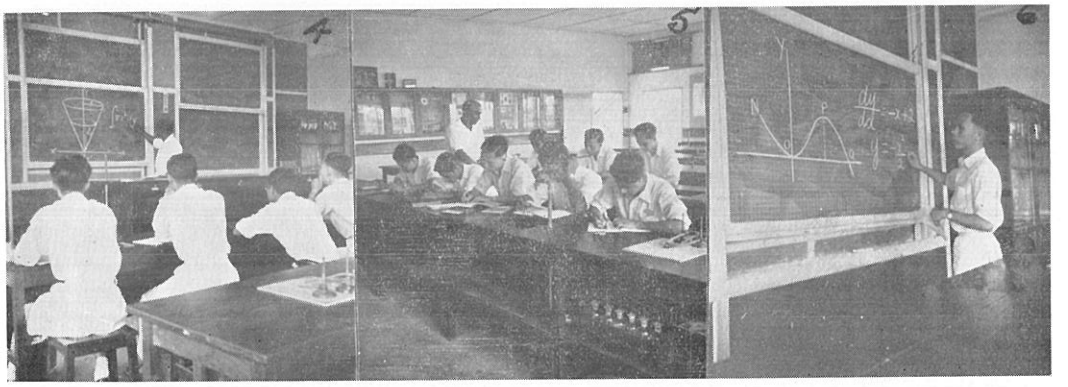

10. Thank you, sir. Now, will you please say a few words to our School Certificate classes?

At this time of the year when I think of the School Certificate classes my first wish is that they will do well in the coming Cambridge Examination. Then I hope that all these young men will serve Malaya in such a way as to bring fame to the Methodist Boys' School, Sentul.

ADDITIONAL SCIENCE & MATHS.

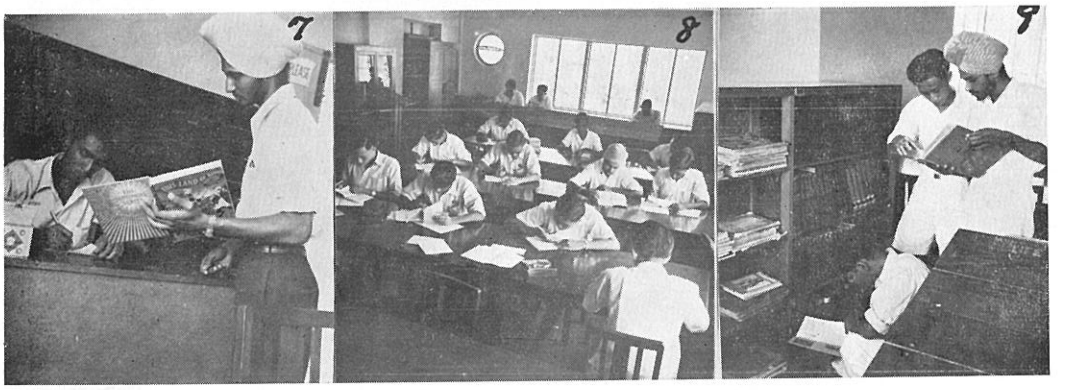

"Pure" Science Class (Form Four A):—1. Testing new microscopes. 2. Titration. 3. Manipulating chemical balance.

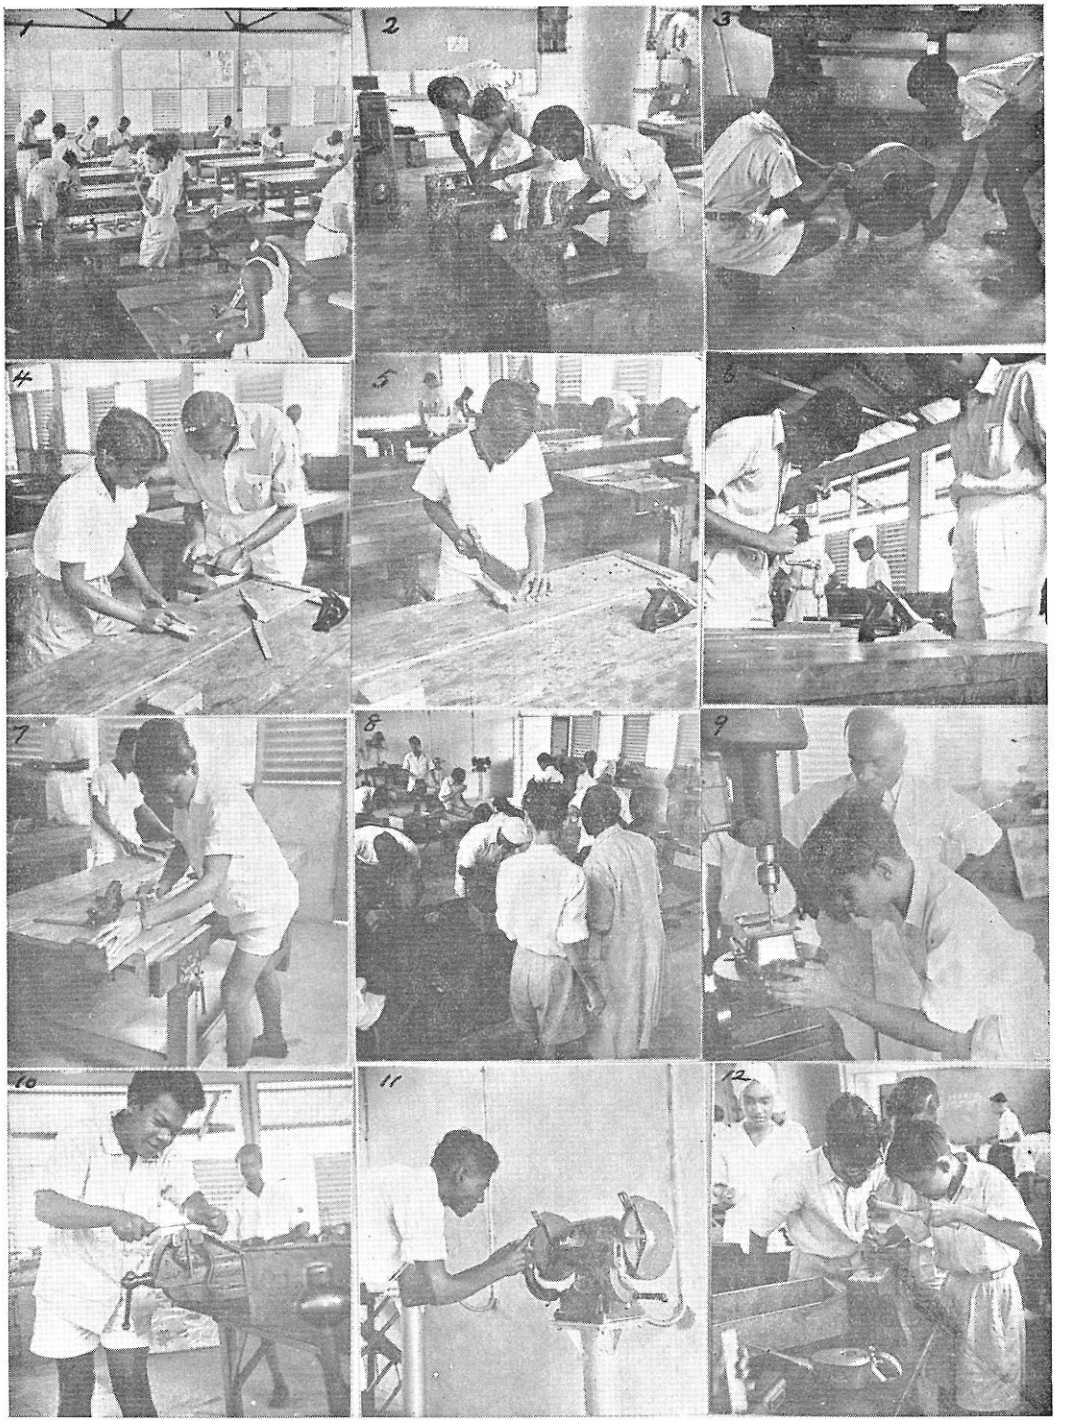

Additional Maths:—Mr. Watson with Form Five A boys during his free periods. 4. Explaining Calculus. 5. Individual help. 6. Boon Gan taking an active part in lesson.

THE SCHOOL LIBRARY.

New Organisation in the Library:—7. Librarian Joseph checking return of books. 8. A general view of the hushed atmosphere in which boys can concentrate on studies. (Notice excellent new furniture.) 9. Reference Section. Enormous volumes of encyclopaedias are available.

AT THE WORKSHOP.

1. General view of woodwork section. 2. Sharpening on oil stones 3. Sharpening on grinder. 4. Marking for a mortise tenon. 5. Sawing. 6. Drilling to mark a mortise. 7. Preparation of timber for a small box. 8. General view of metalwork section. 9. Drilling. 10. Filing. 11. Grinding. 12. Marking.

OUR SCHOOL WORKSHOP.

On the First of November last year, our school workshop was declared open by Inche Khir Johari, the Minister of Education, and dedicated in a simple yet meaningful ceremony by Bishop H. Amstutz, with the Rev. Harry Haines, pastor of the Wesley Church, Kuala Lumpur conducting the ceremony.

The former Principal, Mr. K. V. Thaver, in his speech last year thanked the Government for generously donating the full cost ($50,000) for the construction of the workshop. He also traced the history of the school, stressing the purpose for which the school was begun by the Founder Principal, the Rev. P. L. Peach. He had the vision to start his school with plans to make it into one with a vocational bias. Unfortunately the war disrupted his plans, and after the war the school naturally grew into a modern secondary school. We hope that Rev. Peach is happy after hearing of the workshop which was his ambition.

We have only three masters trained for metal and woodwork. The masters for woodwork are Mr. V. Balasingam and Mr. A. G. Lee who started teaching woodwork this year after their training at the training centre at Maxwell Road last year. Mr. William David is the only metal work master. We hope many more masters will go for training in metal and woodwork so that we will find less broken chairs around the school building.

At present only Form I C and Form II B are studying wood and metal work. Usually the boys spend two periods at the workshop. Half the class for woodwork and the other half for metal work. They also have technical drawing.

The masters hope that at least a few boys from Form II B will sit for wood and metal work during the L.C.E. Examination in 1959. But Form I C boys have to sit for metal and wood work during their L.C.E. Examination in 1960 because it is compulsory. The boys are said to have a better chance in the L.C.E. Examination.

In the workshop there is a First Aid Box for any small cuts from the machinery. If the cut is serious, the boy is sent to the hospital.

The masters are hoping to have an exhibition in the years to come to display the handicrafts made by the boys.

We wish the boys success in metal and wood work examinations in the years to come.

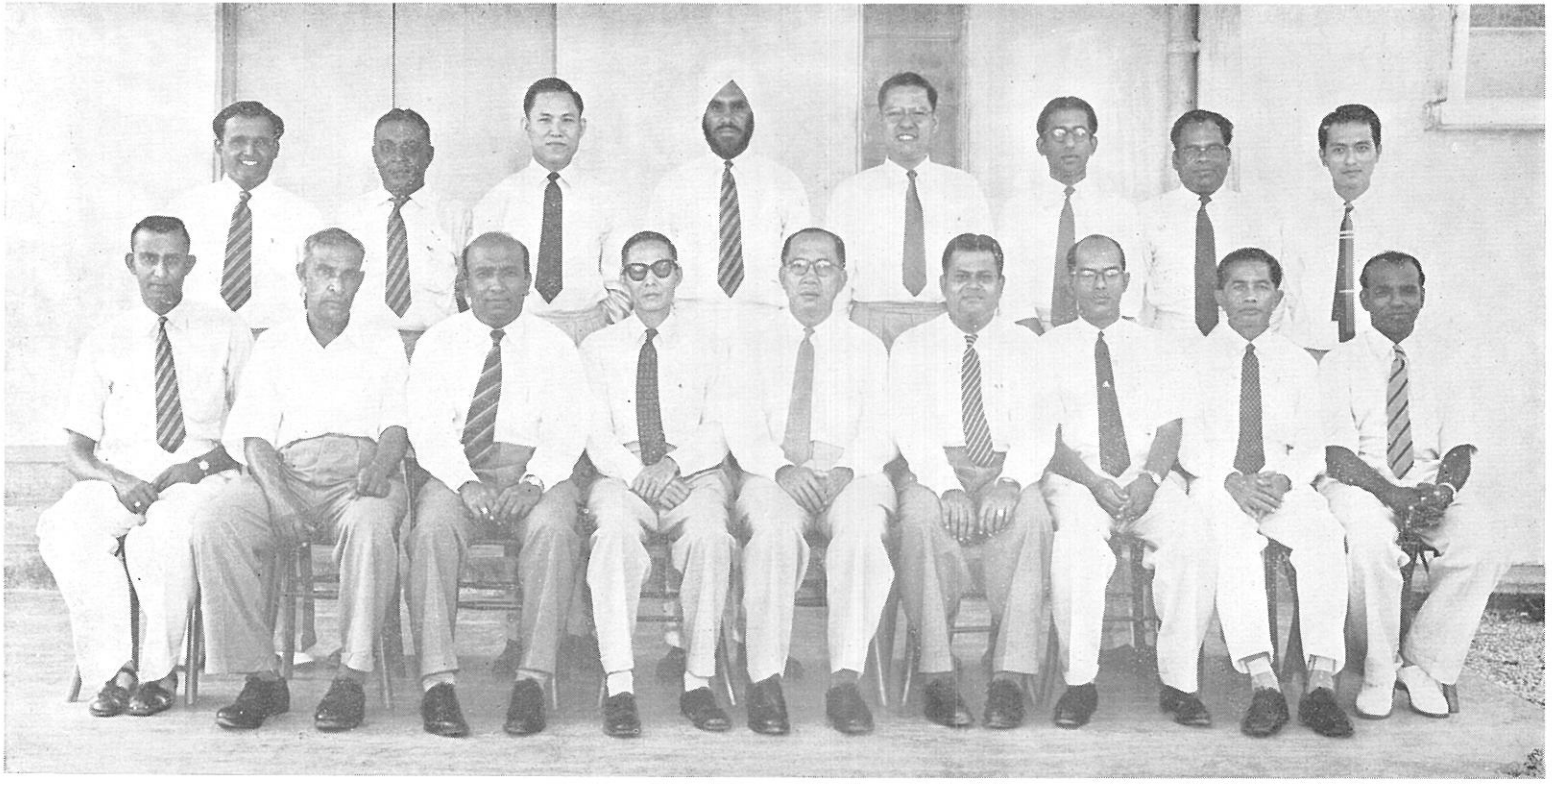

Joseph Seevaratnam.

9. YIP SWEE MUN: Prefect. . . . Student Editor. . . . School T.-Tennis Capt. . . . School relay team. . . . House treasurer. . . . Hist. & Geog. Society. AMBITION: Engineering.

10. YAP BOON GAN: House T.-Tennis Cap. . . . . good swimmer. . . . one of the best in class. . . . . Hist. & Geog. Society. . . . AMBITION: Agriculturist.

11. GANESARATNAM, S.: Mechanical-minded. . . . repairs cars in brother's shop . . . . . interested in motor sports.

12. MD. SALLEH B. ABDUL MANAP: School footballer. . . . House swimming capt. . . . . cycles a lot. AMBITION: Army.

13. CHOON CHEE KAI: Well-behaved. . . . . philatelist. . . . studious.

14. NADARAJAH: Hails from Rawang. . . . Good long-distance runner. . . . House footballer. . . . Red Cross . . . . Boys' Brigade. . . . AMBITION: travel round the world.

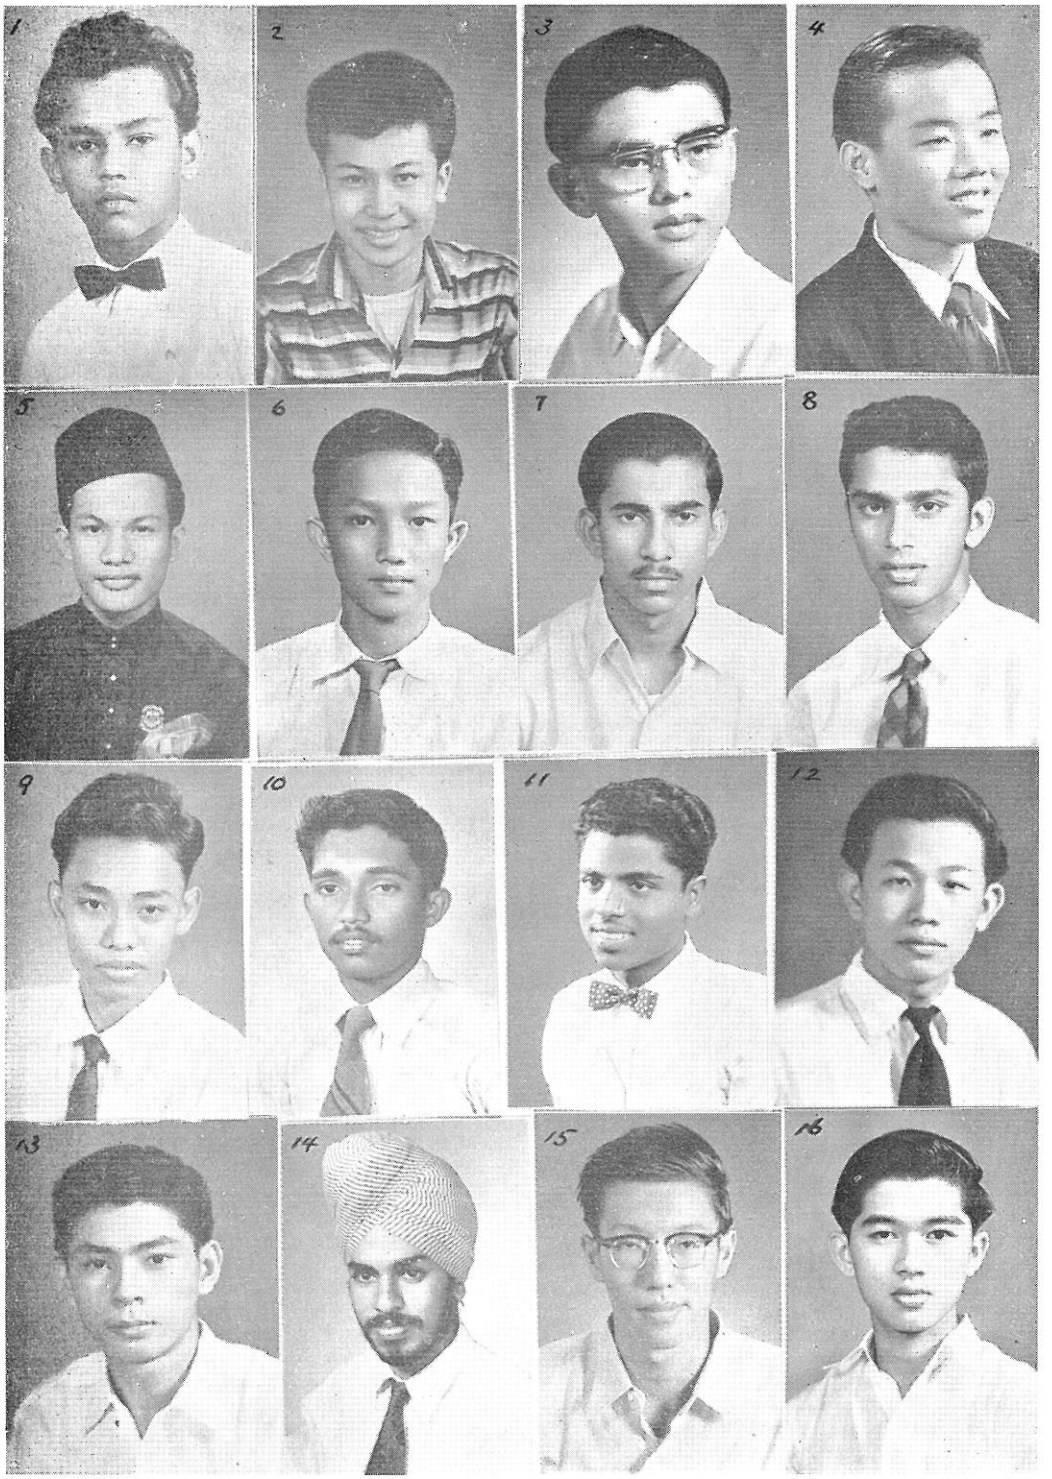

15. ABDUL RAHMAN B. ABD. MANAP: School Capt. . . . House & Hockey Capt. . . plays hockey & football for Combined Schools. . . . . School cricketer . . . . . All-round holder of throwing events.

16. MUSTAPHA B. MD. SYED: House footballer & T.-Tennis player. . . . . cycles & swims.

FORM FIVE STUDENTS.

FORM FIVE STUDENTS

1. PARAMANATHAN, A.: A swimmer and badminton player. AMBITION: Teacher.

2. MAAMUNOR RASHID B. ABD. LATIFF: House hockey capt. & footballer .... an artist..... Red Cross..... Science Society.

3. TAN POK CHIN: A good-looking lad. .. . studious.... Class' star mathematician..... AMBITION: Engineer.

4. TANG SOON SENG: Good rugger-player.... swims.... House footballer.... collects stamps.... Science Society member.... .interested in mechanics.

5. MANSOR B. MANAN: Prefect.... class monitor .... House capt.... .School football & hockey player..... artist.... .swims.... member of Fed. Air Training Corp. AMBITION: take art course in Paris.

6. WONG THONG YEW: High-jumper..... badminton player.... swims..... a philatelist.... Hist. & Geog. Society..... .INTEREST: Mechanics.

7. GNANANDAN, K.: School footballer.... plays cricket.... cycles.... quiet & well-behaved in class.

8. UNNY KRISHNAN: House runner and an all-round sportsman.

9. KAMSAH B. BEDUL: House footballer.... Magazine committee..... friend of Arts Council.

10. VENUGOPAL, S.: President of Film Society.... Magazine committee.... House treasurer..... House fooballer.... Red Cross.

11. SELVARAJAH, S.: House footballer..... plays hockey & badminton..... philatelist..... AMBITION: veterinary surgeon.

12. YAP THEONG HIM: Philatelist.... Red Cross.... plays badminton. AMBITION: business or agriculturist.

13. LIM KOK: Friendly & good-looking..... House footballer.... interested in stamps & badminton. AMBITION: Police Officer.

14. GURNAM SINGH GILL: House cricketer..... .philatelist..... Science Society. ..... .Red Cross.... friend of Arts Council. AMBITION: Police force.

15. TSUNG SIEW WAH: Better known as "John".... six-footer, long jump record holder.... School runner.... Reads a great deal.

16. CHEAM TOON FOONG: School badminton player..... Secretary of Hist. & Geog. Society.... Good in Maths.

1. KUA SIK ENG: Scout. . . . Section leader of Red Cross (Detach. I) artist. . . . . very quiet & hard-working.

2. CHONG SOI WAH: "Mickey Mouse" of the Form. . . . House T.-Tennis player, and footballer. . . . . .swims. . . . .INTEREST: photography, stamps & songs.

3. HUI KOK KUANG: Prefect. . . . President, Hist. & Geog. Society . . . .Head librarian. . . . . plays badminton & t.-tennis for House. . . . reads much.

4. KANDIAH, A.: "Allan". . . . . plays football for Sel. Comb. Schools. . . . long distance runner. . . . . School hockey player. . . .House athletic & football capt. . . . . admirer of Indian literature.

5. PHARAMALINGAM, K.: Plumpest boy in class. . . . friendly, hardworking. . . . . House footballer. . . . AMBITION: veterinary surgeon.

6. BAHARUDDIN B. YAHAYA: Prefect. . . . Treasurer Film Society. . . . House hockey captain. . . . School hockey player. . . . ex-footballer & school runner. . . . .

7. MAH YEW KHEAN: Star School football centre-forward. . . . House football Capt. . . . Red Cross.

8. ONG CHAI BOAK: Quiet, playful but friendly. . . . Plays badminton and table tennis. . . . . Hist. & Geog. Society. AMBITION: engineering.

9. LOW KOW: House vice-capt. . . . & swimming capt. . . . Treasurer, Science Society. . . . . swims & plays basket-ball. Interested in songs & photography. AMBITION: music in Italy.

10. GERALD LOPEZ: "Jerry". . . . hails from Malacca. . . . House Sec., footballer; hockey player, & runner for School. AMBITION: dentist.

11. SALIL KUMAR GOSH: Prefect. . . . monitor. . . . rugger player. . . . . philatelist . . . . Sociable, playful, jovial and adventurous.

12. LAU KIM FATT: Treasurer, Library Committee. . . . . House table tennis player. . . . badminton enthusiast. . . . keeps rare fishes.

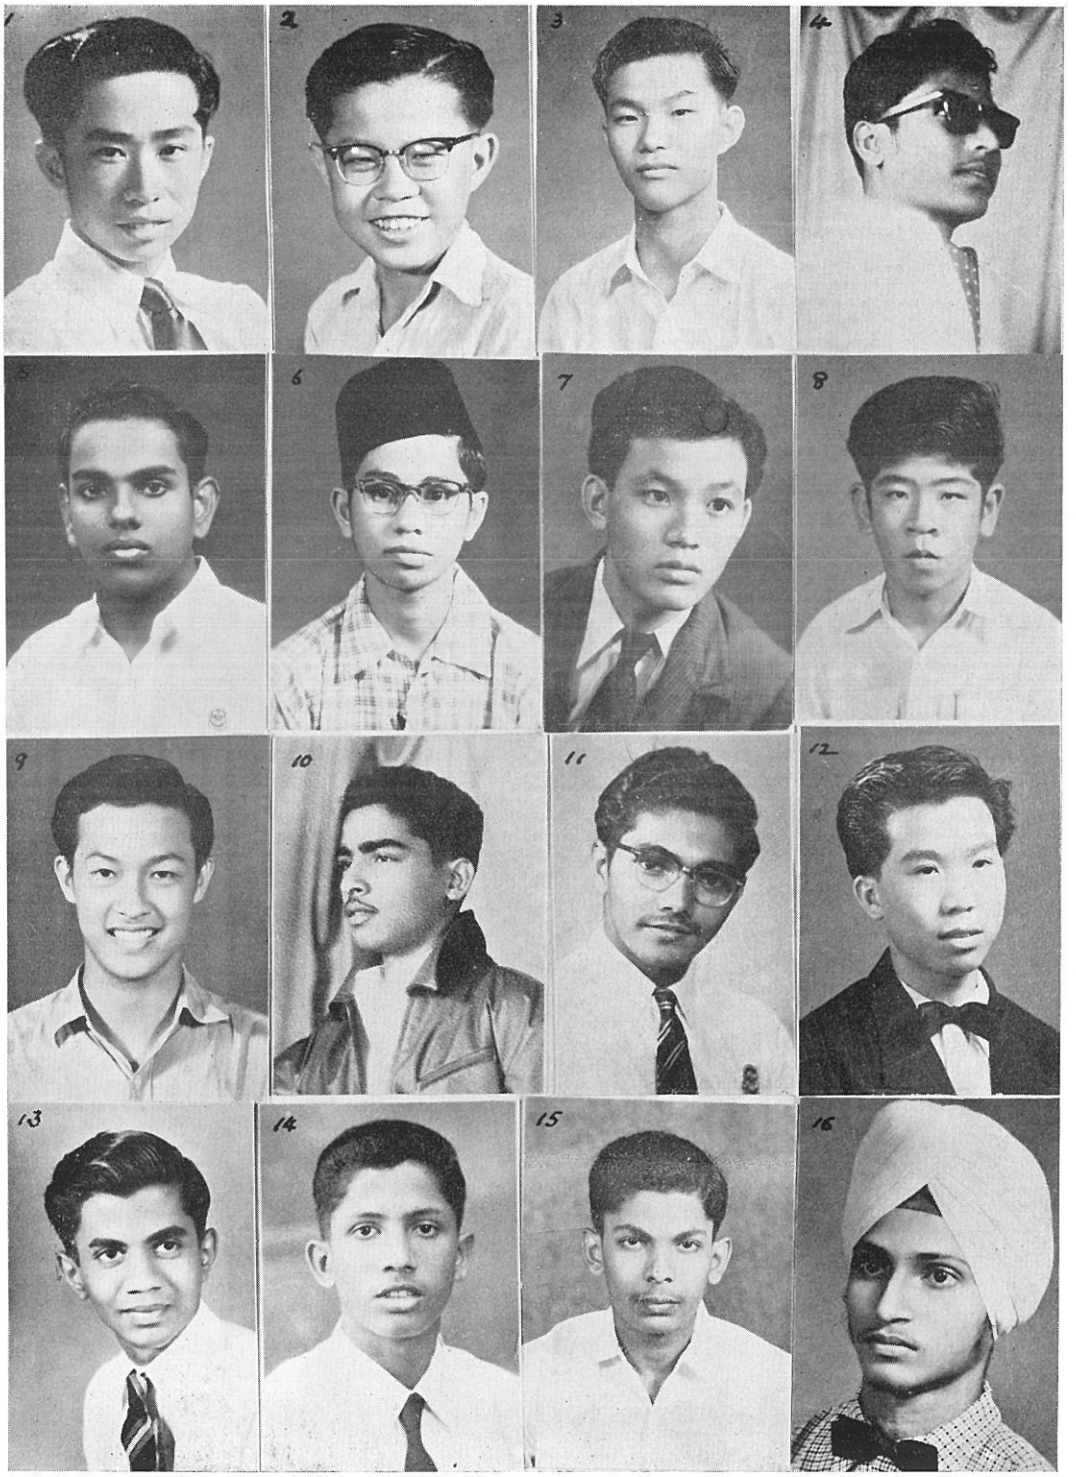

13. CHRISTOPHER SAMUEL, C.: Prefect. . . . Secretary, Chapel Committee. . . . Library Society & Science Society. . . . Member, Hist. & Geog. Soc.

14. MAHENDRAN, N.: Prefect. . . . . House capt. . . . . School cricketer & badminton player. . . . . all-rounder in sports. . . . AMBITION: "Atomic science".

15. HARIDASON, A.: Plays rugger and swims. . . . philatelist. . . . Science Soc. . . . AMBITION: agriculturist.

16. PRITAM SINGH GILL: Editorial Committee. . . . unofficial photographer, School Magazine. . . . keen scout. . . . Secretary, Film Society. . . . Red Cross. . . . . friend of Arts Council.

FORM FIVE STUDENTS.

FORM FIVE STUDENTS.

1. NG YUN HOH: Quiet & hardworking. . . . interested in badmjnton and stamps.

2. ZAINAL ABI DEEN B. HASSAN: House footballer. . . . . swims. . . . .Scout. . . . Hist. & Geog. Society. . . . AMBITION: Merchant Navy.

4. GOPINATHAN, B.: School Vice-Capt. . . . . School cricket capt. . . . President, Science Soc. . . . . House Secretary. . . . . Good in English and Literature.

5. ABDUL LATIFF B. MD. EUSOFF: Quiet boy. . . . plays badminton only. . . . member of Science Soc.

6. IP MENG HUAT: Plays table-tennis & football for House. . . . Never misses State games. . . . . collects stamps & view-cards. . . . St. John's Ambulance.

7. KARALASINGAM, S.: Hails from Central College, India. . . . Meek & quiet but cunning. . . . . philatelist. . . . . footballer.

8. YAP KWAI LOY: Good debater. . . . works hard to expand English vocabulary. . . . collects coins & stamps. . . . AMBITION: higher studies.

9. KAMARUDIN B. OMAR: House footballer. . . . interested in cycling, swimming, and badminton. . . . .AMBITION: Merchant Navy.

10. SATHIASEELARAJAH, M.: House footballer & music enthusiast. . . . .Member of Red Cross & Science Society.

11. WONG SWEE MENG: Prefect. . . . treasurer of Board. . . . House Sec. . . . hard-working. . . . .Maths. his best subject. . . . . swims .. . . Red Cross. . . . AMBITION: engineer.

AUTOGRAPHS OF SENIOR TEACHERS

SCIENCE SOCIETY.

The society kept high the colours handed over to it by its predecessors and elevated them to greater heights by adding substantial merits. The lively state of the society stimulated the interest of students in science to a notable degree; of which our Principal bears witness in his message to the Science Review wherein he states, "The Science Society is a testimony of this interest."

The society has an enrolment of seventy-three. The interest of these members was clearly evident in the General Meeting when they engaged in serious discussions and offered valuable suggestions for the betterment of the society.

The society tried its best at many activities which proved very successful to avhieve its object, i.e. "To create and maintain in the pupils a general interest in Science."

The librarians did a splendid job: they manipulated the School Science Library smoothly and efficiently. The society also conducted three excursions and held two lectures. The official organ of the society, the Science Review, had a good start and achieved a distinguishable position. Till July, three issues had been published.

The following have been the officers for this year:

President:	B. Gopinathan
Secretary:	C. Christopher Samuel
Treasurer:	Loh Kow
Librarians:	A. Swaminathan,
Member in charge of Excursion::	Sivaji
Members in charge of Display:	N. Pandian
	David John,
	Venugopal P.

Concluding, we record our thanks to the advisers of the society, Mr. K. G. Zachariah and Mr. Chang Kwai.

C. Christopher Samuel,
Secretary, Science Society.

SCIENCE

Some Scientific Facts Worth Remembering.

1. The form of every substance in the universe is a question of temperature. A metal taken from the earth to the sun would first melt and then vaporise. Substances which exist as vapours on earth would probably change into liquids in the moon.

2. It has been calculated that if a boring could be made in the earth, 35 miles deep, the air at the bottom would be 1000 times as dense as that at the earth's surface.

3. The whole weight of the atmosphere is equal to that of a layer of mercury 30 inches high spread over the whole surface of the earth.

4. It has been calculated that the total length of the circulatory system of a man ranges from 60,000 to 100,000 miles!

5. The heart acts somewhat like a force pump. It drives the blood out with a force sufficient to raise 5 to 6 feet. This rapid stream of blood is converted into a steady flow by means of the arteries in the body.

6. A balloon will stop rising when its internal pressure is equal to the external pressure.

7. The temperature at the interior of the sun is about 40,000,000°C.

8. The gravity on the moon has only about one sixth the pull it has on earth, so that men on the moon would leap rather than stride.

9. It has been discovered that the force which keeps a planet in its orbit must be inversely proportional to the square of the distance from the centre about which it revolves.

10. The moon is slowly moving further away from the earth. In 50,000,000 years it wil be 340,000 miles away.

Narayanan, Form IV A.

HISTORY AND GEOGRAPHY SOCIETY.

At the inaugural meeting of the History and Geography Society, held in February, the following were elected office-bearers for the year 1958:

President:	Hui Kok Kuang
Vice-President	Ratnalingam
Secretary:	Cheam Toon Foong
Treasurer:	Kunamani

These four formed the Executive Committee that worked in conjunction with the Representative Committee comprised of class representatives. As before the membership of the Society was opened to all students in the secondary classes. This year, eighty-five members were enrolled.

Early in March, films of historical and geographical interest were shown. The next presentation followed two weeks later when Mr. Bruce Barnitt, a New Zealander, was invited to speak on the geographical features of his country. We also had a debate with the K.L. M.B.S. on whether "Malaya was ready for independence." The debate was won by our opponents who proposed the subject.

The Society continued the publication of the "Journal", but it is made a quarterly this year.

Thanks are due to the adviser, Mr. Inder Singh, for helping in the Society's progress.

The Secretary.

FILM SOCIETY.

The inaugural meeting of the Film Society was held in the school hall on the 14th of February. Our adviser, Mr. Low Hung Khing, was present and the following office bearers were elected:

President:	S. Venugopal
Secretary:	Pritam Singh
Treasurer:	Baharuddin bin Yahaya
Members on the Executive Committee:	Danaradha and Govindarajah

The aims of the society are:

1. to show films of educational and entertaining value,
2. to train the members how to handle and operate the film projector,
3. to organise talks and other activities connected with films.

The cabinet met during the first month of each term. This year we planned to show more commercial films, but due to some unforeseen circumstances it was impossible to contitnue them. Apart from that the society showed some educational films to the school boys on various subjects.

In closing this report, I extend my hearty thanks on behalf of the society to all those who took an atctive part in helping us to run the film society and its activities.

Pritam Singh,
Secretary.

LIBRARY SOCIETY.

This year is a very successful year for the Library. Radical changes in its system assisted it to success by leaps and bounds. The main factor which played a leading role in the success of the library was the Library Society which makes its first appearance in the history of our school.

In the society's inaugural meeting on 23rd May, 1958, the following were elected as the office bearers:

Head Librarian:	Hui Kok Kuang
Secretary:	C. Christopher Samuel
Treasurer:	Lau Kam Fatt

The society meets every Friday afternoon in the school library to discuss matters facing the society and many discussions for the betterment of the library are held in these meetings. After the meetings, the members do some odd jobs: viz, typing, arranging and checking the books and magazines, etc.

The number of library hours has also increased during this year. Apart from school hours the library is open from 7.00 a.m. to 7.35 a.m. just before school begins, and from 1.20 p.m. to 6.00 p.m. every Friday, and on Saturday from 2.00 p.m. to 5.00 p.m.

There are now more books than ever, ranging from sets of encyclopedia to classical literature. The total number of books increased considerably during the first seven months of the year. New methods of classification and cataloguing have been introduced to speed up the work of the librarians. For classifications the Dewey decimal system has been adopted.

These changes were only possible because of the persistent hard work of the society and the valuable advice given by Mr. Jim Forshey to whom we convey our thanks.

C. Christopher Samuel.
Secretary,
Library Society.

CHAPEL COMMITTEE.

"The fear of the Lord is the beginning of wisdom." Ecclesiates 1:16.

The chapel service, as part of the school curriculum, enables the student to realise the imperative need for spiritual strength in his life and to achieve the realisation. The committee not only endeavours to achieve the above objects but also encourages the student to take active part in all spiritual activities, such as conducting services.

Every Friday, a Christian student leads the Chapel Service. The service's programme usually consists of a few hymns, prayers, Bible readings, responsive readings and a message. The messages in the services are usually given by guest speakers or by our school staff.

Once a term we have a song service wherein new hymns are taught by Mr. Chang Kwai to whom we express our thanks.

The chapel committee extends its sincere thanks to Mr. Watson for his constant advice and guidance which enhanced the success of the committee.

C. Christopher Samuel
Secretary,
Chapel Committee.

PREFECTS NOTES.

The Prefects Board of this year was comprised of the following members:

Abdul Rahman
Gopinathan B.
Bala Krishnan K.
Balwant Singh
Baharuddin
Mahendran
Yim Chee Kiong
Pandian
Venugopal
Murugiah
Hamsah
Yip Swee Mun
Christopher Samuel
Mansor
Wong Swee Ming
Maharajah S.
Hui Kok Kuong
S. Kumar Ghosh
Ratnalingam
Walter Kok
Pararajasingam

This year thirteen new prefects were added to our Board making a strength of twenty-one. The new prefects were elected in November, 1957, from Form III and above, by secret ballot. The school captain and vice captain were also elected during the same month. The prefects were inaugurated on 17th March by the principal, Mr. Kok Ah Too, in the general assembly of the school.

At the first general meeting of the Prefects Board the following were elected office bearers for the year 1958:

Abdul Rahman	—	Chairman
Gobinathan B.	—	Assistant Chairman
Bala Krishnan K.	—	Hon. Secretary
Wong Swee Ming	—	Hon. Treasurer.

The Prefects Board holds a meeting once a fortnight to discuss ways of improving the school and to devise effective methods for the maintenance of good discipline.

The Prefects court deals with the offenders and gives them minor work to do, according to the manner of the offences. This year very few offenders appeared before the Prefects Board. This clearly indicates that a sense of discipline has been impressed upon the minds of the pupils. The Prefects did their utmost to maintain the school discipline thus upholding the prestige of the school.

There was a slight alteration in our duty list this year. Throughout the week every prefect was given a duty. Unlike the previous years there were no prefects who were free. This alteration did not bring about any dissatisfaction; instead the prefects carried out their duties efficiently and to the best of their ability.

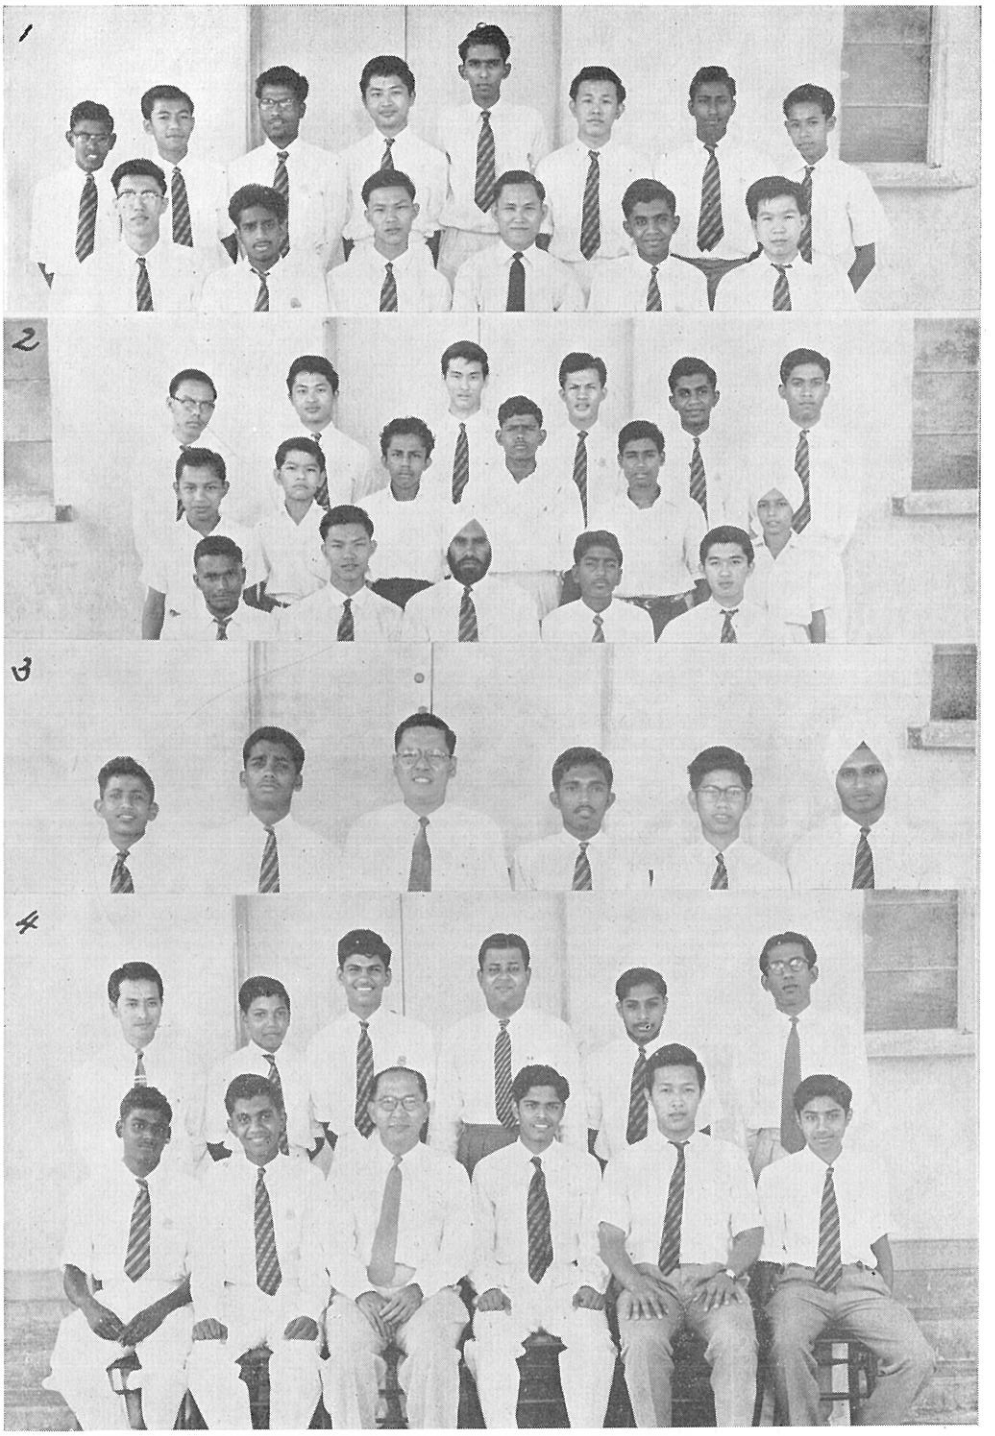

Our prefects took keen interest on sports. They took part in the various sports meets and were successful in winning the interschool Prefects relays with flying colours. For the first time in the history of the school, we introduced a new item, 'The Interschool Prefects Relay for Girls' in our sports meet. Apart from that we also had a relay for boys.

At the beginning of the year some of our prefects took part in the dances organised by the Malayan Association of Youth Clubs. We really had a grand time under the watchful eyes of the American, Rickey Holden. We are thankful to the M.A.Y.C. for being kind enough to ask us to join them.

We had our annual social in the middle of July. Prefects of our board played hosts to prefects of the Senior Methodist Girls' School at the social in our school hall. We are indeed grateful to Mr. Tham Seong Chee who was gracious enough to act as the master of ceremonies. By the interesting games he introduced we indeed had a jolly good time and enjoyed it greatly.

Lastly, on behalf of the Prefects, I wish to thank our Principal and disciplinary master for their guidance and co-operation rendered to us.

Bala Krishnan K.
Hon. Secretary.

Sitting:—David John, Christopher Samuel, Pandian & T. Victor.

ANNUAL SCHOOL SPORTS.

The annual School Sports was held in sunshine on the school field Saturday the 21st June, 1958. The day was one of joy and excitement for the whole school. Shouts, cheering, and applause reigned over the field.

We were indeed most fortunate this year in that we had a beautiful Malayan afternoon and a very good track. With all the advantages and an array of glittering cups, the events were run off with absolute precision.

At about 3.30 p.m., all the competitors began the March Pass round the track, keeping step to the music. As usual the contingent was led by the School Captain and the Athletic Captains. The School Captain was keeping timing by shouting, "Left, Right....." When the Captains (including the four house-captains) passed the pavilion, they tipped their flags. When they came to the starting place, the captains of various houses (including the Athletic captain) ran up the old school building and hoisted their respective flags. After that the School Captain came forward and said the oath, and the march ended. Slowly the events were run off. Many new records were founded.

Our heartiest congratulations are extended to the 4 x 110 Prefects Inter-School Baton Relay for girl Prefects. Only two schools were represented in this event. They were Convent and St. Mary's School. The runners of St. Mary's School walked off with the prizes for this event.

Our heartiest congratulations also to the boys schools who took part in the Inter-School Medley Relay for Prefects and Inter-School Baton Relay for ages above and below 15 years.

After the last event the boys heard the Sports Secretary's whistle and the boys lined up and in an orderly manner marched up to the pavilion keeping time with the music played.

"All's well that ends well" and so after an eventful and successful afternoon the Principal, Mr. Kok Ah Too, thanked everyone in his message. Then Datin Puteh Mariah binte Ibrahim Rashim gave away the prizes. Mr. Tham Seong Chee was a stand-by at the prize table with a scout. After giving away the prizes, a cub presented a bouquet to Datin Puteh.

Joseph A. Seewaratnam.

ACKNOWLEDGMENTS:

We thank the following for the lending of equipment and for their help during the Sports Day:

1. Headmasters and Sports Secretaries of
   St. John's Institution
   Pasar Road School
   Methodist English School, Banting
   for the loan of Stop Watches, etc.
2. The Malayan Railways for the loan of tarpaulins and scaffoldings.
3. The O.C.P.D., Kuala Lumpur District for Police assistance in crowd control and traffic.
4. The St. John's Ambulance for rendering First Aid.
5. The Principal, M.A.S., Sentul for the loan of ropes and flagpoles.
6. All officials and well-wishers who have helped in the Sports.

Class One Individual Champion — S. Maharajah
Class Two Individual Champion — Rajan Nair
Open Events Champion — Abdul Rahman bin Manan.

SOCCER 1958

From a scratch side, through the enthusiastic coaching of Mr. J. N. Singam and Mr. Low Hung Khing, the Masters in Charge, we were able to field a team which turned up to be very successful.

The Inter-House Competition was played on a league system and the White House emerged as unbeaten champions.

In the Inter-school matches played, the results were as follows:

MBS Sentul vs. Victoria Institution	Drew	2-2
MBS Sentul vs. MBS K.L.	Lost	1-2
MBS Sentul vs. MAS K.L.	Won	5-0
MBS Sentul vs. MAS Sentul	Lost	2-5
MBS Sentul vs. Maxwell School	Won	3-0
MBS Sentul vs. MBS K.L.	Lost	0-1
MBS Sentul vs. Maxwell	Lost	1-2

We entered for the "Inche Johari Cup" Competition. We won the first round by defeating the Commercial Institution by 2 goals to nil, but were unfortunate that we were beaten in the quarter finals by the St. John's Institution by three goals to one. We are proud that three of our school players, Shanmugam, Kandiah, and Abdul Rahman have represented the Selangor Combined Schools. Shanmugam represented the victorious Selangor Schools Soccer team that won the much coveted Prime Minister's Trophy.

The following boys represented the school XI: Chong Kok, Jalaludin, Maharajah, Bala Krishnan, Shanmugam, Mustapha, Anandan, Abdul Rahman, Mah Yew Khean, Kandiah, Kok Kong, Mansor, Salleh, Leng Sung, and Mazlan.

Shanmugam.

HOCKEY.

When we started our season we found ourselves without most of our last year's players. After many practices we managed to field a scratch team which naturally was not very strong, as most of the players were young and inexperienced. We hope to build a strong team next year. The school is proud of Abdul Rahman for being the Vice-Captain of the Selangor Combined Schools XI for the second year in succession.

In the School Inter-House knockout competition Red House emerged Champions and Green House the Runners-up. The Red team also beat "the rest" by three goals to two.

To those players leaving school I take this opportunity to wish them good luck and to future players I say, "Play hard; don't be discouraged."

The following represented the School: Wong Chee Chai, Yaw Kay Choon, Munjit Singh, V. Kandiah, Abdul Rahman, Abdul Wahid, Gerald Lopez, Baharuddin, Ibrahim, Yim Chee Keong, Baldev Singh, Ratnalingam, Kamar Ahmad, Murugaiah and Kuldeep Singh.

Abdul Rahman Manaf,
Hockey Capt.

CRICKET.

Cricket Master	—	Mr. E. T. D. Noah
Cricket Captain	—	Gopinathan
Vice-captain	—	Unny Krishnan

We had a fairly successful season this year although we were not able to emulate last year's performance. A comparatively younger team took the field and certainly lived up to its reputation and with Mr. Noah as Cricket Master we began the season rather early to give the new Talents "big match experience". The very first game saw us defeat the Y.M.C.A. followed by a respectable "draw" with the T.P.C.A. 'B'. The ace was set and almost every Saturday we played in true M.B.S. fashion. The team owes its success to Mr. Noah who sacrificed much time to be present during the matches.

On Mondays we had net practices at the Selangor Padang and for this we are grateful to Mr. Walker and Mr. Sivagnanam. As the Vanderholt Competition neared we were strongly favoured to retain the trophy. We began in grand fashion with a resounding 140 run victory over the Klang High School. Unny Krishnan and Munjit Singh excelled with the bat and Pandian with the ball. In the semi-finals we met the M.B.S., K.L. We began shakily on a treacherous wicket having been sent in to bat, and we made only 104 runs. But the K.L. boys yielded to our pressure and it was not long before Murugaiah 'spun' them back to the pavilion for a meagre 51 runs. This victory brought us to the finals and on July 26, we ran out of luck and were surprisingly beaten by the Victoria Institution.

The following are thumbnail sketches of some of our Stars.

Unny Krishnan: Vice-captain and opening bowler. Although Unny is essentially a bowler, he is also a good batsman, and has come to the rescue during many a 'tight' position.

Yaw Kay Choong: This lanky cricketer is a brilliant all-rounder. He opens the bowling for the school and emerged the most successful batsman. Having a good reach, he is the bowler's 'heartbreak' and excels in beautiful off drives. He has represented the S.C.R.C. and scored 82 for the school against his own club.

Murugaiah: In him we have a State player in the making. The School's opening bat, he has represented the Selangor Combined Schools for two years. He is a very stylish batsman and is particularly strong on the off. He is also a school bowler specialising in slow 'leg-breaks'.

Pandian: Our one-down batsman Pandian is also an all-rounder. He is very aggressive and had an extremely successful season. His footwork is brilliant and he packs a powerful cover drive. Also a useful one-down bowler.

Munjit Singh: Our 'Godfrey Evans' Munjit represents the Selangor Combined Schools. He stands well even up to Unny's fast ones and is famed for his lightning whips. Barely five feet tall he undoubtedly has a promising future.

Gopinathan,
Cricket Captain.

BADMINTON

At the beginning of year, our school was unlucky in losing the nucleus of last year's school badminton team. Cheong Yong Fatt, last year's captain, Cheong Yong Chew, Hassan, Pathmanathan, Tan Leng Lee and Chan Kee Chong have all left school. We wish them the best of luck in their future badminton career.

The Badminton Tournament was held mid-year, but on a different set up. It was decided to abolish the Junior Section, and for the first time, the doubles was held. The number of entries for the singles and doubles was poor, and it was noticeable that many good players did not participate, imagining they would be facing strong opposition. It is hoped that in the future the badminton players will realise that success is gained only through the experience of failures. Anyway it was decided that there would be a singles and doubles Tournament for boys from Forms I-III. The result of the two tournaments were as follows:

School Open Tournament:—

Singles Champion: Goh Hock Weng
Runner Up: Venugopal
Doubles Champion: Yaw Kay Choong and Venugopal
Runner Up: Lim Ah Kow and Goh Hock Weng.

Forms I-III Tournament:

Singles Champion: Lim Ah Kow
Runner Up: Goh Hock Weng
Doubles Champion: Lim Ah Kow and Goh Hock Weng
Runner Up: Henry S. and Mazlan.

On behalf of the players I would like to thank Mr. Tham Seong Chee, Master-in-charge, for the valuable time he spent in coaching the team.

We played some matches this year with successes and defeats. The following players represented the school.

P. Venugopal (Captain), Lim Ah Kow (Vice-Captain), Yaw Kay Choong, Goh Hock Weng, Kunamani, Balwant Singh, Toon Fong, Mustapha.

P. Venugopal.

TABLE - TENNIS.

This year, unlike other years, our school was able to play numerous matches with other schools and though with the noticeable absentees in Cheong Yong Chew, Cheong Yong Fatt, and Wong Ah Ha who have left us since early this year, there was no problem to choose other players to replace them.

We started the season in the middle of March when the Inter-House Tournament was played. Green House with three school players in Hai Ong, Kok Cheong and Swee Mun emerged the champion house with an unbeaten record. Blue House was a close runner-up.

Altogether we played six matches during the second-term and the results are as follows:

High Street School	Lost	3-4
Commercial Institution	Won	5-2
High Street School	Lost	3-4
Maxwell School	Won	5-2
Maxwell School	Lost	3-4
Commercial Institution	Lost	2-5

Yap Hai Hin successfully defended his title in the Open Singles Championship Tournament. He easily beat Tan Chin Yan in the finals. The Doubles title went to the "Yap" brothers: Hai Hin and Hai Ong who beat Swee Mun and Hong Kuen.

On behalf of the school team which is comprised of the following players: Tai Hong Kuen, Yap Hai Hin, Yap Hai Ong, Tan Chin Yan, Lee Kok Cheong, and Yip Swee Mun—I wish to thank Mr. Low Hung Khing, the master-in-charge, for his able and active guidance that helped us to improve tremndously in this game.

Yip Swee Mun.
Table-Tennis Captain.

SWIMMING NOTES.

Master-in-charge: Mr. Chang Kwai
Captain: Jalaludin M. Alias
Vice-Captain: Leong Kok Kong

Our boys had swimming at the Victoria Institution Pool on Tuesdays from 4.10 p.m. until 5.00 p.m. The fact that we had to limit the boys to forty during each swimming period shows how interested our boys are in swimming. There was no Inter-House swimming competition as there were not enough good swimmers.

During our swimming period while Mr. Chang Kwai was instructing the group of beginners, the advanced group had to practise on their own until Mr. Chang Kwai was free.

We formed a swimming team this year to compete in the Inter-School Combined Swimming meet at the Victoria Institution.

Jalaludin M. Alias.
Swimming-Captain.

ATHLETICS NOTES.

Our School Senior Relay team has had quite a successful season. This year we saw the Team taking part in many invitation relays.

Although two of our best runners have left school, we put up a creditable performance every time we took part. Our squad came near to winning many of the invitation relays.

Our best performance this season was at the Telecoms Sports, where the Victorians beat us by a nose. But we must always bear this in mind: The important thing in athletics is not winning but to try hard.

These are the results for this year:

School	Placing
A.C.S., Klang	Third
M.B.S., Sentul	Second
V.I., K.L.	Third
Maxwell School, K.L.	Second
St. John's, K.L.	Third
Telecoms (Cheras Road)	Second
Kishan Dial School, K.L.	Second
M.A.S., Sentul	Second

Runners

1. Lawson G. (Capt.)
2. Maharajah
3. John Chan
4. Jalaludin
5. Swee Mun (Reserve)
6. Wahid (,,)

Lawson G.

BLUE HOUSE.

"Act as if it is Impossible to Fail."

House Captain:	—	Mansor Rosedie
Vice Captain:	—	Gananandan
Secretary:	—	Gopinathan
Asst. Secretary:	—	Hui Kok Kwang
Treasurer:	—	Balwant Singh
Football Captain:	—	Allan Kandiah
Cricket ,,	—	S. Murugiah
Badminton ,,	—	Balwant Singh
T. Tennis ,,	—	Yap Hai Hin
Hockey ,,	—	Baharuddin
Swimming ,,	—	Chota
Athletic ,,	—	Allan Kandiah

We had quite a successful season this year and we emerged the runner-up in our annual athletic meet. Our boys certainly lived up to the motto and with burly Gananandan and crack half-miler, Allan Kandiah, leading the field, the younger boys although comparatively smaller both in age and size did remarkably well at the track. It was in early June that we became widely optimistic about our chances for that lanky (6′ 3″) hurdler from Singapore, John Tsung Siew Wah found himself in Blue House. This magnificent leap of twenty one feet in the long jump not only realised a new school record but also he is the best long jumper in the State to-day. Well done lofty.

Easily the most promising athlete in the school to-day is the young class II middle distance runner Gordon Edmonds. This boy has beautiful strides and with a bit of expert coaching he could be a record breaker in time to come.

Anandan showed his merit in the field events while Mansor with his terrific finish helped in the inter-house relays.

Cricket: Although the competition is yet to be completed there seems to be very little doubt as to who the champion will be this year, for we have three school players, Murugiah, Chee Chye and Gopinathan and a number of potentials in our young but enthusiastic eleven.

School Table-Tennis champion, Yap Hai Hin, led a Formation team to second place in the table-tennis tournament and did equally well at soccer.

Finally we extend our thanks to House masters Messrs. Inder Singh and William David for their untiring efforts in bringing success to us.

Gopinathan Menon,
House Secretary.

GREEN HOUSE.

Motto: To strive, to seek, but not to Yield.

House Masters:	—	Mr. K. G. Zachariah
		Mr. M. K. Menon
House Captain:	—	Mr. N. Mahendran
House Secretary:	—	Mr. Gerald Lopez
House Treasurer:	—	Mr. Yip Swee Mun
Athletic Captain:	—	Lawson George
Football Captain:	—	Abdul Wahid.
Cricket ,,	—	Padmanathan
Hockey ,,	—	Mohd. Kamar
Badminton ,,	—	Goh Hock Weng
T.-Tennis ,,	—	Yap Hai Ong
Swimming ,,	—	Mohd. Salleh

Comparing our continued success in the past years we should say that the year 1958 was indeed a gloomy one.

In the football competition we were not able to push past the first game. Our athletes did their best in the field but their efforts and energy could not hold back the honours and prestige that we once held. Special mention must be made of our Division One Athletes among whom P. Nadarajah and Gerald Lopez were outstanding in the individual events. Credits should also go to our Division Two Athletes among whom V. Welsy and Rijaludin share much of the honour for their performances.

In the Table-Tennis competition our House emerged as CHAMPIONS and it was due to the brilliant display by Yip Swee Mun and his team mates.

In the Relay race our house gained First place; it is only because of our first Class runners Yip Swee Mun, N. Mahendran, Gerald Lopez and Lawson George.

We congratulate Goh Hock Weng for proving his worth in the Badminton Championship by becoming the best Singles Player for the year 1958.

We thank the House Masters for their encouragement and other members of the house for their co-operation and help.

We wish success to GREEN HOUSE in the years to come.

Gerald Lopez.
House Secretary.

RED HOUSE.

Motto: Win if you can, lose if you must, but always play hard.

House Master:	—	Mr. V. Balasingam
Asst. House Master:	—	Mr. C. A. Watson
House Captain:	—	Abdul Rahman Manaf
Vice Captain:	—	N. Pandian
Hon. Secretary:	—	Wong Swee Meng
Hon. Treasurer:	—	Yaw Kay Choong
Soccer Captain:	—	Mah Yew Khean

Cricket	,,	—	Manjit Singh
Badminton	,,	—	Kunamani
Hockey	,,	—	Yaw Kay Choong
T. Tennis	,,	—	Yap Boon Gan
Athletic	,,	—	Abdul Rahman Manaf
Swimming	,,		Low Kow

We are proud in having the school captain, Abdul Rahman and a few Prefects in our House.

In the Inter-House soccer tournament our house so far has done quite well. Our Class II team has won all the games but our Class I & III were not so fortunate. We have a few more games to play. Mustapha Kassim, Mah Yew Khean, Kamarudin Omar, and Abdul Rahman are in the School 1st XI. Mustapha is also a reserve in the Selangor Combined Schools XI.

With school cricketers like Manjit Singh, Yaw Kay Choong, Ibrahim, Walter Kwok, Pandian and Terlachan Singh we are strongly tipped to retain the Inter-House Shield for the third time. We have so far played one game and we have won the match. Manjit Singh, the House Cricket captain represents the Selangor Combined Schools XI.

In the School Badminton tournament many enthusiastic members took part. Kay Choong was one of the doubles champion. Kunamani, Mustapha and Kay Choong are in the school team.

We are glad that we are placed third in the Inter-House Table-Tennis tournament. Thye Hon Kuen was one of the doubles champions and the only Red House boy in the school team.

Abdul Rahman and Manjit Singh the backbone of the school Hockey XI last year are still with us. We look forward to a favourable season. Ab. Rahman also represented the Selangor Combined School Hockey Carnival at Singapore last year.

We are the first to achieve the distinction of winning the Champion House trophy for the third time in succession. This success is due to the team spirit. We congratulate all those who participated in the School Athletic Sports this year. Our special thanks should go to Pandian, Rahman and Mah Yew Khean for their trying efforts in training the athletics. We are also proud of Rajan Nair who became the Class II champion, Abdul Rahman who carried the open events champion cups and Pandian who broke school athletics records and who completed in most of the long distance events untiringly. Some of the school athletics records were broken by the other Red House boys.

Our general success this year is greatly due to the guidance and keen interest of the house masters. We are grateful to them.

Finally to all Reds who are leaving school at the end of this year we take this opportunity to wish them every success in life.

Wong Swee Meng,
Hon. Secretary.

WHITE HOUSE.

Motto: "We will do our best."

House Master:	—	Mr. J. N. Singam
Asst. House Master:	—	Mr. Jim Forshey
House Captain:	—	S. Maharajah
House Vice Captain:	—	K. Shanmugam
Hon. Secretary:	—	P. Venugopal
Hon. Treasurer:	—	S. Venugopal
House Soccer Captain:	—	K. Shanmugam
House Cricket Captain:	—	Venugopal
House Hockey Captain:	—	M. Rashid
House Badminton Captain:	—	P. Venugopal
House T.-Tennis Captain:	—	S. Joseph
House Swimming Captain:	—	Kok Kong

Athletics: With the exception of one boy, the Class I boys' performance was very disappointing The Class II boys did very well, especially in team events. Due credit should be given to S. Maharajah who kept the House flag flying on the Sports Day. He eventually became the individual champion in Class I. Congratulations to you, Maharajah! From at the bottom of the table last year, this year we managed to climb one step up, thus gaining a fourth position.

Soccer: Possessing several school players and a combined school player in the A Division and very promising brothers in the B Division, we became the unbeaten champions in the Inter-House Competition. We have players like Shanmugam, Maharajah, Mazlan, Rashid, Manaf and Kok Kong, all of whom have played for the school. As most of the A Divisions boys will be leaving us this year, we hope that our brothers will keep up our reputation.

Congratulations to both A and B teams!

Cricket: Players like Devaraj, Kim Seng, and Gurucharan Singh are notable absentees in this year's team. In the Inter-House Competition we were unfortunately knocked out by the Blue House. As most of the members are still young, it is expected that they will do well in the years to come. Venugopal is the only school cricketer in our House.

Hockey: At the time of writing the Hockey season has not yet started. Judging from the number of boys practising, a very keen competition is expected.

Badminton: There are several promising young players in the House. Again Venugopal is the only player worth mentioning. Buck up boys!

Table-Tennis: We practically have no players in this game and as a result nothing much was expected from them.

Swimming: We do not have any good swimmers as in the past. But anyway a keen interest was shown by regular attendance at all practices conducted by Mr. Chang Kwai.

Lastly, we wish to take this opportunity to thank our House Masters, Messrs. Singam and Forshey, for their keen interest and counsel.

P. Venugopal.
Hon. Secretary.

YELLOW HOUSE.

Motto: Perseverance is success.

House Masters:	—	Mr. Chang Kwai
		Mr. Wong Sho Kee
House Captain:	—	Jalaludin bin Alias
House Secretary:	—	Unny Krishnan
House Treasurer:	—	Yim Chee Keong
Football Captain:	—	Balakrishnan
Cricket ,,	—	Ratnalingam
Badminton ,,	—	Chandran Palpoo
Hockey ,,	—	Unny Krishnan
Swimming ,,	—	Jalaludin bin Alias
Table Tennis ,,	—	Lee Cheong Kok
Athletics ,,	—	Unny Krishnan

There has been considerable improvement in the standard of athletics for Yellow House boys have fought hard to bring their position to a more respectable class than it was last year. Old stalwarts, such as Perampalam, Lim Chee Liang and others, have left the school and the burden of the responsibilities have fallen mainly on the House Masters and a few of the older boys, namely Balakrishnan, Jalaludin, Cheong Kok, Unny Krishnan and Yim Chee Keong.

Outstanding performers in the various fields of sport include:

Cricket: Ratnalingam, Unny Krishnan and Yim Chee Keong.

Hockey: Unny Krishnan and Yim Chee Keong.

Swimming: Jalaludin, Yim Chee Keong.

Football: Balakrishnan, Jalaludin, Lee Cheong Kok, and Unny Krishnan.

Athletics: Jalaludin, Unny Krishnan, Cheong Kok, Balakrishnan.

Finally, we thank Mr. Chang Kwai who turned up regularly for sports practices and coached us.

Unny Krishnan.
House Secretary.

The Champion House—Red.

School Runners

Badminton Team

SCHOOL RUNNERS.

Front:—Ibrahim, Rajan Nair, Cheong Yong Yin, Rijaluddin.
Middle:—Maharajah, Tsung Siew Wah, Mr. Low Hun Khing, Mr. Tham Seong Chee, Lawson, G., Jalaluddin.

BOYS SCOUTS.

Sitting:—Ng Iye Yong, Kua Sik Eng, Lawson, G., Navaratnam, Shanmugalingam, Jeyachandran, Ng Iye Chin.

FUN FAIR, 1958.

The School Fun Fair this year was a success. It began in September with a slow start and ended in October with an enthusiastic finish.

On the day although the festive spirit was somewhat dampened by a passing shower the weather was kind to us. Everything went off well. The stalls to close last at 7 p.m. included the Chinese and Indian Food Stalls, the Drinks Stall, the Jumble Sale, and the Games Stalls. "Hitting the Gong" drew an ever increasing crowd of the young and not-so-young. The other stalls also enjoyed a heavy patronage right from the start.

That the Fun Fair was a great success was evident of the close co-operation between the Secondary and the Primary Schools.

We sincerely thank all those who have helped in this profitable project.

THE FEDERATION OF MALAYA RED CROSS SOCIETY

SELANGOR BRANCH—DETACHMENT ONE.

Last year was a very important year for the Red Cross in the Federation. The New Federation of Malaya Red Cross Society was founded in October when Lady Limerick visited Selangor for the purpose of handing over British Red Cross to the Federation.

Our detachment, too, had a slight change. Mr. E. Kanagaratnam, our former Commandant, resigned from his post during the earlier part of this year and his successor was Mr. M. Mahadevan. It was a great honour to our detachment that all of those who sat for the Advanced First Aid Examination passed with great satisfaction. This year, more members are sitting for the examination while others are aiming for the proficiency badges.

A vast number of duty hours have been performed by our members; this included the ECAFE Conference, MAHA Exhibition, Merdeka Trade Fair, weekly duty in the Cathay Theatre and many other minor duties. All members are quite active; and on the whole the activities and duties of our society have been carried out satisfactorily throughout the year.

Kua Sik Eng.

SECOND KUALA LUMPUR COMPANY OF BOY'S BRIGADE.

The Second Kuala Lumpur Company was established early this year. It is associated to the Grace Methodist Church and the Methodist Boy's School, Sentul.

The object of the Boys' Brigade is "the advancement of Christ's Kingdom among boys and the promotion of habits of obedience, reverence, discipline, self-respect and all that tends toward Christian manliness."

Meetings are held every Sunday for Bible class and Monday evening for drill parade, inspection, and games. Apart from these the boys are trained in first aid, physical training, gymnastics, swimming and other activities that are of value to the boys.

At present the boys are supplied with full uniform and some of the boys will be attending the Pan-Malayan Camp at Morib. Under the command of Captain C. Park and the five non-commissioned officers the company is progessing rapidly.

Lee Cheong Kok,
Warrant Officer.

17th KUALA LUMPUR SCOUT TROOP.

Scout Master: Mr. William David.

Troop and Patrol Leaders: P. Navaratnam, George Lawson, Jayachandran, Ng Iye Chin and Ng Iye Yong.

The name of our group has been changed from "Second Sentul" to the "Seventeenth Kuala Lumpur." We have a total membership of thirty. The boys are full of enthusiasm and show great interest in scouting. Eventhough we have only one scout master we are able to carry on successfully with the help rendered by the leaders and the co-operation given by the boys.

We have meeting on every Saturday afternoon. The attendance is satisfactory. The boys are given good training so that they will "Be Prepared." Our "Court of Honour" meets every month to plan programmes for the meetings and to discuss the general discipline of the group. We see that each scout obeys the scout laws and promise.

There are two First Class scouts, and some Second Class scouts are completing their First Class tests.

During the school holidays we had many camps and hikes. Some of the scouts passed their proficiency-badge tests during the camping. We have decided to hold a camp at P. Longkawi Islands during the December holidays. To this camping we will be inviting scouts from other groups in Kuala Lumpur.

The boys of our group assisted in the opening ceremony of the school workshop, Primary and Secondary School Sports, M.G.A.S. Sports, Sentul Works Sports and the M.A.H.A. Exhibition.

We hope to have more members in our group. Our aim is to give good training to boys in scouting so that they will prepare themselves to become good and useful citizens of Malaya.

P. Navaratnam.

METHODIST YOUTH FELLOWSHIP.

It is interesting to note that many of our boys are members of MYFs not just in Sentul area but also from others in Kuala Lumpur. Since our school reaches boys from all parts of Kuala Lumpur area, we find our boys in almost every MYF, Intermediate or Senior, in the Kuala Lumpur area.

These MYFs have a variety of activities and programmes which are all in keeping with their motto, "Christ Above All." The MYFs of Malaya have recently accepted a new programme planning scheme which is divided into five programme areas. Through these programme areas the local chapter seeks to administer to its members in all areas of their lives. The new programme areas are Christian Faith, Christian Witness, Christian Outreach, Christian Citizenship, and Christian Fellowship. One member is elected to each one of these posts and seeks to carry out the work of the chapter through these programme areas.

The District MYF Council has sought to do a lot to help the respective MYFs in our area. Quarterly the District Cabinet meets, district officers and local chapter presidents, to discuss their problems and bring forth programme ideas and plans. The district has accomplished already or will accomplish the following projects through this year: District Spiritual Retreat at Morib, Intermediate MYF Leadership Training Course, visitation of cabinet members to weaker MYFs in the district, printing of the "District Quarterly" newspaper and the annual general meeting and rally to be held on December 7th on District MYF Sunday at K.L. Wesley. The most promising project of the year has been the beginnig of the District newspaper, the District Quarterly. This newspaper is printed quarterly and includes articles and news from all MYF and helps for more effective MYFs. The circulation is well over 600. With this and many other projects and helps of interest we are looking forward to a sounder and stronger MYF district in the Kuala Lumpur area.

1. Some Form Five boys at the Chin Woo Pool. 2. The more adventurous ones at Port Swettenham to see the INS "Delhi". 3. Science Society on roof top of the Malay Mail Building. 4., 5. Waiting for the ECAFE Conference to start. 6.,7.—Our Cricket Team in the "Vanderholt Shield" Final at the Selangor Club Padang. 8. Dissected biology specimen for "pure" science class.

THE HEADMASTER'S MESSAGE.

I wish to take this opportunity through this medium to invite parents to visit the school in order to get acquainted with the teachers and the school programme. Quite often, a parent visits the school only when the child is in trouble. This should not be the only reason.

The home should co-operate with the school in every possible way to enrich the life of the child. Parents should know what the school is offering in the way of informational study and should enrich the information by means of supplementary books, by pictures, by trips, and by excursions where it is possible and advisable. The home should also co-operate by providing the material a child needs to express himself, such as clay, paper, paints, and plasticine. It is a well-known fact that children's achievement in school subjects is influenced to a large degree by the experiences, interest, and understanding which parents do or do not provide at home.

We should not forget that the school children of today are the adult citizens of tomorrow. What they learn, how they learn, and the environment in which they learn will determine the kind of world they will build on the structure we have reared for them. Therefore, it is up to all citizens, not merely parents, to know and understand the school programme and do their part in shaping it. In the schools, lies our highest hope of preserving the individual freedom for which our country stands.

Wong Lai Yuen.

TEACHERS WHO LEFT THE M.B.S. (PRIMARY SCHOOL) SENTUL.

		Date of resignation
Miss Tai Poh Chin is now in Australia	—	31. 1.58

Who knows what's she doing there?

The following teachers left us to join the Day Training Centre. We wish them success in their work:—

1. Miss S. D. Vallipuram	—	28. 2.58
2. Miss Jeyavani Rasiah	—	28. 2.58
3. Miss Rosabella P. Tamby	—	28. 2.58
4. Miss S. Sivapackiam	—	28. 2.58
5. Mr. Cheah Kam Chew	—	1. 5.58
Miss June Chen finds great pleasure in staying at home		28. 2.58

Mrs. Lee Yew Hon flew to her husband's protecting arms.

She intends to take up some educational courses in England	—	1. 4.58
Miss Tan Beng Guat has found her right Man! No wonder she left the school for Singapore to get engaged!	—	1. 5.58
Miss Seow Bin Chin is now in the Teacher's Training College, Singapore	—	26. 5.58
Mr. Winston Reuben Dudley wants to turn words into cash! He intends to make journalism his career. We look forward to seeing his volumes of words on our school library shelves!	—	1. 7.58
Mr. Joseph Daniel has joined the Technical College on an Indian Commission Scholarship	—	1. 9.58
Mr. K. Visvanathan left the school for higher studies		1. 9.58
Mr. Thai Chee Sing is now in the Polytechnic College, Singapore, doing an accountancy course. We wish him success in his studies	—	18.10.58

SCHOOL MAGAZINE BOARD.

Editor:	—	Mr. C. T. Mak
Business Managers:	—	Mr. Othman b. Hj. Md. Ali
		Mr. Lim Chong Moh
Editorial Assistant:	—	Mrs. S. Roberts.

Today the average parent in Malaya is taking a new interest in education. This is evidenced by the rapid growth of parent-teacher associations throughout the country. Indeed, the time has come for us to realise that the education of our children demands close co-operation between the school and the home.

One way of achieving this object is through the medium of an annual publication—the school magazine—in which are shown the different aspects of life in school, at work in the classroom and at play on the playground. As you turn the pages of this magazine, we invite you to note carefully the various activities of the school.

We invite parents to contribute letters for use in the school magazine in the future, and let us assure them of a welcome for their contributions, though it might be added that the magazine will be largely written by the pupils themselves.

My Dog.

I have a dog. I like my dog. My dog likes to eat bones. I take my dog for a walk.

By Halpal Singh.

My House.

My house is a big one. It is in Sentul. I like my house.

By Yap Kwang Cheong.

STD. IIB.

My Pet.

My pet is a dog. Its name is Jimmy. It is black and white. I feed my dog every day and bathe it once a week. When I come home from school it licks my hands and wags its tail. I like my pet very much.

"When I Grow Up"

Dear Editor,

When I grow up I like to be a doctor. When sick people come to me, I shall find out what kind of sickness they have. I shall give them some medicine. I shall have a big house with a big garden and a big car. I shall ask a gardener to do the gardening. I like to work in one of the hospitals in Singapore.

Yours sincerely,
Jacob Thomas.

Dear Editor,

When I grow up I like to be a sailor. I like to visit Spain, France, England, and Greenland, I shall bring home plenty of fruits like apples, oranges, and grapes from Spain, wine from France and wool from England. I like to see the Eskimos in Greenland. Then I shall go on to Siberia to get a rein-deer.

Yours sincerely,
Samuel.

First Merdeka Celebration.

On Sunday, 31st August, 1958, there was a very big celebration for the first year of Merdeka. Many people came to Kuala Lumpur to see the celebration. There were a parade on the Selangor padang, water sports in the Lake Gardens and a procession at night.

I saw the Yang di-Pertuan Agong and Permaisuri Agong at the Merdeka Stadium. I went to see the procession with my father. It was very beautiful celebration.

Merdeka Anniversary Children's Rally.

On the 1st of September, I went to the Merdeka Anniversary Children's Rally at the Merdeka Stadium. When His Highness the Sultan of Selangor arrived, the bands of Victoria Institution and St. John's Institution played the Selangor Anthem. Later, when His Majesty the Yang di-Pertuan Agong arrived the bands played "Negara Ku". Then a police jeep conveyed the Agong round the parade ground for inspection. When the Agong went back to his seat, the bands played some music. A group of Malay girls danced to a Malay tune. After that some Indian girls performed a Tamil dance followed by a Chinese dance. Some girl guides sang a few songs. Then scouts, members of the St. John's Ambulance, and the Red Cross each gave a performance. Last of all a Chinese school band played some music and the children of the combined schools performed a mass drill. It was the best I have seen. Then all was over and I pushed my way home through the crowd.

Fishes.

I am very fond of fishes. I have a small aquarium in my house. In the aquarium I have ten large fishes and some baby fishes, too. I feed them with a special kind of food which I buy from a shop. Sometimes I also feed them with tiny worms.

Two of the large ones are very fat. The small fishes are not afraid of the big ones. They are very friendly with one another. I change the water once a week.

By Terlochan Singh.

THE POSTMAN.

The postman is a man who delivers letters. He also collects letters from the pillar-boxes. There are Indian, Malay, and Chinese postmen. The postmen usually rides a red bicycle. He carries the letters in a big bag. There is a badge on his topi. He wears a khaki uniform and a pair of brown shoes. The postman looks very smart in his uniform. He is a hard-working man because he delivers letters even when it rains.

By Lim Tuck Weng. Std. VC.

A POEM.

Round and round,
Yellow and brown,
The ripe fruits are falling on the ground,
And the people are going to the town.

Count and count,
Pound and ounce,
The queen is counting a great pound,
She bought a pound and sold an ounce.

By Lee Kwan Ming. Std. Six B.

MAHATMA GANDHI.

Mahatma Gandhi was born in Kathiawar in Central India. He studied law and worked for some time in South Africa. Even when he was in Africa, he became a great Indian patriot, social reformer, politician and moral teacher. He believed in the doctrine of non-violence. He also believed in Hindu-Muslim unity and worked very hard for it. After returning to India from Africa, he devoted much of his time to the attainment of the Indian Independence. It was through his methods of non-violence and self-purification he was able to obtain independence for the Indians. In 1948, he was shot and killed by a Hindu fanatic. He was affectionately called by the people of India as Mahatma ——"The Great Soul".

By M. Kannapiran. Std. Six .B.

PANTUN BERKAIT.

Mari-lah kita pergi ka-ladang
Ladang ada di-tepi pantai
Bari-lah kita berlawan pedang
Mana yang kalah jatok ka-lantai
Ladang ada di-tepi pantai
Untok kita menanam ubi
Mana yang kalah jatoh ka-lantai
Untok kita menanam ubi
Ubi di-jemor membuat bubor
Mana yang menang masek berdiri
Hati-nya suka badan-nya subor.

SAYA TERMENONG.

Bila saya menong perhati,
Mengapa aktisad lemah terdiri
Di-dapati ramai pandai sekali
Seyang-nya pandai menipu diri,
Bangsa kita bersawah berhuma
Berkebun kopi, getah, kelapa,
Rajin usaha tiada kurang-nya,
Berhujan berpanas suboh ka-senja
Tetapi maseh kopi berbunga
Kelapa di-pokok padi di-ruma
Ikan di-laut getah di-mana
Sudah di-gadai di-jual belaka
Sekarang negeri telah merdeka
Elok burok-nya di-tangan kita
Chara lama di-ubah-lah hendak-nya
Supaya ka-merdekaan terjamin sentiasa.

Oleh. Hassan b. Buyong. Darjah Lima A.

BOMB KETIKA.

Hamzah Chakap: Saya sekarang di-dalam perhentian kereta api.
Orang tua: (Orang tua berjumpa Hamzah)
Orang tua kata: Tolong-lah pegangkan bungkusan ini.
Hamzah: Baik-lah saya boleh pegangkan bungkusan ini.
Orang Tua: Saya hendak pergi da-sana membeli. Tiket (Datang sa-orang budak kawan Hamzah nama Kassim)
Kassim: Sudah-kah awak dengar berita hari ini?
Hamzah: Tidak, tolong lah cherita berita hari ini.
Kassim: Samalam ada orang jahat buang bomb dalam di-pejabat. pos. Banyak orang luka.
Hamzah: Bomb itu ada besar atau kechil?
Kassim: Ya, ada bomb besar ada yang kechil.
Hamzah: Macham mana saya tahu bungkusan ini ada bomb atau tidak?
Kassim: Bunyi bomb ia-lah tik, tik, tik.
Hamzah: (Hamzah ambil bungkusan ini dekat telinga-nya Bunyi bungkusan ini ia-lah tik, tik, tik). Sekarang apa saya mahu buat?
Kassim: Nenek saya chakap kalau awak jumpa bomb taroh bomb itu dalam ayer. Biar-lah saya pergi ambil timba ayer. (Sekarang Kassim sudah ambil timba ayer.)
Hamzah: Baik-lah saya taroh bomb ini dalam timba ayer (Tidak lama lagi orang tua datang.)
Orang Tua: Mana bangkusan saya?
Hamzah: (Hamzah ambil bungkusan dari pada timba ayer.)
Orang Tua: Mengapa bungkusan saya basah?
Hamzah: Saya tahu apa ada dalam bungkusan ini.
Orang Tua: Dalam bungkusan ini ada jam.
Hamzah dan Kassim: Jam! kita ingat bomb
(Hamzah dan Kassim lekas lari.)

APA SAYA MIMPI SA-MALAM.

Pada malam saya mimpi sa-orang tua dengan anjing-nya. Dia tinggal di-dalam sa-buah kampong. Dia sa-orang miskin. Kerja orang-tua itu berkebun. Hari2 dia pergi keraja di-kebun-nya. Anjing-nya selalu mengikut. Orang-nya itu kereja dari pagi sampai malam. Orang-tua itu sa-orang yang rajin. Lama2 orang-tua itu sangat-lah tua, dan dia tidak boleh bekerja, dia pun tidak makan, tetapi dia sakit. Dia tidor di-atas katil. Tidak berapa lama orang-tua itu tidak tahu apa2 boleh di-buat-nya pada malam itu. Pagi pun masok dia fikir ia akan mati. Dan dia mati kerana dia tidak dapat makan, dan dia tidak pergi jumpa tabib. Anjing-nya menangis. Lama2 anjing itu pun mati, dia mati di-atas katil dekat tuan-nya. Orang2 dalam kampong itu tahu orang tua dan anjing-nya mati di-dalam rumah itu.

Oleh. Tan Lay. Darjah Enam. A.

MANDI SAFAR.

"Biar mati anak, Jangan mati adat". Bagitu-lah kuat-nya orang2 Melayu memegang adat istiadat-nya satu dari pada-nya ia-lah memegang tegoh kapada adat2 nya itu ia-lah "Mandi Safar".

Mandi Safar itu Jatoh pada hari Rabu penghabisan, tiap2 bulan Safar hari itu di-sambut dengan meriah-nya.

Tujiam mandi safar itu ia-lah kerana mengikut kerpechayaan orang2 Melayu ia-lah untok menjoohkan segala bala2 yang akan tertempa ka-atas diri sa-sa-orang itu.

Bermandi pada hari yang tersebut tidak pula sama saperti yang kita perbuat hari-hari. Tetapi mandi safar itu pula tidak di-katakan sah sa-kira-nya ayer yang di-siram ka-badan sa-orang itu tidak mengandong; suatu surat yang tertulis dari ayat2 kor'an. Bagitu-lah kaadaan-nya mandi safar itu.

Tetapi pada masa sekarang banyak pula di-tambahkan dengan ber-macham permainan. Bukti-nya dapat di-saksikan di-pantai Tanjong Keling, Melaka dan lain2 tempat bermandi-manda di-tepi tepi pantai.

Oleh Mustafa. Darja Lima A.

SA-ORANG BUDAK DENGAN AYAM JANTAN-NYA.

Pada zaman dahulu ada-lah kunon-nya sa-orang budak berumor 6 tahun. Emak budak itu kereja-nya berchuchok tanam seperti ubi, keladi, pisang dan lain2-nya.

Pada suatu hari ke-dua2-nya tanam sa-batang pokok pisang emas dan emak budak itu galikan lubang itu dan budak itu tanam pisang tadi, tidak berapa lama selepas tanam pisang itu di-lihat-nya tiga hari sa-kali kadang2 sampai dua tiga kali sa-hari.

Tidak lama keluar daun-nya sa-helai dan di-chakapkan-nya kapada emak-nya "Mak, mak pisang saya suhah keluar daun-nya." Emak-nya berkata, "Biarkan-lah pisang itu besar". Budak itu menengok berulang2 kali dalam dua tiga kali sahari, apa2 yang di-tengok-nya di-adukan kapada emak-nya, emak-nya menjawab begitu juga: Pada suatu hari di-lihat pisang itu sudah keluar jantong-nya dan berbuah-lah pisang itu dan masak sabiji, maka emak-nya kata "Mari-lah kita terbang pisang itu" dan di-peram-nya di-atas para, dan sudah lama masak-lah pisang itu budak itu datang minta pisang sa-biji "Mak mak minta sa-biji pisang.". Emak-nya berkata kapada anak-nya "Minta kapada ayah engkau". Budak itu pun minta kapada ayah-nya. Jawab-nya seperti ibu-nya. Lama2 budak itu penat dan di-panggil ayam jantan-nya dan budak itu naik atas belakang ayam itu dan terbang ka-atas awan. Mula-lah bergadoh suami isterit. Banyak orang datang membawa pisang bertandan2 dan budak itu lepas terbang.

Oleh. Zainal b. Marsothi. Darjah Empat E.

AKU BERMIMPI.

Jam menunjokan pukol 1 malam, aku belum tidor sedangkan keluarga aku sedang nyenyak di-atas katil-nya. Malam itu tersangat sejok sebab petang tadi hujan turun dengan lebat-nya menyebabkan mata aku tersangat mengantok, tetapi mata-ku tidak membenarkan aku tidor. Sedang aku berfikir begitu aku terchapai. Sa-buah buku chĕrita, aku pun manyelakan dari sa-helai ka-sa-helai tidak juga aku kehendak tidor, sedang aku buat bagitu aku pun tertidor dengan sedap dan nyenyak. Masa itu-lah aku bermimpi2. Aku bermimpi fasal hantu mengejar aku, aku lari dengan sakuat 2-nya tetapi kaki ku tidak terangkat oleh ku. Hantu itu makin dekat kapada ku. (Hantu itu makin dekat kapada ku.) Aku menjerit sakuat2-nya dan keluanga aku terjaga dari tidor-nya dan datang mendekati aku dan bertanya "Mengapa?" Aku jawab dengan suara ku tergagap2 dan berkata "Hantu itu mengajar aku". Dan aku menjerit lagi dan terus terjun masok da-sa-buah lobang yang dalam. Aku tidak tahu apa yang aku hendak buat sekarang. Dan aku kedengaran suara ayam berkokok bersabut sahutan.

Aku pun terjaga dari tidor-ku rupa-nya aku bermimpi sebab petang tadi aku tersangat leteh kerana bermain bola. Aku pun jaga dan pĕrgi mandi di-perigi, lepas itu aku pun masok baju dan seluar ku dan terus pĕrgi ka-sekolah.

CUBBING.

I am a Wolf Pack leader and our Akela is Mrs. E. John. There are four sixes in the Pack. Each six has a sixer and a second sixer. There are six boys in a six.

We have our Cub meetings every Saturday at 9 o'clock in the morning in the school. The Cubs are all training hard for their first and second stars and their "Leaping Wolf" badge, for which a Cub must get two special proficiency badges and the second star.

Our Pack goes hiking once a month. During our meetings we sing songs, tie knots, and train for our tests.

OUR SCHOOL PREFECTS.

Supervisor of Prefects ..... Mr. R. Suppiah.

The following are the prefects of our school:—

Sharani b. Shuib (Captain)	Varatharajoo S.
Chut Nyak Bintang b. Ariff	Lee Chew Peng
Mohd. Anis b. Daik	Siew Keng Choy
Soh Kim Huat	Cheah Ui Chee
Low Pek Siew	Mohd. Ramdzan b. Aziz
Muhiddin b. Waad	Ng. Wai Choy
Chok Wai Cheng	Chin Chen Fah
Veerappan K.	Razak b. Dahalan
Chin Kong Neng	Tan Leng Kin
Ahmad Sanusi b. Rapil	Zainuddin b. Jaffar
Gurdarshan Singh	Chin Wang Siang.

Every school has its own prefects. The prefects are important servants of the school. They see that all the pupils obey the school rules. They are given certain powers to report any disobedient boy to the headmaster.

A school prefect is neat and clean. He comes to school early. In our school the prefects are on duty daily. All prefects receive their orders from our Supervisor of Prefects. We are proud of our school prefects.

By Mazlan b. Baharuddin.

ART AND HANDWORK CLUB.

The first meeting of the club was held on the 1st of March in the school tuck-shop. Mrs. Roberts, Miss Wong, and Mrs. Chai together with fourteen boys from standards Three to Six, including Special Malay Class One, were present. We had "free expression" painting, and we also made some large envelopes. The class was over at 5.00 p.m., but some of the boys stayed back to add the finishing touches to their envelopes and painting.

We are very sorry that Miss Wong left our club after the first meeting. Mr. J. Daniel, who later left the school to join the Technical College, came forward to help us.

On the 7th of March, fourteen boys accompanied by Mrs. Chai, Mrs. Roberts, and Mr. Daniel went to see the art exhibition at the British Council Hall. One of the boys was so interested in art that he straightaway borrowed a book on "Child Art" from the British Council Library.

During the second term most of the members were busy preparing for the annual sports. Miss Chai joined us during this term. We made booklets, "sweet" baskets and Christmas cards.

Mrs. Wong Voon Kong joined us at the beginning of the third term. She is now teaching us how to make flowers, baskets and animals with plastic strings.

By Hassan b. Buyong.

DRAMATIC CLUB.

Advisers. Mrs. Mary Oomman
Mrs. Wong Voon Kong

There are twenty-five members in our club which meets once in a fortnight. Most of us have learned to overcome a little of our shyness and act more at ease.

On the 29th of March, we presented a Variety Concert in our school hall. We are glad to say that it was a success. We look forward to more concerts and hope to do our best.

Stevenson
Secretary.

TABLE TENNIS.

Masters-in-Charge: Mr. Thai Chee Hong
Mr. Thai Chee Sing

The following are the school players:—

1. Hoy Leong Kok (Captain)
2. Ng Kim Leng
3. Foo Chee Mun
4. Lim Foong Leng
5. Eu Sun Leng
6. Eu Kong Leng.
7. Yoo Ha.

We have two practices per week, on Monday and Wednesday, beginning at 3 o'clock in the afternoon. During our practices, our masters teach us how to play the game well. We wish to thank them for their help and advice.

By Hoy Leong Kok.

SOCCER.

Masters-in-Charge:	—	Mr. Othman b. Haji Md. Ali
		Mr. Rajendran P.
Captain:	—	Sharani b. Shuib
Secretary:	—	Hoy Leong Kok

The highlight of this year's matches was the Thompson Cup Competition. In order to prepare for it the boys had to practice very hard. The matches we played in the Thompson Cup competition were as follows:—

Against Mahatma Ghandi High School	Won	2 — Nil
„ La Salle, Sentul	Won	1 — Nil
„ Kajang High School	Lost	1 — 3

The School Team played the following matches before the Thompson Cup Competition began:—

Against M. B. B., K.L.	Lost	1 — 2
„ La Salle, Brickfields	Won	7 — 1
„ Brickfields Eng. Sch.	Won	11 — 1

,,	La Salle, Sentul	Lost Nil — 2
,,	La Salle, Sentul	Drew 2 — 2

Here we wish to record our thanks to all host schools for their kind reception. We wish also to record our gratitude to the teacher-in-charge of soccer, La Salle, Sentul, who arranged several other matches for our boys to play.

Towards the end of the year we are pretty busy with our inter-class matches. We hope to select some players for the next year's team. We wish to thank our soccer masters for their constant interest and encouragement throughout the year.

The following are the boys who represented the school in most of the matches played:—

Sharani b. Shuib
Hoy Leong Kok
Kapili
Johari
Md. Anis
Mohd. b. Sulaiman
Md. Ross
Chang Chee Kin
Md. Tun
Ahmad b. Wahab
Ali Akbar
Tan Lay
Roslan
Chin Chen Fah.

REPORT ON THE SPORTS.

Our School Annual Athletic Sports was held on the 20th of June, 1958. Fortunately, it was an ideal day but it was quite hot in the afternoon. The sports was attended by parents, old boys and friends.

This year the Champion House which won the Challenge Shield was the Red House. The Green House was second and the Yellow House third. Many boys took part in the sports, for they were very eager to win a prize and a point for their houses.

When the sports started soft drinks were served to the spectators. After the sports, Mrs. Tan Teik Hoe, kindly gave away the prizes to the winners. We gave three cheers to her. Thus a memorable day was brought to a fitting close.

By Foo Eng Tong. VA.

RESULTS OF THE ANNUAL ATHLETIC SPORTS

FRIDAY, 20th JUNE, 1958.

Event Passing the Baton—Std. IA
1. Shanmuganathan's Team.

Event Hop & Run Relay—Std. IB.
1. Nadaraja's Team.

Event Caterpillar Relay—Std. 1C.
1. Tan Hong Koh's Team.

Event Leap Frog Relay—Std. 1D.
1. M. T. Thomas's Team.

Event Ball Relay—Std. 2A.
1. Ramli's Team.

Event Caterpillar Relay—Std. 2B.
1. Johinder Singh's Team.

Event Star Relay—Std. 2C.
1. Lum Chee Keong's Team.

Event Flag Relay—Std. 2D.
1. Puran Singh's Team.

Event Circle Relay—Std. 2E.
1. Amirk Singh's Team.

Event Weaving Relay—Std. 2F.
1. Subramaniam Nadeson's Team.

Event High Jump—Class 1

1.	Kapili	—	Yellow
2.	Muhiddin	—	Red
3.	Mohammed	—	Blue

Event High Jump—Class 2

1.	Kumarason	—	Green
2.	Chee Kim	—	Red
3.	Abdullah	—	White

Event Long Jump—Class 1

1.	Sharani	—	Green
2.	Raden	—	Red
3.	Ng Kim Seng	—	Blue

Event Long Jump—Class 2.

1.	Mohd. Ramdzan	—	Blue	
2.	Kunaratnam	—	Green	
3.	Lim Fong Teng	—	Yellow	Distance: 14′ 7½″

Event 50 yds. Flat Race—Class 3.

1.	Chan Kam Wing	—	Green	
2.	Baharuddin	—	Blue	
3.	Chan Nook Kin	—	Green	Time: 7 min. 2 secs.

Event 75 yds. Flat Race—Class 2.

1.	Chang Chee Kim	—	Red	
2.	Ramdzan	—	Blue	
3.	Kumarakuru	—	Green	Time: 10 secs.

Event 100 yds. Flat Race—Class 1.

1.	Sharani	—	Green	
2.	Chok Wai Cheng	—	Blue	
3.	Mohd. bin Sulaiman	—	Blue	Time: 12.5 secs.

Event 12 x 50 yds. Ball Relay—Class 3.

1. White House
2. Red House
3. Green House

Event 50 yds. Wheel Barrow Race—Class 2.

1.	Suat Kong & Hee Hong	Yellow	
2.	Abdullah & Low How Choy	White	
3.	Chin Kong & Tandgarah	Red	Time: 16.9 secs.

Event 220 yds. Flat Race—Class 1.

1.	Sharani	—	Green	
2.	Kapili bin Sabirin	—	Yellow	
3.	Mohd. bin Sulaiman	—	Blue	Time: 30.2 secs.

Event 12 x 50 yds. Ball Relay—Class 2.

1. Red House
2. Blue House
3. Yellow House

Event 75 yds. Bursting the Ballong—Class 2.

1.	Low How Choy	—	White
2.	Mohamed Ali	—	Red
3.	Haridas	—	Yellow

Event 50 yds. Finding the Coin—Class 3.

1.	Ghani	—	Blue
2.	Yap Cheng Kok	—	Green
3.	Mohamed Karim	—	Yellow

Event 50 yds. 3 Legged Race—Class 3.

1.	Lau Keng Choy and Chan Mook Kim	—	Green
2.	Mohd. Zahari & Mohd. Karim	—	Yellow
3.	Yoganathan & Tuck Fook		Red

Event 4 x 110 yds. Baton Relay—Inter-House

1. Yellow House
2. Green House
3. Red House — Time: 1 min.

Event 12 x 75 yds. Skipping Relay—Class 2.

1. Red House
2. Blue House
3. Yellow House

Event 50 yds. Candle Race—Class 3.

1. Yayaram — Blue
2. Tan Hock Leong — Red
3. Jamaludin — Red

Event 220 yds. Obstacle Race—Class 1.

1. Nordin — White
2. Radin — Red
3. Johari — Blue

Event Skittle Relay x 12—Class 3.

1. Green House
2. Red House

Event 12 x 50 yds. Sack Relay—Class 2.

1. Yellow House
2. Red House
3. White House

Event 4 x 110 yds. Relay—Inter-School.

1. La Salle, Sentul
2. Pasar Road English School 2
3. M.B.S. Sentul

Event 50 yds. Potato Race—Class 3.

1. Stevenson — White
2. Gurdig Singh — Yellow
3. Chan Mok Kim — Green

Event Servants Race

1. Karuppiah
2. S. Karadysamy
3. Santa Singh

Event Tug-of-War—Teachers.

1. Mr. Mak's Team.

Event 440 yds. Flat Race—Class 1.

1. Mohamed — Blue
2. Kapili — White
3. Anis — Yellow Time: 1 min. 10 secs.

Event 75 yds. Obstacle Race—Class 2.

1. Wong Chia Lim — Yellow
2. Abdullah — White
3. Foo Hee Hong — Yellow

Event Tug-of-War—Class 1.

1. Green House
