PERUTUSAN

Saya mengucapkan terima kasih kerana dijemput menulia Perutusan ini untuk dimuatkan ke dalam Majallah Sekolah ini.

Di dalam dunia ini, tiada seseorang yang boleh mengharapkan kejayaan tanpa usaha. Jika kita meneliti riwayat-riwayat hidup orang-orang termashur di dalam dunia, kita dapati yang kebanyakan daripada mereka itu berasal dari keluarga-keluarga yang miskin dan tidak berpeluang mendapat pelajaran sehingga ke University. Akan tetapi mereka itu telah mencapai kejayaan dan kemashuran semata-matanya kerana mereka mempunyai keazaman sentiasa berusaha kuat sehingga mencapai cita-cita mereka. Contoh tauladan yang cemerlang itu hendaklah diikuti oleh pelajar-pelajar Sekolah yang dinasihat membaca riwayat-riwayat hidup orang-orang termashur itu.

Sekolah merupakan suatu tempat di mana kita dapat mengetahui tentang dunia kita yang luas dan juga menyediakan kita untuk menghadapi masyarakat apabila sampai masanya bagi kita keluar Sekolah. Sesudah meninggalkan sekolah, kita akan sedar yang ada banyak lagi yang kita belum dapat tahu. Tetapi, dengan adanya pengetahuan, pelajaran dan latihan yang telah diperolehi semasa di Sekolah, kita boleh menghadapi masyarakat dengan kepercayaan di atas diri sendiri dan boleh meneruskan usaha-usaha kita bagi memperolehi lebih luas lagi pengetahuan tentang dunia kita ini.

Saya berharap bahawa penuntut-penuntut Sekolah ini akan sentiasa berusaha sepanjang umurnya semuga akan mencapai cita-citanya baik semasa berada di bangku Sekolah atau pun manakala masuk ke dunia di luar Sekolah.

Selamat Maju Jaya.

TAN TEIK BENG,
PENGARAH PELAJARAN, SELANGOR.

THE BISHOP'S MESSAGE

"Education with a human face" is the image of the kind of education that we have to emphasize in our time. This is to recognize more fully the human dimensions in our educational enterprise.

Education cannot be reduced to syllabus, text-books, notes, and examinations. It is a personal encounter between teachers and students in their mutual search for truth and quest for enlightenment. Experiences within the school community are vital for the growth and development of the human personality. Within the school situation the values of love and justice are nurtured for the welfare of the human community.

Students cannot be regarded as machines which can reproduce the facts and figures that they have accumulated in the classrooms. Skills that are needed are minds able to identify problems and search for solutions. Critical abilities and creative faculties are required to cope with change and to face the future.

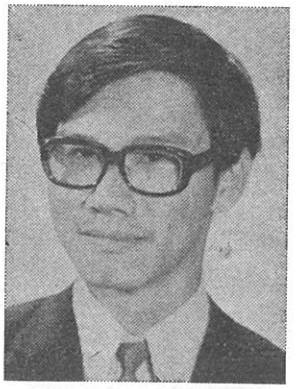

Teachers cannot be relegated to just another ordinary form of employment. They have the sacred responsibility in guiding the total development of the students. Immeasurable influences in shaping lives are furnished by the teachers. Attitudes are being formed and aspirations are being adopted in the school.

We in the Christian Church are concerned with the quality of human life and the nature of the human society. With that in view we seek for "education with a human face" because we sense the sacredness and value of the human individual. Our views of life is that it is created by God and all life is good and holy.

SHALOM,

YAP KIM HAO.

CAPTAIN'S FAREWELL MESSAGE, 1973

As the year 1973 comes to an end, I realise that soon, I shall no longer be part of the school, no longer be able to participate in the activities of the school or be under the guidance of the teachers here. This feeling, I am sure, is shared by all fifth formers of this school. However, the memories of M.B.S. Sentul will always lie deeprooted in our hearts.

It is with a great deal of thankfulness that I observe that we have a staff of dedicated teachers who have guided us academically and helped us in character building. As we leave our Alma Mater, we are sufficiently trained to tackle the problems we face in this everchanging world. In the near future, all of us will realise how much we are indebted to the teachers.

As I look into the achievement of this school this year, I realise we have come a long way. Today we are the volleyball champions of the State of Selangor and we pride ourselves as the holders of the Bastin Shield for two consecutive years. It is my fervent hope that these two titles will be maintained in the years to come. However, there is room for improvement and more goals to be reached. Hence, I call upon the younger ones to go all out and work hard in all fields, to achieve greater strides for the school and yourselves.

It is time for me to say goodbye to the Principal, Staff and pupils. I, personally am optimistic that M.B.S. Sentul will have a successful future.

FAREWELL.

LEE LAI KEONG.

MESSAGE FROM THE CHAIRMAN — BOARD OF GOVERNORS

As I write a few words for the School Magazine, my thoughts go back to the past and feel a deep sense of pride and satisfaction on the way the School has been built up.

As time goes by, we must project our thoughts towards the future and assess our future needs for those who are to benefit in the years to come. In each passing year we seek to improve ourselves and likewise for the Sentul Methodist Boys' School.

If we unitedly put in some effort, we shall see the results in due course.

I wish to congratulate all those concerned in producing the School Magazine and also take the opportunity to extend my greetings and good wishes to everyone who will find good information about the School through this Magazine.

CHAN WENG CHIU

EDITORIAL

1973, an evenful year for both the nation and school ,is finally coming to its end. As our country is in the process of developing what is known as a "Modern Malaysia", the stress is on Science and Technology. Being aware of the increasing need of Science and Technology, the Intergrated Science was introduced in many schools. Our school was one of them. The introduction of this subject is indeed a wise move as it ensures a more progressive Malaysia.

Kuala Lumpur which was at one time merely a small fishing settlement has progressed with leaps and bounds until it became a town and gradually emerged as a city. Hundreds of low cost houses and flats are being built to meet the demands of the growing population. This year is indeed a year of building boom, as modern shopping arcades and ultra modern buildings are springing up. Malaysia is in fact getting a new look — a modern look.

This year Malaysia celebrated its 16th year of independence and its 10th anniversary as a new nation, it has been 10 years since the East Malaysian States of Sabah and Sarawak joined Malaya to form Malaysia. The whole country went gay with festivity. The celebrations were held on a very grand scale in Sabah and Sarawak for the first time. Since independence, Malaysians have striven hard in developing the country and raising the standard of living of the people until Malaysia has emerged as one of the most rapidly developing countries today and a model for newly independent countries.

Malaysia's reputation in the field of sports was also recognised when our national soccer team captured the Tunku Abdul Rahman trophy in the Merdeka tournament, which we last won 4 years ago. With this victory the name of our country was further enhanced.

The year is sorrowful as we mourn the death of our Deputy Prime Minister, Tun Dr. Ismail whose sudden departure is a tragic loss to the nation. He is gone but not forgotten. The cabinet reshuffle which took place thereafter saw Datuk Hussein Onn as our new Deputy Prime Minister. It is the duty of every citizen of the country to give their fullest cooperation to the government in order to achieve the aims of the 2nd Malaysia Plan and develop a modern Malaysia.

S. CHANDRA.

PRINCIPAL'S REPORT, 1973

Mr. & Mrs. D. R. Daniel, Mr. Chan Weng Chiu, Hon'ble Members of the Board of Governors, Ladies and Gentlemen, it is my duty now to present the annual report.

STAFFING :

The school is staffed by 54 teachers this year. Of these, 11 are Honours Graduates, 6 Pass Degree Graduates, 7 Normal Classed Trained, 8 RTC Trained, 1 Guru Ugama and 2 Untrained Temporary Teachers.

No. OF CLASSES AND ENROLMENT :

We have 36 classes with an enrolment of 1,448 pupils, as against 34 classes and 1,402 pupils last year. As in the previous year, the school is running two sessions with 18 classes functioning in the morning and 18 classes in the afternoon. There are 5 classes in Form V, 5 in Form IV, 8 in Form III, 8 in Form II, 8 in Form I and 2 in Remove.

LCE EXAMINATION RESULTS :

246 pupils sat for the LCE Examination in 1972 of these 99 were placed in Grade A, 9 in Grade B, 1 in Grade C, 117 in Grade S, and 20 in Grade X. The pupils in Grade A and B qualified for promotion to Form IV. They represented a pass percentage of 44%.

MCE EXAMINATION RESULTS :

221 pupils were presented for the MCE Examination in 1972. The results in our school, as in many other schools in the country, were not up to expectations. Only 7 pupils were placed in Division I, 7 in Division II, 6 in Division III and 153 in Division IV. The pass percentage was 10%. It is a matter for regret that our best pupil, who obtained distinction in seven subjects (with 5 A1 and 2 A2) failed because he did not pass in Bahasa Malaysia. An additional number of 120 pupils would have passed had they not failed in Bahasa Malaysia. From among the successful candidates 7 were selected for admission to Lower Sixth Form Science and one to Lower Sixth Form Arts.

STUDENT ACTIVITIES :

ATHLETICS: The Annual Cross Country Race was run off on 17th March, 1973, when more than a thousand boys, representing their respective houses in three divisions, participated with keen enthusiasm. Yellow House captured the championship, with Green House as the runners-up. The following boys became Individual Champions in their respective classes:

Class I — V. Segran of Form IV (Yellow House).
Class II — Chandrasegeran of Form III (Green House).
Class III — G. Kumar of Form I (Yellow House).

The Annual Sports Meet was held on 19th May. Yellow House became the champion house with Blue House as runners-up. The following boys became individual champions:

Class I — Say Geek Nia of (Green House).
Class II — Selvaraja of (Green House).
Class III — Azizun of (Yellow House).
Class I Open — Goh Chan Thau of (Green House).

The Singam Trophy, donated by the O.B.A. for award to the House that becomes overall champion in various inter - house games, was won by White House.

ACHIEVEMENTS BY OUR BOYS IN THE FIELD OF SPORTS :

In the Inter - School Cross Country Race (K.L. North) held on 18th February at the Lake Gardens, Subramaniam, S. won 2nd Place in the Under-20 age group, Our school's Under-20 and Under-16 Teams won 3rd Place in their respective classes.

In the Athletics Championship organized by the Selangor Schools Sports Council, for schools in K.L. North, held at the Merdeka Stadium on 15th & 16th June, the following boys won prizes in :—

3000 m. Steeplechase (Open): Selvaraj of Form V-A 1st.
Chivaratnam of Form V-A 2nd.

800 m. Class I: Chivaratnam 1st.

200 m. Class II: George Ho of Form IV: 2nd.

1500 m. Class II: David Francis of Form V-A: 2nd.

800 m. Class II: Thangavelu of Form IV-E: 3rd.

5000 m. Open: Segren of Form IV-A: 3rd.

Throwing the Discus Cl. I: Goh Chin Thau of Form V-A: 3rd.

High Jump: Cl. I: Hamdan of Form V-D: 3rd.

The following boys were selected to represent K.L. North in the Selangor Combined Schools Sports Meet on 21st & 22nd June: Chivaratnam, Selvaraj, George Ho and David Francis. George Ho has also the distinction of being selected to represent the Selangor Schools Sports Council in the Malaysia Schools Sports Meet at Kuala Trengganu which will be held from 23rd - 26th July.

VOLLEYBALL: Our School captured the Championship in the Inter - School Volleyball Competition in the Under-18 age group, organized by the Selangor Schools Sports Council. Two of our Volleyball players, Wong Kai Cheong and Teh Sar Moh Nee were selected to represent the Selangor Combined Schools Team. Wong Kai Cheong was also selected for the Selangor State Team for men.

SOCCER: At Soccer we became Runners-up in the K.L. North Soccer Competition in the Under-15 age group.

BADMINTON: At Badminton, we also became Runners-up in the K.L. North Badminton Competition in the Under-16 age group.

BASKETBALL: Harry Loo of Form III-A, who excels in Basketball, has been selected to represent Selangor in the Inter - State Schools Under-15 Team.

CRICKET: P. Bannerji of Form V represents Selangor in the Malayan Cricket Association Inter - State Cricket League Competition, Selangor has entered the finals now. Bannerji also represented Selangor in the Under-23 MCA Colts Cricket Competition in May.

DUDLEY SHIELD COMPETITION :

In the Dudley Shield Competition, the OBA has beaten the school at Volleyball, Badminton, Table - Tennis, Sepak Raga and Chess. The school beat the OBA at Tennis. Hockey and Soccer have yet to be played.

THE SCOUT TROOP :

There are 40 members consisting of 10 Seniors, among which are 6 First Class Scouts. The Troop is under the guidance of one Group Scout Master, one Scout Master and five Asst. Scout Masters. There were several notable activities.

On 15th & 16th January, the Senior Scouts climbed up Gunong Nuang in Ulu Langat, a mountain rising to a height of 4,908 feet.

The Annual Campfire was held on 31st March in the school compound. Scouts and Guides from other schools were invited to participate in it.

From 14th - 16th April the Annual Training Camp to train the scouts in Scout Crafts, was held at Unlu Kanching.

On 26th & 27th May the Scouts explored the interior of Batu Caves in order to pass a test for their Explorer's Badge.

The Scouts have rendered their service not only to our school but also to other schools and associations at sports meets. Their service is always appreciated and they are willing to give their service at any time.

THE BOYS' BRIGADE :

The 2nd K.L. Boys' Brigade has 60 members this year. They gave stirring performances at both the Primary and Secondary School Sports in the month of May. They also performed at the Selangor Youth Day March Past on the 13th May and will be performing again on Red Cross Awards Day on 21st July.

In conclusion, I wish to thank Mr. D. R. Daniel for his message; Mrs. Daniel for kindly consenting to give away the prizes; Mr. Chan Weng Chiu for his speech of welcome; all members of the School Board, Parents, Well-wishers and Old Boys for their presence, and each and every member of the Staff and students, for the part he or she has played in making this evening's function possible.

THE VALUE AND PURPOSE OF A DEBATING SOCIETY IN A SCHOOL

There are many societies in a school, but to me the debating society is the most important and useful society. It is a society which is important in the line of literature and language.

A debating society is in a way different from other societies. It serves a great purpose in a school. It trains boys to be proper leaders in the years to come, and also to speak for themselves.

Every school should have a debating society because there are many boys who want to express their thoughts but have not been given the chance to do so. On the other hand, there are boys who are too shy to express their thoughts because they are not very fluent in speech. So these boys, after taking part in a few debates find that they are more fluent and are able to express their thoughts freely.

A boy comes to school to learn to talk and gather knowledge, but the teacher in the class just cannot train all forty to fifty boys individually, so these boys could join the society to increase their fluency in that language.

This society also trains boys to take up responsibilities. That is, if a certain responsibility is given to a certain boy he should learn to accept these responsibilities instead of just giving excuses.

It also trains boys to be independent and not to depend on others. Through this society, drama and cultural shows are performed and the boys in this society also get more exeperience in the art of performing.

A salesman, who in his younger years had joined a debating society, would easily win his customers without much trouble.

A man cannot express his knowledge if he does not know how to speak, for example, a politician who tries to win votes. If he is not fluent the people who are his likely supporters may lose interest in him. And when this politician speaks in a rally, he must not stammer or pause too often for the public would get bored listening to his speech.

So for all these reasons, it can be said that the debating society serves a great purpose and has great value.

FORM 3-A.

INVADERS FROM SPACE

'My people, with a heavy heart, I am about to bring you terrible tidings,' begun the Prime Minister tiredly, bceause he had exhausted all his reserve energy worrying about the crisis. Trying his best to keep cool and calm, he continued, 'Our country has never experienced the terrible experiences of war, death and destruction, but now we are faced with an international crisis, in which the survival of the whole human race is threatened. We are faced with invasion, not from our fellow men but from a more formidable and dangerous invader, that of outer space. My friends,' he continued quickly at the thought of listeners panicking, 'I appeal to your sense of duty and patriotism, to try not to panic but to turn on the radio, follow the instructions of the authorities and to carry them out carefully. I have

declared the country in a state of emergency, and have ordered the army to take up battle positions through the country. I have great hopes that we will overcome these aliens. That is all I have to say to you for the present, and I will speak to you daily of the progress of our armed forces,' ended the Prime Minister. He slowly walked out of the announcer's room, a haggard figure, a beaten man. He knew that the whole situation was hopeless and the destruction of the human race was just a matter of time. The earth was being attacked and they could do nothing about it except to try to repulse the invaders and pray for a miracle.

The whole nightmarish drama was started when satellites and radar stations had reported sightings of Fast-flying objects circling round the earth. Photographs cought by space satellites showed that these objects were shaped like saucers, with long antennae projecting from the side of these ships. Then suddenly, the saucers started destroying the satellites one by one, by shooting laser beams at them. The scientist at once knew that these crafts were hostile and alerted the governments of the world. It was decided, in an emergency meeting of the Security Council of the United Nations, that all armed forces of the world would combine to meet the invaders. A few people disagreed with the scientists and argued that if the aliens wanted to invade, why did they not attack, not knowing that the aliens were waiting for reinforcements from their home planet.

The situation on earth was chaotic. People were fleeing from cities, carrying all their personal things in all kinds of vehicles into the country. Traffic jammed the highways and the once big cities like New York or London were all but empty. Only soldiers remained to guard against looters and to man the anti-aircraft guns that were brought in to fight the invaders. The beauty of the parks was broken by soldiers placing big guns with their long shiny muzzles sticking out of the bushes, the long sleek, shiny, missiles facing skywards ready for instant battle. The airforces of the world joined hands to keep a watch on the alien craft and to shoot any that came within their reach.

Suddenly, the sky was filled with flying saucers destroying the planes like flies. The soldiers on the ground replied with missiles but these had no effect on the alien ships. The bombs and missiles were harmless to the forcefield of the saucers. The aliens landed and started destroying everything in sight. Buildings crumbled, people died, and the air was filled with the nauseating smell of burnt flesh. The fearful screams of agony of people dying was terrible to hear. Atomic bombs and other nuclear weapons were used, but had no effect on the aliens. Just when all hope was lost a group of chemists discovered that a certain chemical could kill these aliens. At once the production of this chemical was ordered by the governments of the world. Planes were armed with these chemicals and they started spraying these chemicals at the aliens. But by then the aliens had already wiped out three-quarters of the world's aircraft. Slowly the chemical started to take effect and the greenish red creatures with big purple eyes were eliminated. Thus ended the struggle for the control of the earth. Another war against disease had to be fought, but at least it would be fought with a happy heart.

Slowly, what was left of mankind started rebuilding their homes, cities and countries. As the Prime Minister said, "This is not the beginning of the end, but the end of the beginning. Therefore, let us unite, no matter what race or religion, to live as brothers and protect ourselves from other invaders, for if we are divided, and fight among ourselves then our planet will be easy prey for the next invader and may be the 'next time' there will be no more miracles, and the human race will be no more".

This story won Second Prize in the Short Story Competition (1973) organised by the Literary and Debating Society.

INSECT BEHAVIOUR AND THE HUMAN STATE

Strange is the behaviour of insects, and one may note many points of resemblance to human work and organisation. A peep into the bee-hive and the termite castle would reveal the simplicity, the orderliness and the cleanliness of the various minute apartments. Moreover, the architectural skill of those tiny workmen is noteworthy. Man indeed has to envy the way of life of the insects. They perform their duties efficiently and live together harmoniously. In a sense it is the triumph of organization and statecraft. Though man is endowed with intellectual power and skill, he is by nature selfish and filled with greed, lust and enmity. Hobbes in his *'Theory on the origin of the human state'* describes man as essentially selfish. He based his theory on the assumption that man's life is nasty, brutal and short.

But we can never find such selfishness and evil in the insect states. In the termite and bee colonies, the workers fulfill a very important and unchanging role. The workers are all alike and there is no variation in their skill. It is the perfection of a caste system, more rigid then any in human society. The workers are always active and work by instinct, without a thought for their individual selves. There are soldiers in the termite colony, whose duty is to guard their state and die in the performance of their duty. Moreover, there is no suffering, no unemployment, no private quarrels, no litigation, no police in the insect state. The workers are always active and working disinterestedly. Nowhere is the co-operative spirit so well developed as in the ant and bee colonies. Man on the other hand, works for his selfish ends, or if he need not work, idles. In fact the human state is always a state of war. In the human state we can never find such harmonious and peaceful settlement as in the insect state.

But the fact remains that the human state is progressive, ever changing and on the road to a better condition. This characteristic is absent in the insect state. The insects are in the same condition as they were ten thousand years ago. Yet in spite of all this, the insect state is in an enviable position, for the world today is submerged in an atmosphere of war and conflict. Greed and thirst for power reign supreme in the world.

Yet with all this an important fact remains to be considered. In the human state every individual is different from every other. He feels differently, acts differently, has individual tastes and preferences, and leads a life not entirely in conformity with a set pattern or law. Human ablities and skills vary. We are not forged in the same and only mould. So man is not made in the same plan as the insects. Co-operation and harmonious living are possible among insects because they act by mere instinct. They cannot think. Moreover, the workers in the ant and bee colonies are alike in every respect. They do not vary as human individuals do. The human variation of intellectual powers comes in the way of a harmonious and peaceful settlement. Do you envy the bee and the ant?

S. KUMARASOORIAR,
FORM 5-C, ARTS 1.

WAY TO PEACE

The burning problem of the world today, which has been engaging the attention of all nations of the world, is peace and how to attain it. The methods of attaining peace that they have been adopted, seem to be rather faulty because they have not borne desired fruits. One national complication has been leading to another complication and making things worse than before. Some of the leading nations of the world such as the U.S.S.R. and U.S.A. have been vehemently opposing the idea of waging war against each other and pleading for international peace in their own way, and at the same time these very nations have been spending colossal amounts of money over the preparation of the atomic and other kinds of destructive weapons, not only for their own use but also to sell to other smaller nations that are dependent upon them for military aid. The basic cause for this dependance is their delirious fear complex.

Statesmen and politicians have gone to the absurd length of assuming that the third world war is becoming almost inevitable. The U.N.O., on the other hand, has been veering round while pretending to solve the world's conflicting problems.

In the light of these repeated failures to settle disputes, one is seriously inclined to think that there is something wrong somewhere in the very approach to the problems of mankind which perhaps may lead one day to a certain critical point when the world may suddenly flare up into another conflageration.

Politicians and warmongers tend to overlook, in their propaganda for violence as a means to an end – the indestructibility of the human belief in freedom. Rifles and machine-guns will not destroy a man's soul, not a nation's. A nation may be crushed and enslaved, but the jackboots of Might cannot stamp out the living spirit of freedom. They may succeed in driving it out of sight, underground, for a period, but in darkness and in secret it grows to power again, and the day comes when once more it blazes forth a light to lead mankind.

To give back violence for violence is to sink to the level of the tyrant, who understands power only in terms of death and destruction; the power of non-violent methods of resistance, is the power of life, of the unquenchable spirit. At the time of the Second World War, in an interview with a Newsweek correspondant who asked Mahatma Ghandi for a message to the world, Ghandi recommended as the solution to international warfare, simultaneous disarmament on the part of the major powers, "I am certain," he said, "as I am sitting here, that this would open Hitler's eyes and disarm him". The interviewer asked, "Would not that be a miracle?" Ghandi replied "Perhaps. But it would save the world from the butchery which seems impending. The hardest metal yields to sufficient heat; even so must the hardest heart melt before the sufficiency of the heat of non-violence. And there is no limit to the capacity of non-violence to generate heat."

We have wars simply because we are not sufficiently self-sacrificing. The battle for peace must be fought in the heart of the individual. The spirit in him must break the power of pride and selfishness, lust and fear. As a matter of fact, our former Prime Minister Tunku Abdul Rahman once said: "Peace is a positive demonstration in life and behaviour of certain universal principles and standards. We must fight for them by weapons which do not involve the debasement of moral values or the destruction of human life. In this effort we must be ready to endure whatever suffering comes our way".

This attitude of mind leads us to mutual understanding, respect for personal liberties, co-operation and generous tolerance. If the leading nations of the world seriously consider their present attitude, and instead of leaning on external aid and organisation they draw their moral inspiration from within and accept the principle of 'live and let live', it is just possible, they may succeed in coming to mutual agreement in settling conflicting problems facing today's world at large.

POLLUTION — MAN'S WORST ENEMY

Do you realise that pollution is a danger to mankind in many ways and that you are one of the many pollutants too?

Everybody existing on earth is to be blamed for polluting the earth. The more advanced the technology, the more pollution it will cause. Technologists are blamed for creating the problem. As accusations are hurled at one another, no one knows and realises that he has only himself to blame for this terrible mess.

Pollution may simply mean the destruction or contamination of the purity and sanctity of something.

Man does not realise the importance of his utter dependence on other ecosystems, which are limited. Nor does he know that they constitute the biosphere. He is not aware that ecosystems indeed support one another to survive.

Smog, a waste gas or a kind of smoke, not only destroys buildings but also disrupts a chain of activities that involves many animals. Many become extinct in certain places. Smog also results in stinging eyes and painful throats. Sulphur dioxide produced from the use of oil for central heating contributes to the increase of heart and lung diseases and destroys vegetation.

Pollution occurs most commonly as air and water pollution. Automobiles cause air pollution. Motorists are encouraged to equip their vehicles with anti-pollution devices. In Japan, during the peak hours of the day, traffic is not allowed to go into cities, for example, Tokyo. This may help to decrease the pollution in the city meanwhile.

Most leading countries have thousands of pollutants spewed into the air annually. America, for instance, may be the most industrialized nation but pollution of air is terrible.

Polluted air causes lung diseases, nose and eye irritation and cancer. Polluted air is lethal, especially to plants. The growth of a plant would be generally retarded greatly if exposed to polluted air.

Water pollution is nearly the same as air pollution. Nearly every stream or river in the United States of America is contaminated. Living things in the water contain toxin which is harmful to fishes.

The Great Lakes, for instance, are polluted with toxic mercury from industries in Canada and U.S.A. Other than this, industries and human wastage are being dumped into rivers, lakes and seas all over the world. Most of the lakes in America and Canada are drying. The Rhine River is the dirtiest river known in Europe.

Oil slicks from tankers, ships and submarines pollute the sea water. They are found floting on the sea and threatening marine life. Oil-slicks have destroyed beautiful beaches and shorelines. They also cause deaths of sea birds and fishes.

Land pollution is usually associated with fertilizers and pesticides. D.D.T., which answered our pest problem, now causes us a great problem.

Food pollution is caused by the use of artificial sweeteners and cyclamates in the processing of food. Nitrogen fertilizers are used in fields every year and eventually contaminate the rivers and lakes.

Noise-pollution is another addition to the world of pollution. Too much noise can damage the micro-scopic hair cells that transmit sound waves to the brain. With the increase of supersonic jets, traffic and blaring noise from television and radios, man is continually being pestered by noise.

It is quite impossible to curb pollution as long as technological ideas develop. The most vital thing to do is to check its increasing danger.

Pollution is dangerous to all living things, so, if we consider our survival important, we have no choice but to meet the demands of nature. The question is how to restore nature's former conditions and to prevent uncontrolled pollution.

Engineers invented new gadgets to replace obsolete ones. The invention of a new internal combustion engine by the Japanese answered partly the question of air pollution. This engine produces only half of the smoke and exhaustion of Carbon Monoxide, which is a poisonous gas and can kill a man if it is taken into his lungs. In the United Kingdom electric cars are being invented. This kind of engine cause no pollution but is too expensive to purchase.

Though advancement in the field of technology benefits mankind, however, this can also lead to a more severe problem of pollution.

Most people regard pollution as simply annoying and not a threat to all life on earth. This attitude should be changed. Associations and International Agencies should be organised to fight against pollution. It is becoming one of the most important issues facing humanity today.

VENGEANCE!

A tough war breeds tough men. These men were the finest in that they possessed nerves of steel and the courage of a lion. But the consequences of war can effectively alter the character of an officer or his men. Such was the company of desert raiders under the brilliant and ingenious command of Major Bull Hutchinson.

Bull Hutchinson's desert raiders were among the many long range desert groups operating behind the enemy lines. But unlike the troops of the other desert groups, his were of different nationalities – British, American, French, Belgiam, Spanish and even Chinese. Although all in his company were volunteers, they were all seasoned troops and their reputation ranked second to none. Hutchinson was proud of his men not because of their usual success in nearly every operation but because of the mercy his men showed to those unfortunate enough to cross their path. Hutchinson himself was a man of honour and it was this that gained him the respect of his men. Their reputation of being merciful would not have been smeared had it not been for the one last assignment they had to perform before taking their leave. Their assignment – to render a large German convoy useless. To his men as well as himself, this mission was no more than routine.

As before, Bull Hutchinson briefed his men on the task and before setting off, he reminded them not to behave ruthlessly like savage animals when they were victorious. With everything ready except the mission in hand, his men sped off in their jeeps to find their 'fat, juicy victim'. After a few days of gruelling journey under the scorching sun, they finally attained their destination. While half of his men made camp, he made off with the others to hunt for the convoy. They had gone for quite some distance when Hutchinson, on scanning the horizon, sighted smoke billowing from the direction of the campsite. He knew what this meant – trouble. Hastily, he ordered his men back to the camp. It was already too late when they arrived. The sight that greeted Hutchinson made him sick in the stomach. The campsite was in a total mess and it was littered with the dead bodies of his beloved raiders. Tears were streaming down his cheeks when one of his men reported that there was still one survivor – Pierre Rosteau, who was on the verge of dying. Hutchinson hurried towards him but all Pierre could do was to blurt out the fateful words – "Helmut Strasser murdered us in cold blood" and with that he slumped dead on to the arms of his comrade. Hatred blazed in Hutchinson's eyes when he heard the words.

Angrily he shouted to his Raiders, "Men, you have all witnessed this horrible massacre. From now on this war means only one thing to me – to hunt the filthy Nazi, Strasser". His men cried out in support of his decision. With that he quickly clambered aboard the jeeps and set off to hound Strasser.

Days turned to weeks and the search eventually developed into a campaign of savage attacks on whatever enemy ran afoul of their path. Their one time humour in battle had been replaced by a bitter vendetta against all things German. In the event of an attack, there was always the same question asked – 'Where is Helmut Strasser?'

It seemed to Hutchinson and his men that Lady Luck had ultimately jilted them. But what he did not foresee was that they were destined to meet each other. And that day came all too soon. Hutchinson and his men were out on their search mission when they heard the distinct sound of gunfire. Without hesitation, he changed course and headed towards the direction of the gunfire. Through his binoculars he watched two brigades of American and German troops locked in deadly combat. Obviously, the Americans were holding the upper hand. Amidst all the uproar, Hutchinson happened to swing his glance away to the rear of the American and cried out in alarm "German armoured cars".

On observing closely through his binoculars, he saw the name 'STRASSER' imprinted on the armour plating of the leading vehicle. "It's Strasser," he shouted in disbelief, "Let's go".

Quickly, the desert raiders scrambled onto the jeeps, pulled the safety catches off the machine guns and with the foot hard on the accelerator, the jeeps thundered down the slope to seek revenge.

The Germans under Strasser who had apparantly fixed his eyes greedily on the Americans, never knew what hit them until the machine bullets slammed into the armoured cars, thus killing the personnel within. Too long had Hutchinson waited for this opportunity and he was not going to be cheated of it. He noticed that the leading armour car was making a run for it. Judging this to be Strasser, he gave chase. Knowing it was futile to pursue any further, he decided to try a long shot. Carefully aiming his machine gun, he hammered out a long accurate burst. The bullets hit the fuel tank which blew the vehicle sky high. But Strasser was far from dead. He was crouching on the sun-scorched sand, begging for mercy. Just as Strasser had given Hutchinson's men no mercy, he showed him none. At point blank range, he riddled Strasser's body with machine gun bullets. Thus, their vengeance had been achieved. Strasser had finally received what he deserved.

This story won First Prize in the Short Story Competition 1973, organised by the Literary and Debating Society.

"THE GENERATION GAP" — A TEEN-AGER'S OPINION

Teen-agers today uphold new trends of thought which their parents do not seem to understand. Parents have lost contact with the new generation and there is a lack of communication between both. Little do most people realise that this barrier of understanding between parents and teen-agers has become one of the big problems of our age — the Generation Gap.

But why the "Great Generation Gap?" — Listen to what we teen-agers have to say.

To most of us, the bridge between our parents and us has been there ever since the years after infancy. We do not have the love and care which provides us happiness and security at home. Parents can hardly understand us and we cannot really get along with them. This has caused a lack of communication over the years; thus resulting in a gap between the two generations.

We seldom have family togetherness except at mealtimes because of our everyday activities like school, work, play and T.V. Little time or energy is spent to provide for the family's spiritual and emotional needs. Family mealtime togetherness is a time for family communion – fellowship, conversation and enjoyment. We should all have these precious moments together everyday so that communication will not break down.

We normally cannot escape the impact of pot, sex and a whole host of wrong attitudes and practices in our society. To counteract these constant pressures we desperately need proper ethical, moral and spiritual teaching. We must get them at home or we will have to seek solace elsewhere.

Witness the many riots, the increasing drug addiction and the hippie culture. We are so insecure, so unhappy, so discontented. What do we really want?

In this immoral world adults have created, there is always the ever-present nightmare of the bomb. We have had to live under the threat of being blown to bits. All that we can view of the adult world is chaos, war, violence and corruption. There is not much they have to offer and they do not have happiness, not even answers to important questions of living. Therefore, we do not want to be like them but instead do our own thing – to look for a better world and life for today.

Meantime thousands of teen-agers all over the globe are running away from home and school in frustation, anger and disgust, seeking a better life, a meaning in life, fulfillment, happiness. We need parental discipline and the lack of discipline could be the cause for our running away.

One of the possible solutions is bettter communication, but both parties must respond to it because communication is a two-way process. Talk can accompalish a lot at the table, in the living room, during a walk. So parents and teen-agers, take the plunge. Jump in! The water's warm and it feels fine. Be willing to listen to each other and be ready and willing to change what is wrong in our lives.

This way we can all drop our double-standards and build a happier family and good relationship between the two generations.

ANONYMOUS.

H I P P I E S

What is this thing called "HIPPIES?" What is a hippie? How is he classified as one and why? Is it the way he dresses? Or because he takes drugs? Or the way he lives? Well, the answer to these questions will be given as you read on.

Hippism started in England a few years ago. However, it was America and San Francisco which lent momentum to the hippie movement. Like all fads, it gained quick popularity among the teenagers and equally quick disapproval among the older generation.

The appearance of hippies is sometimes disconcerting, but who am I to judge their worthiness as human beings. They sport long hair, characterised by scruffiness, body odour, drug addiction, wear flowers and beads – that is the general image.

But what about those who have short hair, look neat, smell of Old Spice, have enough money but are also drug addicts and engage in all the other activities peculiar to hippies? Can they be considered part of society because they appear decent while others are ostracised because of their appearance?

Do not think that someone who takes drugs will never look like a respectable person. A hippie could be anybody in our society.

Hippies are ordinary people. Because they want to be heard, those so-called respectable conservative persons look upon them as rebels or troublemakers. Obliged to go to extremes, their mode of dress has proved the most successful way of attracting attention.

Most of us assume that those wearing or dressing like hippies are really hippies. But this is wrong. Hippie outfits have become the fashion of the day.

The life of a hippie is not a very enviable one. Many people would rather have an easy life at home but still take their "trip" whenever the opportunity comes their way.

"Make Love, not war" is the hippie's slogan. Unfortunately, too few are really involved in what the hippies set out to do, bring peace to the world. Too many are hippies because they find pleasure in the experience, or because of pressure from friends.

Those who turn to drugs are actually seeking escape. Others do it with alcohol, self-exile, or meditation. Escapism is more essential in the west because life is a rat-race.

Many hippies come from well-to-do families. They have had all they could ever want except the opportunity to live freely as human beings.

American hippies have turned to the ways of the Redskins and wear Red Indian beads, moccasins because they see the Redskins as people who live to survive.

Evidence shows that hippies are not all a dumb lot of delinquents. They too can be found in universities among the bright students. In a way this explains why they are hippies, for they make up the minority who are really concerned and want to contribute a genuine effort toward the betterment of this world.

KAU CHAI HEE,
FORM 5-E.

AUTOMATION

Automation is the modern term which denotes manufacture, processing or performing of services automatically and economically.

Wherever conventional manual methods of manufacture, processing or distribution could not be accomplished within acceptable quantity, quality and cost levels, automation was introduced.

Automation is of a highly complex nature. To achieve automation groups of automatic machines, control units and computers or Data processing systems are brought into a single system to produce continuous or cyclic operations. An example is that of an automated printing press. Once the type for the pages is set into the printer, paper from a big roll is fed continuously to a cutter which cuts the paper into the required dimensions. It then goes to the printer where the pages are printed. The pages are then folded by a folding machine. The folded pages are then sent to a binder which then binds it into a book.

The book is then packed alongside others in a box. The paper is conveyed from one part of the press to another by means of conveyor belts. Each individual part of the press such as the cutter, the printer and so on is controlled by a central control unit or a computer. These automated presses are to print up to a hundred thousand copies per hour. Other automated processes may be found in factories producing bottled drinks, tinned food, cigarettes and so on.

Automation too has its advantages and disadvantages. Let us look at the advantages first. This innovation has revolutionized manufacturing and industrial processes. The use of machines has led to increased production as machines can work continuously unlike human beings. Speed in production and increase in quality has also been achieved as a result of the use of machines. Since machines have replaced man, there will be a cut in production costs as machines do not get paid. Initially, the machines might be expensive, but in the long run only a minimal amount of money will be needed to maintain it. Man will also have more leisure time as machines will be doing most of his work.

Automation cannot be regarded as very beneficial since it has its diadvantages too. The use of machines instead of man has resulted in unemployment for many. Since the machines are run automatically few men will be needed to look after it. Also, the machines being of a complex nature will require men with technical skills to maintain them. Unfortunately, many people do not possess such skills. Since automation has brought about more leisure time there is a strong possibility that this extra time will not be spent properly. Many of the problems that society is now facing can be attributed to the fact that leisure time is misused.

Should we then do away with automation? If we do, then the progress of society will come to a standstill. On the other hand, if we do not do so, we would be living in a very automated world where the very troubles caused by automation would kill society. What we need is to have automation up to a certain level. Unless we find that level quickly, the future of society is bleak.

HE WAS GONE — MY DAD

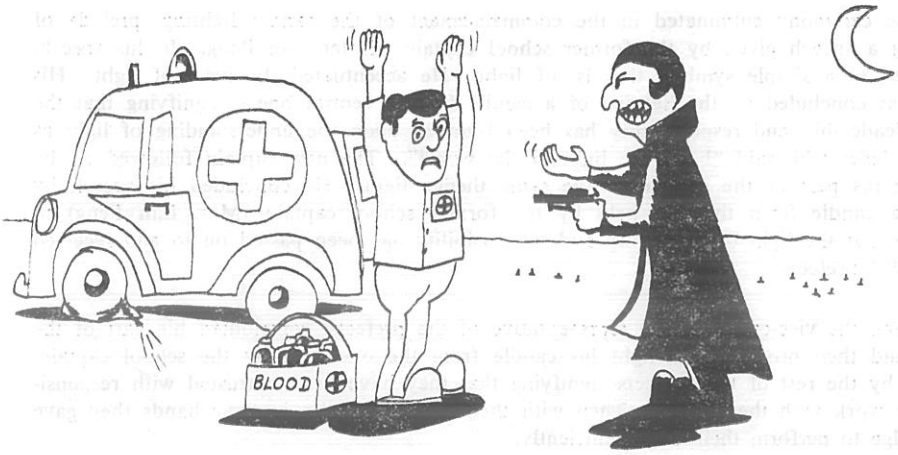

The call was too sudden to say good-bye,
But memories of you will never die,
Softly as leaves the memories fall,
Gently I'll gather and treasure them all,
Deep in my heart you will always stay,
Loved and remembered everyday.
Dearer to me than words can tell,
Is the father whom I lost, but loved so well.
You can't come back, I know it's true,
But someday I'll be with you.

INSTALLATION OF PREFECTS — 1973

Keeping up with the annual tradition, the Installation of Prefects was held on the morning of March 2nd, 1973. On this auspicious day, prefects who have been approved by teachers and elected by the students, were officially installed. The presentation of the Peach Schoolarship for outstanding academic acheivement was also held on the same day, thus, as the old saying goes, 'killing two birds with one stone.'

The solemn ceremony was witnessed by the staff and pupils of the upper secondary school. The event was initiated by the opening hymn "Brightly beams our father's mercy". This was followed by a prayer rendered by pastor James Solamadan, pastor of the Sentul Tamil Methodist Church. After the usual enunciation of welcome by the principal, Rev. Denver Stone delivered his message pertaining to the many responsibilities of a prefect. He was then succeeded by the oath taking which was led by the School Captain. Then amidst enthusiastic ovation, the Chairman of the Board of Governors, Mr. Chan Wing Chui presented the respective badges to the new school captain and prefects.

The ceremony culminated in the commencement of the candle lighting, prelude of this being a speech given by the former school captain Master Lim Peng. In his speech, he pointed to a simple symbol, that is, of light. He accentuated the need of light. His speech was concluded by the lighting of a candle from a central one – signifying that the light of leadership and responsibility has been founded upon the understanding of light as given by Jesus who said "I am the light of the world". The new captain followed up by delivering his part of the speech on the same theme, light. He concluded his speech by lighting a candle from the one held by the former school captain (Mas. Lim Peng) to symbolise that the light of leadership and responsibility has been passed on to and received by the 1973 prefects.

Next, the vice-captain, as a representative of the prefects, contributed his part of the speech, and then proceeded to light his candle from the one held by the school captain, followed by the rest of the prefects signifying that they have been entrusted with responsibilities to work with the captain. Then with their lighted candles in their hands they gave their pledge to perform their duties efficiently.

Mr. Chan Wing Chui again took the stand to present the Peach Scholar awards to Master Kay Yew Kiang and Teo Wee Chee for their outstanding academic achievement in the year 1971 and 1972.

The school captain then gave the final word in which he thanked Mr. Chan Wing Chui, for consenting to install the prefects; Mr. K. G. Zakariah for his invaluable assistance; Pastor James Solamadan for his prayer and last but not the least Rev. Dener Stone for his part in making the event a success.

The event terminated with the hymn "I would be true".

WONG HIN WENG

CROSS COUNTRY

This year our annual cross country finals was held on the 17th of March. It was a fine Saturday morning when hundreds of our school pupils gathered on the school field waiting for the Big Race to start. The competitors were divided into 3 classes I, II, and III. Class I comprised boys from Forms 4 and 5. Class II was made up of Forms 2 and 3 boys, while Form I and Remove boys were in class III. All the competitors were dressed in their respective house singlets with black, blue and white shorts.

At 8.00 a.m. sharp, the starter, Mr. Amoz blew his whistle indicating the start of the cross country race for the class III boys. Off they went like a herd of stampeding buffaloes, pushing and pulling each other. Three minutes passed and another whistle was blown, this time it meant "GO" for the class II runners who ran very fast trying to overtake their "younger brothers". A few minutes later, off went our class I runners who were waiting rather impatiently. They cleared the field in a matter of seconds.

The entire 4-mile journey was a gruelling and tiring one, with most of the route being thorny footpaths and stony ground around tin mining areas. Teachers and students stood at various check points along the route. The teachers were at all times encouraging the boys to run faster. Red Cross members who were ever ready to help and treat the injured runners were stationed at strategic points. The competitors ran very fast, full of enthuasiam and determination to win a prize or score points for their house. A few boys found it just too difficult to run and they started to walk and reached home walking. One or two unlucky boys had to reach the finishing point in an ambulance.

At around 8.30 a.m. the first competitors began to return home and romping ahead of the rest was V. Segaran of Yellow House with a time of 25 min. 24.7 sec. S. Subramaniam (White) was second while K. Chivaratnam (Blue) was third in the Class I division. In Class II Chandrasegaran (Green) was the champion with a time of 26 min. 56.6 sec. Foo Saek Cheng (Yellow) finished second while S. Perianathan (Red) was third. In Class III K. Kumar of Yellow House reached first with a time of 29 min. 42 sec. Vijayakumar (Blue) and Maran Francis (Green) finished 2nd & 3rd respectively.

The rest of the competitors soon packed home. At the same time a few masters kept shouting encouragement to the runners. Soon after the cross country run was over, all the drinks rooms were found to be overcrowded. The tired runners rushed to quench their thirst and they also enjoyed shaking the bottles until the drinks fizzed out.

The final results of the cross country final was announced on the following Monday.

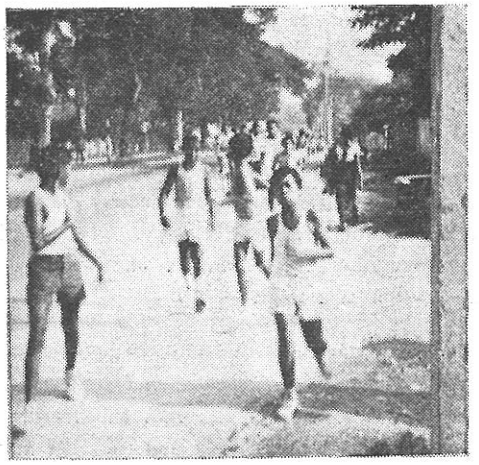

TEAM CHAMPIONS :

Green House: 1st Loganathan; 2nd Vasudevan; 3rd Chandra; 4th G. Raven; 5th D. Francis; 6th S. Ananthan; 7th Thangaveloo and 8th Ravi.

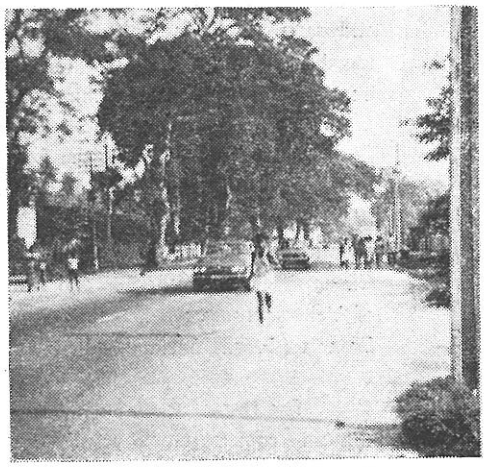

HOUSE CHAMPIONS :

1st Yellow – 215 points; 2nd Green – 208 points; 3rd White – 184 points; 4th Blue – 175 points and 5th Red – 173 points.

ANNUAL CROSS-COUNTRY

"Run Buddy Run".

"The Champion Trots Home".

"Home at Last".

TEACHER'S DAY CELEBRATIONS

The 16th of May was a memorable day for our school. On this great day, students were reminded of their obligations to their teachers who were also reminded of their duty in moulding their students into useful citizens.

School began as usual at 7.30, but for this particular day a special assembly was held in the school field. The National Anthem was sung by both teachers and students. The students represented by the school captain, thanked the teachers and expressed their heartfelt gratitude to the teachers for all they had done for the students.

As soon as the assembly was dismissed, the students as well as the teachers prepared for the various games that had been planned.

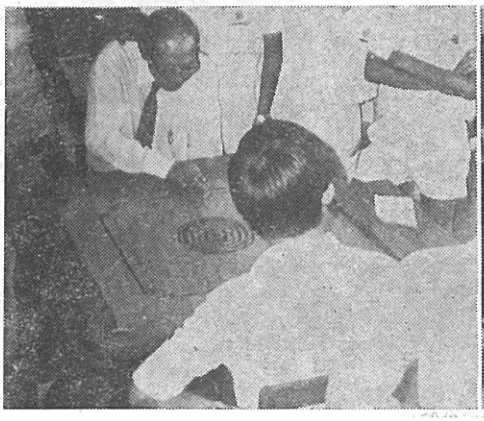

The hall was bustling with activity. There were several badminton games going on. The tennis tables were spread out over the hall and this game proved to be one of the most popular. There were also volleyball and basketball games going on in the respective courts. The classrooms were not empty either. The 5-D & 5-E classrooms were busy with chess, draughts and carrom games going on. Most of the teachers, especially the lady teachers, were found participating in games with the students. They must have enjoyed themselves because occasional shouts and loud bursts of laughter could be heard, even from the teachers. Elsewhere in other classrooms the students and teachers chatted with each other to get to know one another better. This was the scene until ten in the morning.

After ten, each class held a party with their form teacher as the guest of honour. The other teachers were also invited. Each class enjoyed themselves in their own special way. There were games, comic sketches and some teachers joined the boys in singing. The atmosphere everywhere was gay.

This was the way it went until about twelve o'clock. School was dismissed and thus ended Teacher's Day for the morning session. There was a concert for the afternoon boys but quite a few from the morning session stayed back for the concert. The concert which was organised by the L.A.D.S. was held in the hall. There were several singing items and two comedy sketches. There were also two Malay dances. The entire show was very successful as was proven by the loud applause.

This year's Teacher's Day fostered better teacher-pupil relationship and was indeed a memorable day for both the teachers and the students.

AMRIK SINGH.
(PRESIDENT, L.A.D.S.)

"Can't afford to miss this".

PRIZE GIVING DAY

The Education Secretary of Methodist Schools, Mr. D. R. Daniel addresses the audience. SEATED ARE: Mr. Kwong Sea Khoon, the Principal and Mrs. Daniel.

← Students of the Fifth Form performing the "tarian tempurong".

All → participants of the variety show (go high).

← An instrumental by the "String Fungus".

Concert highlight of MBS Prize day

KUALA LUMPUR, Fri. — Malay Language Society members of the Methodist Boys School, Sentul, presenting excerpts from Hang Jebat.

The presentation yesterday was one of the items put up by the pupils in a concert to climax their annual prize-giving ceremony.

Other items in the concert were Malay and Maori dances, and instrumental and vocal presentations.

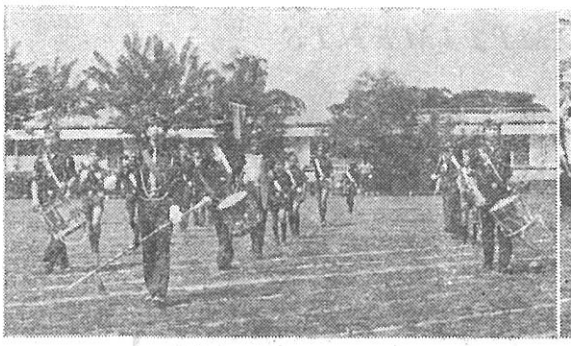

Before the prize-giving ceremony, the Education Secretary of Methodist Schools, Mr. D.R. Daniel, inspected a guard-of-honour mounted by the Boys Brigade and the pupils.

Mr. Daniel told the pupils to be receptive to new ideas and new thinking.

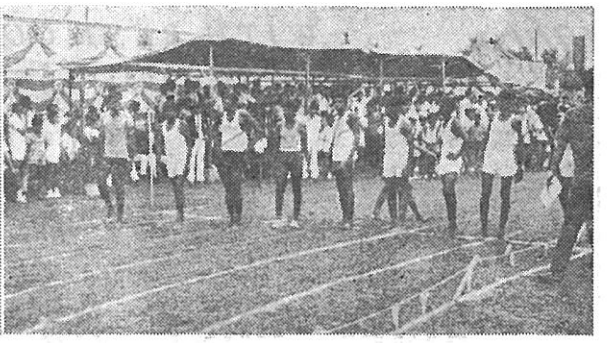

"You should be well informed of what is happening in the country," he said.

He urged the pupils to make full use of the opportunities available to them.

ATHLETICS REPORT (1973)

This year, 1973, was indeed a very good year for the athletes of our School. Our School took part in only 4 invitation meets this year and we were well rewarded as the 4 × 100M (U-16) team clinched 2 golds and 2 silvers. Our Under-16 4 × 100M team should also be praised for their personal best timing of 46.7 seconds which is among the best in Selangor.

Kuala Lumpur North Zone Meet (Merdeka Stadium — 7th to 9th June, 1973) :

In this meet, the first and second winners in our School's Annual Sports, participated. Unfortunately, as they had to undergo heats, some of them did not qualify for the finals, but others who qualified managed to be among the top three in the District.

Selangor Schools Sports Council Meet (M.S.S.S.) (Merdeka Stadium — 15th & 16th June, 1973) :

Four of our school boys were choosen to represent the district in this meet. They were : — George Ho, (200M & 4 × 400M); David Francis, (1500M); Selvaraj (Steeplechase); and Chivaratnam (800M & Steeplechase).

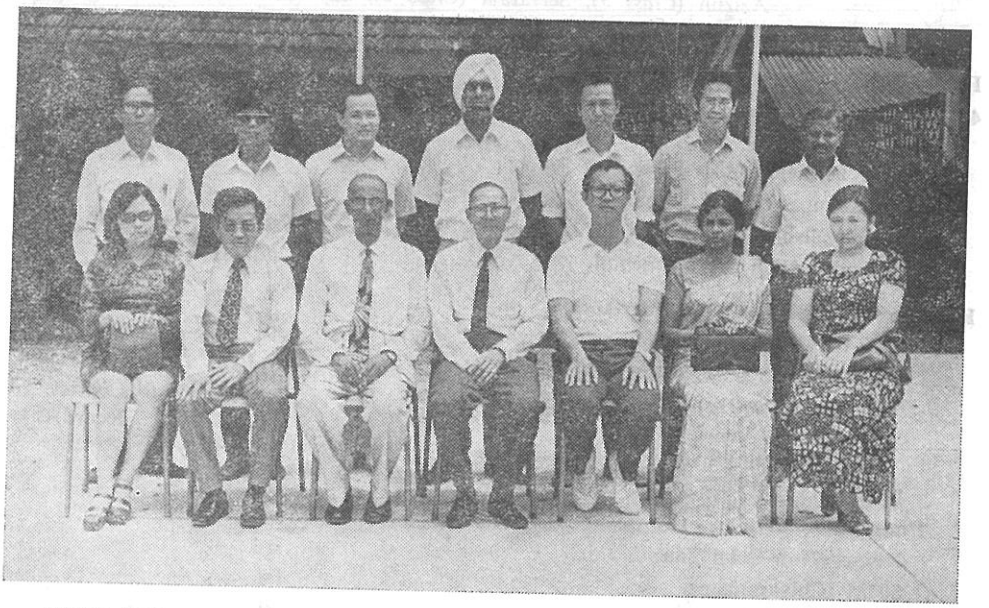

Selangor Amature Athletic Association Meet (SAAA) (Merdeka Stadium — 7th & 8th July, 1973) :

In this meet, George Ho was chosen to represent Selangor Schools in the 4 × 100M for men. Selangor Schools managed to come out third with a timing of 44.4 seconds which had broken the Malaysian Schools Record (Under-16).

Malaysian Schools Sports Council Meet (MSSM) (Stadium Sultan Ismail Nasiruddin Shah in Kuala Trengganu on 23rd - 26th July, 1973) :

In this meet, George Ho represented Selangor in the 400M and 4 × 400M. In the 400M, he was placed fourth in the finals with a timing of 52.8 seconds. In the 4 × 400M, Selangor outclassed the other states to win the gold medal.

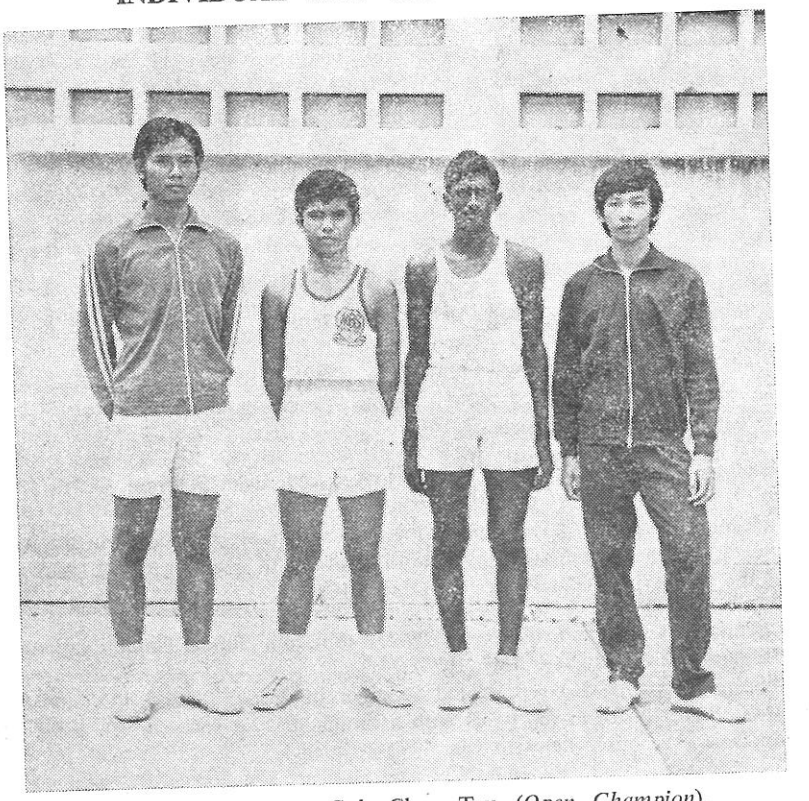

SPORTS COMMITTEE

MOTTO : PERSEVERENCE IS SUCCESS

STANDING (FROM LEFT TO RIGHT): Low Kok Leong, How Yow Wah, Devendran, Yogendran, Selvaraj, Jeyaraj, Lee Yew Kong, Yap Chin Kok, Cheong Yik Shin.

SEATED (FROM LEFT TO RIGHT): Tan Kim Hong, Soo Kim Yew, Woo Kok Wai, Mr. Kwong Sea Khoon (*Principal*), Surinder Singh (*Captain*), Mr. Inder Singh (*House Master*), Ong Say Kee, Muralee, Lee Seng Chee, Chiong Chee Kin.

House Masters and Mistresses - Mr. Inder Singh, Mr. Lau Ban Eng, Encik Alias bin Muda, Encik Mohd. Thani, Mr. Yang Oi Chun, Mrs. Nayar, Mrs. Chan S.H., Mrs. Kulasingam, Mrs. Tang K.S. and Miss Soh L.G.

During the First Annual General Meeting held in February the following office-bearers were appointed by the House Master:—

House Captain - - - -	Surinder Singh
Vice-Captain - - - - -	Woo Kok Wai
Hon. Secretary - - - -	Ong Say Kee
Asst. Secretary - - - -	Soo Kim Yew
Hon. Treasurer - - - -	Tan Kim Hong
Asst. Treasurer - - - -	Muralee

GAMES CAPTAINS

Soccer - - - - - -	Jeyaraj
Hockey - - - - - -	A. Selvaraj
Volleyball - - - - -	Lee Yew Kong
Table-Tennis - - - - -	Ang Sai Poh
Tennis - - - - - -	Hoh Kwong Leong
Basketball - - - - -	Yap Kien Wah
Athletics - - - - -	Cheong Yik Shin
Badminton - - - - -	How Yow Wah
Sepak Takraw - - -	Norhadi
Cross Country - - - -	A. Selvaraj
Carrom - - - - - -	Chiong Chee Kin
Chess - - - - - -	Lee Seng Chee

The encouragement and guidance of the House Masters coupled with the keen interest and participation of House members, enabled Yellow House to emerge as the Champion House. Hence, after 6 years of being at the bottom of the Chart, we have finally succeeded in securing the coveted ' PEACH TROPHY '.

CROSS COUNTRY

In the Annual Cross-country Race, we emerged the overall champions. Credit should go to Class 2 and 3 runners, who turned up in full force for practices, and the Cross-country Captain, Selvaraj. Special mention must be made of Kumar of Class 3 and Segran of Class I who both emerged first in their respective classes and Foo Saik Cheng who came out second in Class 2.

ATHLETICS

In the field of athletics, we were able to safeguard our reputation and this was proved on Sports Day. Here again, credit should be given to Class 2 and 3. One of our representatives, Azizuan became the Individual Champion of Class 3. He clinched the ' golds ' for both the 100m and 200m plus a ' silver ' in the 400m. Selvaraj of Class I also secured 'golds ' in the 1,500m and 800m. This is the second time that Selvaraj has won the event (1,500m) Cheong Yik Shin, our Athletics Captain and Foo Saik Cheng also brought glory to Yellow House. The former became runner-up in both High Jump and Triple Jump while the latter became runner-up in the 400m, Long Jump and High Jump.

GAMES

Yellow House fared exceedingly well in the games but ' Lady's Luck ' was not with us this time. Unfortunately most of the teams were knocked out in the finals. We, however, tied with Blue House for the second place for the ' Singam's Trophy '. The detailed results were as follows :—

Hockey Class 1 - - - -	Champions
Hockey Class 2 - - - -	Runners-up
Soccer Class 1 - - - -	Runners-up
Volleyball Class 1 - - -	Runners-up
Badminton - - - - -	Runners-up
Table-Tennis - - - - -	Runners-up
Tennis - - - - - -	Runners-up
Chess - - - - - -	Champions

With a new breed of athletes and promising ones like Azizuan, Segran and many other efficient and potential House members, I am confident that our achivements this year will be repeated for many years to come.

ONG SAY KEE,
HON. SECRETARY.

Volleyball	Kay Yew Kiang
Carrom	Ravi G. Nair
Badminton	Yap Peng Yew
Basketball	Tan Kim Chooi

The office-bearers and games captains were appointed by the House Master Mr. J. Amoz at the beginning of the year. This year was not a very successful year for the House. The house was placed third in the overall placings.

The house has great hopes of acquiring a better placing but many a time it was unlucky. In the cross-country the House cross-country team ran a well-planned race to emerge winners. Chandrasegran of Green House won the race for Class II boys. These fine efforts coupled with great determination from the House Class II and III boys, helped the House to gain second place in the cross-country.

During the early part of the year, talented athletes were picked by the Athletics captain and vigorous training followed. Say Geek Nia and Goh Chan Tau won the Class I individual and open championships respectively.

In Class II, N. Selvarajah was a class above the others, winning the Class II individual championship. The House was declared Class III champions after its victories in the 100 meters, 4 × 100 meters and high jump. In Class II the House emerged winners in the 100 and 400 metres race.

The House was victorious in the following Inter-House Competitions over the year :—

1. Champions in Football (Class II).
2. Champions in Tennis.
3. Champions in Inter-House Science Quiz.
4. Runner-ups in Inter-House Science Quiz.
5. Runner-ups in Chess (Class II).

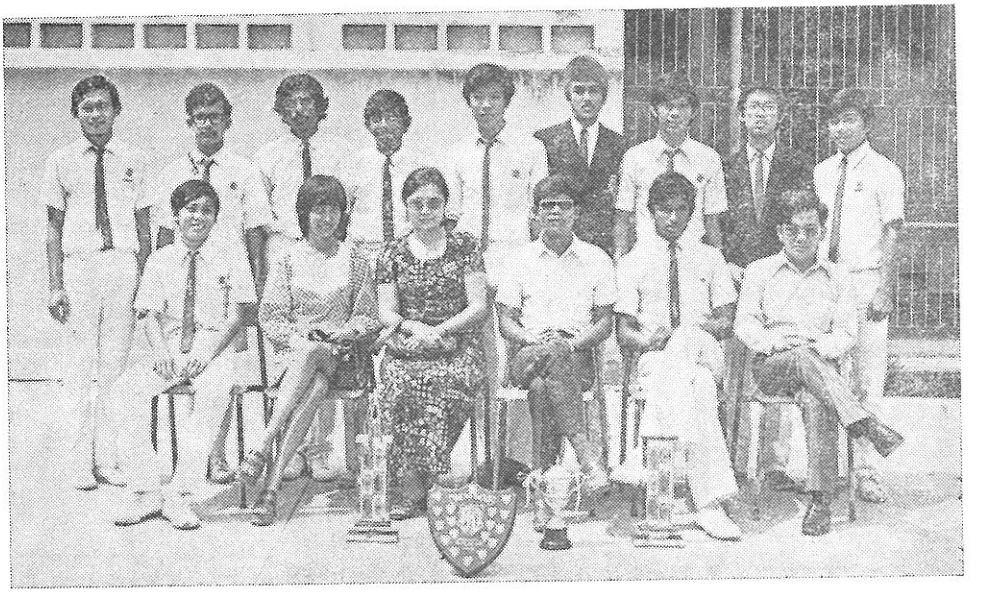

If there are any words of thanks they should rightly go to the House Master Mr. J. Amoz for his invaluable assistance to the House. It is greatly hoped that in the years to come, the House will progress considerably when the talents of the upcoming Class II and Class III boys are exploited fully.

KAY YEW KIANG,
HON. SECRETARY.

N.B. : — Owing to unforseen circumstances the photo of Green House Office-bearers cannot be reproduced. Apologies to all concerned.

WHITE HOUSE

MOTTO : WE WILL DO OUR BEST

SEATED (FROM LEFT TO RIGHT): Wong Keng Seng (*Secretary*), Mrs. D. Liew, Mrs. Koay Meng Chye, Mr. A. James, Anthony, F. (*Captain*), Mr. Tan Teong Chuan.

STANDING (FROM LEFT TO RIGHT): Teh Ah Bee, Christopher Rozario, Gasper M. James, Silvaraj, Won Tain Loong, Harjit Singh, Khaw Leong Seng, Wong Hin Weng, Yong Fun Men (*Treasurer*).

ABSENT: Tan Leong Seng.

House Masters - - - -	Mr. Andrew James, Mr. Tan T.C., Mr. Lui F.F., Mr. Chong Wan, Mr. Devadass
House Mistresses - - - -	Mrs. Koay M.C., Mrs. Liew Y.H., Puan Sharifah M. and Mrs. Hwang B.Y.

The Annual House Meeting was held at the beginning of the year during which the office-bearers and games captains for 1973 were appointed:—

OFFICE - BEARERS

House Captain - - - -	Antony Fernandez
Asst. Captain - - - - -	Khaw Leong Seng
Secretary - - - - -	Wong Keng Seng
Asst. Secretary - - - -	Ajeet Singh
Treasurer - - - - -	Yong Fun Men
Asst. Treasurer - - - -	Tan Leong Seng

GAMES CAPTAINS

Athletics Captain - - - -	Gasper James
Soccer Captain - - - -	Wong Hin Weng
Badminton Captain - - -	Khaw Leong Seng
Hockey Captain - - - -	Antony Fernandez
Basketball Captain - - -	Won Tian Loong
Table-Tennis Captain - - -	Teh Ah Bee
Sepak Raga Captain - - -	Saiful Ahmad
Volleyball Captain - - -	Yong Fun Men
Tennis Captain - - - -	Christopher D'Rozario
Chess Captain - - - -	Wong Hin Wen
Carroms Captain - - - -	Phoon Khai Choong

The year 1973 is not a very encouraging year for the Whites. In the Annual Cross-country race we shared third place with Green House. Credit should be given to the House Cross-country team which emerged runners-up. It is noteworthy to mention M. Balasubramaniam of Class I who collected the silver medal in the race.

Our performance at the Annual Sports this year was quite disappointing. This was because our house was badly handicapped in the Class III Division which had practically no participants at all. As a result, the best efforts of the Class I and II boys were in vain.

The highlights of our house were mainly focussed on the spirit of team work, sense of fair play and sportsmanship and due to these our house trounced the other houses to capture the Singham's Trophy — the Overall Games Champion Trophy.

The following are the games which helped us to capture the trophy:—

Soccer Class I - - - -	Champion
Basketball Class I - - - -	Champion
Table-Tennis Class I - - -	Champion
Chess Class I - - - -	Champion
Carroms Class I - - - -	Champion
Volleyball Class II - - -	Champion
Hockey Class I - - - -	Runner-up

In conclusion, we heartily thank our House Masters and Mistresses for their invaluable guidance, encouragement and advice. There is no doubt that with some brushing up we will emerge as champion house next year.

Good luck Whites!

WONG KENG SENG,
SECRETARY.

SITTING (FROM LEFT TO RIGHT): Mr. Woo Chee Kin, Mrs. Chan Kok Eng, Jeyakumar, Teh Sar Moh Nee (*Treasurer*), Khoo Kim Mun (*Captain*), Lee Lai Keong (*Secretary*), George Ho (*Vice-Captain*), Miss P. Naganather, Mr. Lee Hung Yen (*House Master*).

House Master - - - -	Mr. Lee Hung Yen
House Assistants - - - -	Mr. Woo Chee Kin, Mr. Choong Foh Leong, Cik Normah Mohamed, Miss P. Naganather, Mrs. Chan Kok Eng, Mrs. N. K. Sidhu, Puan Hanumah and Miss Cheam Yow Min

During the Annual General Meeting held in February the following office-bearers were appointed by the House Master:—

Captain - - - - - -	Khoo Kin Mun
Vice-Captain - - - - -	George Ho
Hon. Secretary - - - -	Lee Lai Keong
Asst. Secretary - - - -	Jeyakumar
Treasurer - - - - -	Teh Sar Moh Nee
Asst. Treasurer - - - -	Cheong Kok Mun
Athletics Captain - - - -	George Ho
Badminton Captain - - -	Shao Kam San
Basketball Captain - - -	Leong Kian Soon
Chess Captain - - - -	Lee Lai Keong
Carrom Captain - - - -	Shao Kam San
Hockey Captain - - - -	Kamaruddin
Soccer Captain - - - -	S. Chandra
Sepak Raga Captain - - -	Mohamed Noor
Table-Tennis Captain - - -	Khoo Kin Mun
Tennis Captain - - - -	S. Chandra
Volleyball Captain - - - -	Teh Sar Moh Nee

Although we did not do as well as in the previous year, we pride ourselves in having House Members who demonstrated excellent sportsmanship coupled with determination in all events.

In the Annual Cross-country race, Chivaratnam emerged second in the Class I Division. In the games sections we became champions in Volleyball and Badminton in the Class I Division. We clinched the title in hockey in the Class II Division. We were runners-up in Chess and Carroms in the Class I Division.

On Sports Day, the hero of the day was George Ho who scored golds in the 100 m. and 200 m. event. Blue House Class II representatives did well on Sports Day to emerge Class II Champions.

With the guidance of George Ho, Jeyakumar and other potential office-bearers, I am confident that we shall do well next year. I hope every Blue House Member will try his very best for his House.

At the inaugural meeting held on February the above office-bearers were elected.

This year has not been as fruitful as in the previous years. In the past years we did fairly well in the Annual Sports Meet and very well in the Inter-House Games. In the Annual Cross-country run we did not do well and the number of boys who scored points for the House was unsatisfactory. In the Inter-House Sepak Takraw tournament we emerged champions. Our team led by Abdul Murad proved invincible. We worked our way through, sweeping aside all the opposition teams with great ease. In addition, we emerged Champions in the Science and Maths Quiz.

I wish to thank all the House Teachers and Captains for their valuable advice, enthusiasm and encouragement.

SWIMMING CLUB

MOTTO : SWIM FOR BETTER HEALTH.

Membership : 156.

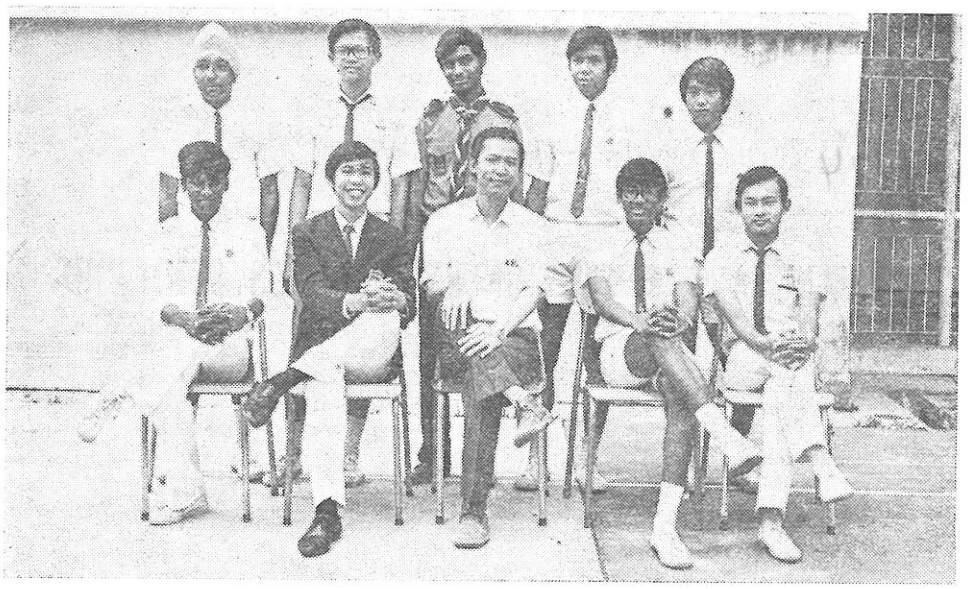

Practices : Every Thursday at 2.30 p.m. in the Weld Road Swimming Pool. We would like to thank our advisors Mr. Woo Chee Kin and Mr. Lau Ban Eng for all their help.

Below is a list of recommended safety rules for the benefit of swimming enthusiasts.

Safety rules :

1. Swim in supervised area only and never swim alone.
2. Be sure of depth before diving.
3. Swimmers should have the right of way over those diving or jumping into the water.
4. Call for help if necessary, but never pretend to be in trouble as a joke.
5. Stay out of water after an injection.
6. Always soap and shower before entering a pool.
7. Avoid being too long in cold water and also overexposure in sunshine.
8. Avoid cigarettes and alcohol totally.

LEE SENG CHEE,
HON. SECRETARY.

STANDING (FROM LEFT TO RIGHT): Tharam Singh, Ang Siong Min, Mahendran, Wong Pow Lai, Tan Kim Cheoi.

SITTING (FROM LEFT TO RIGHT): Balakrishnan, S., Lee Seng Chee (*Secretary*), Mr. Woo Chee Kin (*Advisor*), Philip Varghese (*President*), Teh Ah Bee.

TABLE-TENNIS

Under-18 team:—

Khoo Kin Mun	Ang Sai Poh
Yap Ooi Huat	Wong Tien Leong
Hoh Kwong Leong	

Under-15 team:—

Chan See Kam	Tan Chai Geok
Lee Kong Sang	Tan Leong Thai
Wong Kong Sum	

The boys of the two teams were selected according to their performance in the School Open Championship, for the juniors and seniors, held in the first term. There was a good response from the boys. Results of the Championship were as follows:—

Seniors:—

Singles Champion - - - -	Ang Sai Poh
Runner-up - - - - -	Khoo Kin Mun
Doubles Champion - - -	Peck Lin & Yik Shin
Runners-up - - - - -	Kin Mun & Kwong Leong

Juniors:—

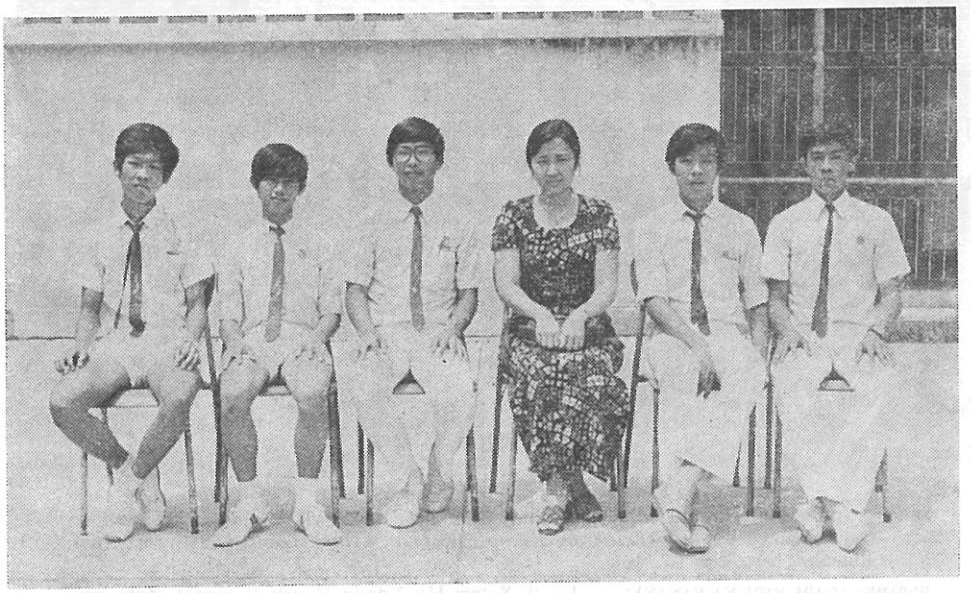

Singles Champion - - - -	Chan See Kam
Runner-up - - - - -	Wong Kong Sum
Doubles Champion - - -	See Kam & Kong Sum
Runners-up - - - - -	Kong Sang & Sai Geok

The Inter-house Tournament was held in the second term and White House emerged champions in the senior section while Blue House emerged champions in the junior section.

In the Dudley Shield Competition, we lost by a narrow margin to the old boys. In the Inter-School Competition, both our Under-18 and Under-15 teams were unfortunate, as we met strong opponents in the early rounds of the tournament, even though we had regular practices and our standards were quite good.

Last but not least, I would like to thank the teachers-in-charge for their valuable assistance in promoting better table-tennis standards in this school.

KHOO KIN MUN,
CAPTAIN.

SEATED (FROM LEFT TO RIGHT): Hoh Kwong Leong, Ang Sai Poh, Yap Ooi Huat, Mrs. Koay Meng Chye (*Teacher-in-charge*), Won Tian Loong, Khoo Kin Mun (*Captain*).

SEPAK TAKRAW

Seperti tahun yang lepas, kami telah mengadakan perlawanan diantara kami sesama sendiri untuk mencungkil bakat bakat yang terpendam, tetapi hanya sadikit sahaja bilangan pemain pemain yang mempunyai bakat. Pada tahun ini, kami tidak ada jurulatih jurulatih yang melatih kami, jadi kami dengan sendirinya, menjalani latihan latihan jasmani dan jangka panjang yang intensif, menukar dan mengatur corak taktik permainan, membentuk kombinasi kombinasi baru kepada beberapa bahagian dan dengan cara begini, kami telah membentuk satu pasukan yang kuat. Disepanjang tahun ini, oleh sebab masa terlalu suntuk, kami hanya dapat mengadakan satu perlawanan persahabatan dengan sebuah sekolah iaitu dengan Sek. Men. Tinggi, Sentul. Kami telah ditewaskan dengan mata: M.B.S. Sentul lwn. M.H.S. Sentul tewas 1 - 2. Walau bagaimana pun, kami telah memberi tentangan yang hebat kapada mereka. Seperti juga didalam Pertandingan Sepak Takraw Diantara Sekolah Sekolah, Peringkat MSSS, lagi sekali nasib kami kurang baik. Ketiga tiga pasukan kami (Dibawah umur 15, 18, 20 tahun), telah ditewaskan didalam ketiga tiga parlawanan. Bukan setakat ini sahaja, malah didalam perlawanan dengan Murid Murid Tua, pun kami dialahkan. Namun yang demikian, kami telah memberi tentangan yang hebat, permainan yang cukup teratur, penuh semangat, yakin dan dedikasi.

SELAMAT MAJU JAYA.

ZULKIFLI ALI,

KETUA PASUKAN SEPAK TAKRAW.

DUDOK (DARI KIRI KA-KANAN): Abdul Rahman, Ibraham Ahmad, Juanim Jafri, Abdul Murad Buyong (*Penolong Ketua Pasukan*), Mohd. Noor, Morthy Chelliah, Ghazali.

BERDIRI (DARI KIRI KA-KANAN): Encik Satari Hj. Yassin (*Guru Penjaga*), Zaharizin, Kamarudin Ismail, Mohd. Yusof Pilus, Saiful Ahmad, Norhadi Hashim, Rafei Manan, Zakariah Jaafar, Samsudin Salleh, Zulkifli Mohd. Ahmad (*Ketua Pasukan*), Ridzuan Ahmad.

SOCCER

This year the selection for the Under-18 and Under-15 school soccer teams was held a bit late as the soccer field was under repair. Owing to the M.S.S.S. Kuala Lumpur North Zone tournament being held early, the Under-18 had little practice. Nevertheless we were able to combine effectively to emerge runners-up in the group event. However, we were pushed out of the tournament by a better team, Maxwell School, in the inter-group event.

The Under-15 team fared better. They proved themselves superior in skill and determination to emerge champions in the group events. In the inter-group event they swept aside all opponents to earn themselves a place in the zone finals. However, in the finals, their luck ran out, losing by a goal margin to St. John's Institution during extra time.

One of our players, Kalaiselvam brought honour to our school by representing the K.L. North Zone for two successive years. He represents the K.L. North Zone in the inter-district competition Pestabola Selangor. We wish to extend our heartiest congratulations to him for his achievement.

LEE LAI KEONG,
CAPTAIN.

UNDER - 18 :

STANDING (FROM LEFT TO RIGHT): Mr. Andrew James, Thangavelu, Lee Lai Keong, David Hon, Kumar, Khoo Kin Mun, Lim Yik Seng, Selvarajoo, Kumareson, Wing Kai Cheong, Chandra, S., Khaw Leong Seng, Kalaiselvam, Sugumaran, Selvaraju, Chan Kok Chong, David Francis, Anthony Francis, Mr. Choong Foh Leong.

UNDER - 15 :

SQUATTING (FROM LEFT TO RIGHT): Rosli Alham, Kamarul Anuar, Sundraj, Lim Keong Huat, S. Gunasekaran, Isaruddin, Liew Kim Hong, Ramlan bin Duad, Soh Chay Lam, Tang Kong Wai, Chow Lia Weng, D. Thamaselvam, Abdul Aziz bin Jaffar, Leong Saik Wing, Ibrahim Mohammad.

SCHOOL SOCCER TEAM 1973

Under-18

1. Kalaiselvam
2. Khoo Kin Mun
3. Lim Yik Seng
4. Chandra, S.
5. Chan Kok Chong
6. Khaw Leong Seng
7. Jayaraj
8. Wong Kai Chong
9. Selvarajoo
10. Anthony Franchis
11. Lee Lai Keong
12. Wong Hin Weng
13. Kuman
14. Selvaraja
15. Thangavelu
16. Kumaresan
17. Sugumanan
18. David Franchis
19. David Hon

Under-15

1. Tang Kong Wai (*Captain*)
2. Rosli bin Harun
3. Lim Keong Huat
4. Soh Chay Lum
5. S. Gunasegram
6. Chow Kai Meng
7. Abdul Aziz bin Jafar
8. Liew Kim Hong

HOCKEY

SEATED FROM LEFT:

Johnson Fernandez, Jeyaselan, Kamaruddin, Anandarajah, Chow Chun Liong, Abdullah.

STANDING: MIDDLE ROW:

Mr. Inder Singh (*Under - 18 Master-in-charge*), Anthony Francis, Bhupinder Singh, Say Giak Nia, Surinder Pal Singh, Cheong Choon Ming (*Under - 15 Capt.*), Lau Kok Sun, Mr. Awtar Singh (*Under - 15 Master-in-charge*)

STANDING: BACK ROW:

Selvarajah, Vasanta (*Under - 18 Capt.*), Anthony Fernandez, Jeyakumar, Gurdip Singh, Parmjit Singh, Sivarajah, Gadish Pal Singh, Balbir Singh, Victor.

The hockey season started this year, during the 2nd term. We had the Inter-House Hockey competition at the end of 2nd term. Yellow House emerged champions in the junior section.

UNDER - 18

The following boys represented the school:—

1. Jeyaseelan
2. Antony Fernandez
3. Vasantha Kumar
4. Say Geek Nia
5. Bhupinder Singh
6. Anthony Francis
7. Johnson
8. Jeya Kumar
9. Selvaraj
10. Kamarruddin
11. Gurdev Singh

The following boys represented the school in the Under-16 Hockey competition:—

1. Chow Chun Liong
2. Abdullah
3. Anaudarajah
4. Balachandran
5. Cheong Choon Ming (*Capt.*)
6. Lau Kok Sum
7. Surinder Pal Singh
8. Sivarajah
9. Parmijit Singh
10. Victor
11. Balbir Singh

VASANTHA KUMAR,
CAPTAIN.

VOLLEYBALL

Volleyball has been enjoying tremendous popularity among the boys ever since it was introduced to the school.

A selection for the school team was held on the 10th of January, 1973. Regular practices were held three times a week for the Under-15 and Under-18 Selangor Inter-School Volleyball Championship Tournament. After a gruelling period of hard training we improved both in team work and individual skill.

In the Inter-School Tournament the Under-15 team emerged as runners-up in the zone when they were beaten in the zone final. The Under-18 team emerged as the Selangor Schools Champion when they toppled the reigning champion Sekolah Sultan Abdul Samad, Petaling Jaya.

Blue House became the champion in the Inter-House Senior Tournament.

Congratulations to three of our players who were selected to represent the Selangor Combined Schools Under-18 team:—

(1) Soh Chin Yin.
(2) Teh Sar Moh Nee.
(3) Wong Kai Cheong.

In conclusion, on behalf of the School Volleyball team, I would like to extend my sincere thanks to coach Mr. Ngiam Toong Ip, Mr. Tan Keong Ng, master in charge Mr. Lui Fok Fui, Mr. Ibrahim and the staff for their keen interest and also for their invaluable services rendered.

WONG KAI CHEONG,
CAPTAIN.

SQUATTING (FROM LEFT TO RIGHT): Saik Win, Ho Chun, Soon Tai, Soon Kat, Eng Chuan, Beng Wah, Kong Sang, Kiang Chooi, Sim Poh.

STANDING (FROM LEFT TO RIGHT): Hock Chai, Say Kee, Leong Seng, Wong Kai Cheong (*Captain*), Chin Yin, Teh Sar, Oi Huat, Yew Kong, Fun Men, Mr. Liu.

BADMINTON

During the first term, players were selected to represent the school for the tournament organised by the Selangor Schools' Sports Council.

The Under-15 Individual Badminton Selangor Championship was held at the Dewan Tun (Dr.) Ismail. Both our school's singles and doubles representatives managed to get into the zone-semi-final.

The best performance for this year was by the school's Under-16 team which reached the zone-finals. Below are the results of this championship:—

M.B.S. (Sentul)	vs.	S.M.R. Ulu Klang - -	5 — 0	Won
M.B.S. (Sentul)	vs.	Maxwell Road School - -	5 — 0	Won
SEMI - FINAL				
M.B.S. (Sentul)	vs.	Ampang Boys' School - -	3 — 2	Won
FINAL				
M.B.S. (Sentul)	vs.	St. John's Institution - -	0 — 5	Lost

Credit should be given to Mr. Liew Wai Lin, the master in charge for giving the boys the encouragement they needed for the tournament.

Our school also participated in the Under-18 Individual Badminton Selangor Championships. Our doubles representative was knocked out in the first round while Shao Kam San, our singles player managed to reach the zone semi-final. The school tournament was a success and we hope that this will prove valuable experience for our boys. The Inter House tournament was won by Blue House.

We would like to thank the teachers in charge for their valuable assistance.

M. SIVASUBRAMANIAM,
CAPTAIN.

SCHOOL BADMINTON TEAM

STANDING BACK ROW (LEFT TO RIGHT): Mr. Liew Wai Lin, How Yow Wah, Low Kang Chooi, Yap Peng Yew, Nadarajan, Harry Loo, Sivasubramaniam, Heng Yow Hock, Mr. Yang, Cik Normah.

SQUATTING (LEFT TO RIGHT): Shao Kam San, Peh Hoo Chuan, Elankovan, How Kuee Chai, Manivanam, Azizun, Woo Kok Wai.

BASKETBALL

SEATED (FROM LEFT TO RIGHT): Ho Poh Su, Ng Sai Poh, Yap Poh Lim, Won Tiang Lung, Law Kam Wah, Lim Boon Seng.

STANDING (FROM LEFT TO RIGHT): Wong Pow Lai, Chong Kok Chong, Ling Hong Kam, Mr. Lee Hung Yen.

ABSENT: Yap Kian Wah.

Basketball is a very popular game in our school. Since its introduction 2 years ago, boys from Form 1-5 have shown great interest in the game.

For this year, the following boys have been selected to represent the school:—

Under-18	**Under-15**
Yap Poh Leem (*Captain*)	Harry Loo (*Captain*)
Ang Sai Poh (*Vice-Captain*)	Low Beng Wah (*Vice-Captain*)
Won Tian Loong	Yap Ching Lee
Law Kam Wah	Nee Kim Kee
Ho Poh Shu	Teh Leong Kok
Lim Boon Seng	Tien Seng
Wong Pow Lai	Peh Hoo Chun
Yap Kien Wah	Heng Yoh Hock
Ling Hong Kam	Ong Sim Poh
Cheong Kok Chong	Tan Swee Hiang
Yong Fun Men	Chin Ann
Koh Wai Choong	Yap Kim Lim

Regular practices were held throughout the year. At the end of the first term, we had friendly matches against Methodist High School, Sentul and St. John's Institution. We won the first match, but lost the second.

During the second term, we participated in the Selangor Inter-School Basketball tournament. Although we did not do well, we put up a good fight in all the matches played, and displayed a good spirit of sportmanship. As a result, our Captain of the Under-15 team, Harry Loo was selected by the Sports Council to represent Selangor in the Inter-state basketball tournament.

The annual school tournament was held at the end of the 2nd term, White House emerged as the champion & Red House as runner-up.

In conclusion I would like to thank the masters-in-charge, Mr. Lee and Mr. Pallanaippan for their valuable help, guidance and encouragement.

YAP POH LEEM,
CAPTAIN.

TENNIS

Regular practices are held on Tuesdays and Thursdays. This year the team was much more active than in previous years because of the better response from the boys. All those who took up the game have improved a great deal.

In a tournament against the Old Boys' Association, held at the beginning of the first term the school team won with a score of 4 - 1.

The Inter-House Tournament held at the beginning of the Second Term was won by Green House while Yellow House emerged runners-up.

The entrants for the Selangor Open Championship were Loganathan, Vijendran, Ravichandran and Foong Chee Wah.

The school Under-20 team lost to the team from Victoria Institution in the Selangor Inter-school Championship, with a score of 2 - 3.

The Under-15 team also lost to the Sekolah Sultan Abdul Aziz, Kuala Selangor with a score of 2 - 3.

Although both the Under-20 and Under-15 teams lost their matches, we must not give up but try to acheive success in the years to come. I would like to thank the team players for their cooperation and the time they sacrificed for the practices as well as the tournaments. I hope they will practice harder and more seriously so as to make the team into a team which the players, as well as the school, can be proud of.

Finally, I would like to thank the teachers-in-charge for the invaluable guidance and help they have given us.

FOONG CHEE WAH,
CAPTAIN.

MENGENAL KEAMANAN DI DALAM SESUATU MASYARAKAT

Malaysia ialah sebuah negara yang mempunyai penduduk berbilang bangsa. Namun demikian, negara kita tetap aman dan makmur kerana penduduk-penduduknya mengamalkan prinsip-prinsip yang menjamin keamanan negara. Sebagai seorang rakyat Malaysia kita mestilah pandai menyesuaikan diri untuk mengekalkan keamanan dalam masyarakat.

Untuk mengekalkan keamanan kita mestilah taat setia kepada raja dan negara. Kita mestilah patuh kepada undang-undang masyarakat kita. Sebagaimana kita tahu Malaysia ialah sebuah negara demokratik. Tiap-tiap orang mempunyai hak-hak mereka sendiri. Mereka juga mempunyai ugama dan adat istiadat mereka sendiri. Mereka mestilah bergaul di antara satu sama lain. Jika mereka bergaduh antara satu sama lain, negara mereka yang dicintai ini tidak akan aman dan damai. Kita mestilah tolong menolong di antara satu sama lain di dalam kesusahan dan dalam kegembiraan. Kita mestilah mengikut prinsip-prinsip rukun negara. Kita janganlah menyimpan perasaan dendam terhadap seseorang.

Dengan berpandukan kepada beberapa prinsip-prinsip di atas kita juga telah menyumbangkan bakti kita untuk keperluan negara.

DALBIR SINGH,
TINGKATAN 1-A.

DARIHAL SEORANG PEKEBUN SAYUR

Pekebun sayur yang saya tahu ialah Ah Chai. Ah Chai tinggal dekat dengan rumah saya. Rumah Ah Chai kecil sahaja dan dibuat daripada kayu. Di belakang rumahnya ada sebuah kebun sayur. Dalam keluarga Ah Chai ada lima orang iaitu Ah Chai, isterinya dan tiga orang anak laki-laki.

Tiap-tiap hari Ah Chai dan isterinya bangun lebih awal daripada jiran-jirannya. Dia bangun kira-kira pada pukul lima pagi. Isteri Ah Chai akan menyediakan bekalan-bekalan untuk dibawa oleh Ah Chai. Ah Chai akan membawa sayur-sayur yang ditanam olehnya ke pasar dengan basikalnya untuk dijual di situ. Pasar itu tidak dekat dengan rumah Ah Chai, kira-kira empat batu jauhnya. Dia tidak akan balik ke rumahnya pada waktu tengah hari kerana ia telah membawa makanan-makanannya dari rumah.

Ah Chai menanam sayur-sayuran seperti lobak, sawi, kangkung dan lain-lain lagi. Tiap-tiap kali bila sayur-sayuran Ah Chai akan menjadi masak dia akan duduk di belakang rumahnya dan jaga sayurnya daripada dicuri oleh orang atau dimakan oleh binatang.

Saya tidak akan menjadi seorang pekebun sayur kerana saya tak boleh tahan bekerja di panas matahari. Kerja pekebun sayur boleh dikatakan kerja yang berat.

GILBERT KOH,
TINGKATAN 1-B.

MENANTI KEPULANGAN AYAH

Waktu itu senja. Matahari telah tenggelam diufuk barat, angin bertiup sepui-sepui bahasa dan sekelian penduduk kampung telah tidak nampak berkeliaran lagi kerana semuanya telah pergi menunaikan perentah Allah. Sebentar kemudian, hari menjadi gelap dan malam pun tiba. Aku sekeluarga sedang duduk di rumah. Kami sendag berbual-bual. Pada masa itu aku masih anak lagi dan sebentar kemudian terdengar ketukan di pintu dan apabila pintu dibuka, ada seorang lelaki setengah umur tercegat di situ. Orang itu membawa teligram untuk ayahku. Apabila teligram dibuka kedua ibu bapa ku terperanjat dan ayer muka mereka berubah. Aku tidak tahu apa yang berlaku dan aku cuma tercengang sahaja. Sebentar kemudian ayah ku pergi berkemas-kemas. Aku masih bingung dan sebentar kemudian ibu ku keluar dari bilek lalu menangis. Kemudian ayah ku keluar dari bilik lalu mendakap aku erat-erat. Aku menjadi lebih bingung dan ayah ku meninggalkan rumah.

Kini aku telah dewasa. Ayah ku masih belum pulang sejak pemergian tempuh hari. Suatu hari sedang aku menatapi buku, aku teringatkan ayah ku. Aku terus masuk ke dalam bilik di mana ibu ku sedang berbaring. Aku pun bertanyakan hal itu kepada ibu ku. Tiba-tiba ibu ku menangis. Ia menyatakan bahawa ayah ku pergi kesempadan dan akan kembali. Aku pun menanti kepulngan ayah ku. Sedang aku menatapi buku tiba-tiba aku terdengar satu ketukan. Ada seaorang posmen rupanya. Ia menghulurkan sepucuk surat kepada ku.

Aku mengucapkan terimakasih. Dalam surat itu mengandungi beberapa perkataan sahaja. Ayah ku telah tamat bertugas dan akan pulang tidak lama lagi. Pada ke esokan harinya aku membuka radio untuk mendengar berita. Aku sungguh terperanjat bila aku mendengar berita bahawa kapal terbang yang membawa perajurit-perajurit telah jatuh ter-hempas. Beberapa orang perajurit telah menemui ajal mereka di situ juga sementara yang lain cedera parah. Sebuah kapal penyelamat telah pergi mengangkut mayat-mayat dan orang yang cedera. Di antara yang menemui ajal ialah ayah kesayangan ku. Hati ku sungguh pilu kerana setelah menunggu kepulangannya bertahun-tahun. Kini hanya mayat-nya sahaja yang pulang kepangkuan ibu ku dan aku.

RAJA HAMDAN IBRAHIM,
TINGKATAN 2-C.

SATU KEMALANGAN DI JALAN RAYA

Pada suatu hari, saya dengan bapa saya pergi ke Seremban, bila sampai ke Bukit Mantin saya terlihat satu kemalangan yang dahsyat.

Sebuah lori yang membawa kayu balak dari Seremban ke Kuala Lumpur berseliseh dengan sebuah teksi yang membawa empat orang penumpang dari Kuala Lumpur ke Seremban di selekoh yang tajam. Tiba-tiba rantai besi pengikat kayu balak itu putus. Kayu balak itu pun jatuh dan menghempap kereta teksi itu. Kereta itu pun penyet. Semua orang dalam teksi itu telah mati serta-merta. Kayu balak itu pun terhalang di jalan raya dan kereta-kereta yang lalu disitu tertahan oleh kayu balak itu. Orang-orangnya pun keluar dan cuba menolong penumpang-penumpang teksi itu tetapi tidak berjaya.

Satu jam kemudian kereta polis, ambulan dan kerin pun sampai. Kerin itu pun mengangkat kayu balak itu lalu meletakkannya di tepi jalan. Kemudian Polis pula meng-gunakan gas api untuk memotong badan kereta teksi itu dan mengeluarkan mayat-mayat penumpang dalam teksi itu. Mayat-mayat itu pun dibawa oleh ambulan ke rumah sakit.

Saya berasa sangat ngeri melihat kemalangan itu. Saya harap kemalangan seperti itu tidak akan berlaku lagi di selekoh yang tajam itu. Apabila saya sampai ke rumah datuk saya, saya pun menceritakan kemalangan yang saya telah lihat kepada datuk saya. Dengan kejadian itu saya selalu berjaga-jaga di jalan-jalan raya.

CHEW KIAN AIK,
TINGKATAN 2-A.

FAEDAH BERJIMAT CERMAT

Ertinya yang paling mudah "Berjimat Cermat" ialah "Berdikit-dikit dan berhati-hati". Samada kerana berdikit-dikit itu seseorang telah berhati-hati atau oleh kerana terlalu ber-hati-hati itu seseorang telah berdikit-dikit adalah sama sahaja maksud tujuannya dan tetap memberi banyak faedah kepada orang yang melakukannya.

Satu daripada faedahnya ialah seseorang yang pandai berjimat cermat tentu dapat meringankan sedikit beban tanggungan orang yang menanggungnya. Kalau ia seorang anak, tentu ia dapat meringankan sedikit beban kedua-dua ibubapanya; dan kalau ia seorang isteri, tentu pula ia dapat meringankan beban suaminya, begitulah pula kalau ia seorang rakyat, sudah tentu ia telah menolong meringankan beban kerajaan negaranya.

Dengan berjimat cermat seseorang itu dapat menyimpan sebahagian daripada pendapatan bulanan atau pendapatan hariannya. Jika ini dilakukan terus menerus tentulah dia tidak akan merasai apa-apa kesulitan jika ia kehabisan wang atau tertimpa oleh sesuatu kejadian yang memerlukan wang.

Satu daripada pepatah Melayu ada menyebutkan begini bunyinya, "Sedikit-sedikit lama-lama menjadi bukit". Peribahasa ini terang-terang menggambarkan faedah yang akan dinikmati oleh orang yang pandai berjimat cermat. Wang yang dijimatkan sedikit-sedikit, satu hari nanti akan menjadi bertimbun-timbun macam bukit; maknanya simpanan dia telah banyak. Ini tentu menyenangkan hidup masa hadapannya kelak dan ia akan mampu hidup tanpa meminta pertolongan dari orang lain. Kalau ia jatuh sakit atau ditimpa kemalangan, dengan mudah ia dapat mengatasinya sebab wang banyak dalam simpanannya.

Kalau ibubapa yang pandai berjimat cermat, tentulah mereka dapat mengatasi soal keluarga dan rumah tangganya. Anak-anak mereka dapat hidup aman dan tidak bimbang. Kalau mereka sudah tua dan kalau anak-anak mereka tidak dapat membantu, mereka dapat hidup terus tanpa pertolongan anak-anaknya.

NOR MUBARAK MAAROF,
TINGKATAN 3-B,
Pemenang Hadiah Pertama,
Bagi Tingkatan 3.

SATU LAWATAN KE TEMPAT YANG BERSEJARAH

Pada masa cuti penggal pertama, kami sekumpulan murid-murid sekolah telah mengadakan sebuah lawatan ke negeri Melaka iaitu sebuah negeri yang mempunyai banyak kesan-kesan sejarah. Kami terpaksa menaiki bas sewa kerana negeri bersejarah ini tidak ada perjalanan keretapi sebagaimana sebelum perang dunia kedua dahulu.

Dalam perjalanan kami, bas kami melalui jalan raya yang bengkang-bengkok di mana sebelah menyebelahnya didapati ladang-ladang getah hutan rimba, sawah-sawah padi, kebun-kebun sayur, lombong-lombong bijih dan kampung-kampung tempat tinggal. Lebih kurang empat jam kemudian baharulah kami sampai ke negeri tersebut.

Kami pun mengelilingi bandar Melaka dengan bas sewa kami tadi. Kebanyakan bangunan sama juga seperti bangunan-bangunan yang pernah kita lihat di bandar-bandar lain. Akan tetapi di antaranya ada kita dapat bekas-bekas bangunan atau tempat-tempat lama yang bersejarah umpamanya, A Famosa, Gereja St. Paul, Perigi Hang Li Po dan sebagainya. A Famosa ialah satu binaan kota yang dibina oleh orang-orang Portugis dalam abad ke 16 dahulu untuk mempertahan Melaka daripada diserang semula oleh askar kerajaan Melaka atau lain-lain musuh. Perigi Hang Li Po ialah nama sebuah perigi. Hang Li Po adalah nama seorang puteri Maharaja Cina yang berkahwin dengan Sultan Mansur Shah, Melaka. Di bandar Melaka itu ada beberapa buah bangunan yang telah dibina oleh orang-orang Belanda tatkala mereka berkuasa di Melaka sejak tahun masehi 1641 hingga ke tahun 1795 dan kemudian dari tahun 1818 hingga tahun 1824.

Oleh kerana tiap-tiap tempat dan perkara yang kami lawati itu kami telah saksikan dengan penuh gembira, kami tidak sedar hari telah hampir hendak gelap. Kami pun mula menaiki bas yang kami sewa khas itu lalu balik menuju ke Kuala Lumpur. Walaupun kami terpaksa meninggalkan tempat bersejarah itu, tetapi kami berasa amat puas hati kerana dapat menyaksikan tiap-tiap kesan sejarah yang terdapat dinegeri itu yang mana setengah daripadanya tidak dapat kami sebutkan di sini. Disamping itu kami juga telah berpeluang meluaskan pengetahuan am kami tentang hal ahwal negeri Melaka secara umum.

LIM HWA TEONG,
TINGKATAN 3-A.
Pemenang Hadiah Yang Kedua,
Bagi Tingkatan 3.

BURUK DAN BAIKNYA TINGGAL DI RUMAH PANGSA

Tinggal dirumah pangsa tentu ada kebaikan dan keburukannya. Walaupun bilik-bilik di rumah pangsa itu sempit sedikit tetapi sewanya murah dan mengutungkan. Jika kita menyewa rumah di tempat lain tentu sewa rumah itu lebih mahal sekalipun ianya besar sedikit daripada rumah pangsa.

Orang-orang yang tinggal di rumah pangsa terdiri daripada berbagai-bagai kaum. Jika kita tinggal di situ kita boleh bercampur gaul antara satu sama lain dan kita dapat peluang mempelajari cara hidupnya, kebudayaannya, ugamanya dan kita juga boleh bertukar-tukar pikiran. Dari situ kita boleh hidup tolong menolong di antara satu sama lain dengan aman damai. Cara ini dapat menolong kerajaan mengatasi soal perkauman dan muhibbah boleh di dapati.

Jika kita hendak mengadakan sesuatu majlis jamuan, maka rumah pangsa bukanlah tempatnya yang sesuai kerana kawasannya terlalu sempit. Kalau lif di rumah pangsa yang bertingkat-tingkat tingginya itu rosak, makin susahlah penduduk rumah pangsa. Mereka terpaksa turun dan naik mengikut tangga. Ini sungguh membosan dan meletihkan seseorang.

Nyamuk di rumah pangsa boleh dikatakan terlalu kurang kerana ada longkang-longkang yang bersih. Lalat juga berkurangan kerana sampah sarap dan sisa-sisa makanan dapat dibuang dan diangkut oleh lori-lori bandaraya pada tiap-tiap hari. Ini menjadikan kawasan rumah pangsa sentiasa bersih dan kesihatan penduduk-penduduknya pun sentiasa baik.

Hidup di rumah pangsa tidak berpeluang memelihara ayam atau itik kerana tidak ada kawasan memeliharanya. Jika binatang ternakan dipelihara juga tentulah mendatangkan bunyi bising dan bau busuk.

Walau bagaimana pun tinggal dirumah pangsa banyak kemudahan boleh didapati. Penduduk-penduduk boleh mendapati cahaya api letrik dan air yang bersih untuk minum, memasak makanan, mandi dan mencuci pakaian.

HONG LAY CHUAN
TINGKATAN 3-A
Pemenang Hadiah Ketiga
Bagi Tingkatan 3.

MASALAH PENGANGGURAN DAN CARA-CARA MENGATASINYA

Pada masa ini soal pengangguran boleh dikatakan satu masaalah yang penting sekali yang di hadapi oleh manusia di dunia ini. Di negara-negara seperti Amerika Syarikat, Jepun, England dan Malaysia bilangan penganggur telah bertambah dengan hebat nya. Perkara ini juga menimbulkan beberapa akibat yang buruk seperti perompakan dan pembunuhan. Oleh kerana kedahsyatan perkara ini kerajaan telah mengambil tindakan supaya dapat menyelesaikan perkara ini.

Sebab-sebab timbulnya pengangguran ini bukanlah kerana kekurangan pekerjaan sahaja tetapi juga oleh sebab-sebab masyarakat. Mereka suka memilih kerja yang senang dan tidak payah menggunakan tenaga seperti menjadi kerani dan pengurus. Kerja-kerja buruh telah dibiarkan sahaja. Ini bukan kerana gajinya rendah tetapi kemalasan orang untuk membuat kerja-kerja yang keras. Oleh kerana ini kerajaan telah menasihatkan orang-orang supaya jangan memilih kerja-kerja yang mereka suka tetapi membuat apa-apa kerja yang di dapati. Seseorang yang ingin mendapat kesenangan tentulah bersusah payah untuk mendapatnya, kata pepatah "Berakit-rakit Ke Hulu, Berenang-renang Ke Tepian."

Kerajaan juga menolong dengan membuka kilang-kilang yang akan memberi kerja-kerja kepada orang ramai. Kilang-kilang itu telah menyediakan beberapa biru kerja untuk orang ramai. Kebun getah juga di buka untuk memberi peluang bekerja. Pada masa ini di mana perjualan getah sangat laris, semakin banyak kebun getah telah di buka. Ini bermakna kekurangan bilangan penganggur-penganggur.

Dalam Rancangan Malaysia ke Dua, banyak pekerjaan telah di sedia untuk orang ramai. Kita boleh manjadi guru, pekerja-pekarja kilang, askar, nelayan, buruh dan banyak lagi. Dengan menyediakan kerja-kerja ini kerajaan dapat menahan pengangguran dari menjadi lebeh buruk.

Penganggur-penganggur sendiri juga boleh menolong mengatasi masaalah pengangguran ini. Pertama mereka mestilah membuat apa-apa kerja yang didapatkan. Ini tentulah lebeh baik dari duduk sepanjang hari di rumah tidak membuat apa-apa pun. Tambahan pula gaji yang didapati juga lebih baik dari tidak mendapat apa-apa. Kedua, ikutilah contoh orang-orang Jepun yang rajin bekerja sambil membina sebuah negara yang kuat dalam ekonominya.

Kalau anggota masyarakat dapat mengikuti contoh-contoh yang disebutkan tentulah masaalah pengangguran akan dapat diselesaikan dengan pantasnya. Mereka bukan sahaja membuat baik kepada diri sendiri tetapi juga kepada tanah airnya.

TEO WEE CHEE,
TINGKATAN 4-E.
Pemenang Pertama dalam
Pertandingan Essei, MBSS.

KEBAIKAN DAN KEBURUKAN TINGGAL DI RUMAH PANGSA

Pada zaman yang serba moden ini, masaalah kekurangan tanah adalah satu-satunya perkara yang susah di atasi. Negara seperti Singapura, Hong Kong dan Japan di mana tanah telah menjadi masaalah yang besar. Kerajaan telah membina rumah-rumah pangsa untuk penduduknya. Dengan ini kita dapat melihat dengan jelasnya pembinaan bangunan-nya selalu tinggi dan mencakar langit. Oleh kerana ini ramai penduduk-penduduk terutama sekali di Singapura dan Hong Kong, sebilangan besar dari mereka tinggal di rumah pangsa.

Tinggal di rumah pangsa ada kebaikan dan keburokannya. Kebaikan yang didapati bila seseorang itu tinggal di rumah pangsa adalah seperti berikut. Sewa yang dikenakan jikalau seseorang itu tinggal di rumah pangsa sangat murah dan ini sangat sesuai untuk orang-orang yang tidak bergaji besar dan orang-orang yang belum berkahwin. Oleh kerana ini ramai orang bujang tinggal di rumah pangsa di mana mereka akan berkongsi dengan sahabat mereka membayar sewa.

Pergaulan antara satu penghuni rumah pangsa dengan yang lain akan menjadi rapat kerana mereka tinggal berdekatan. Ini akan menyebabkan persahabatan mereka tegoh. Kanak-kanak dapat bermain di padang permainan yang dikhaskan pada masa petang. Penghuni-penghuni rumah pangsa akan dapat mengenali dengan lebih dekat cara hidup, masakan antara satu sama lain. Kepada budak-budak yang bersekolah mereka dapat belajar bersama-sama dan mendapat tunjuk ajar dari yang lebih tua.

Kadangkala bila dalam kesusahan penghuni-penghuni dapat menolong di antara satu sama lain dan mereka juga dapat menasihati penghuni yang lain apa yang baik dan apa yang burok. Bagi mereka yang tinggal di tingkat yang tinggi sangatlah berguna kerana mereka dapat menyedut udara yang lebih bersih dan nyaman dari apa yang terdapat di bawah. Bagi suri-suri rumah tangga apabila suami mereka telah pergi bekerja dan anak mereka ke sekolah, mereka tidaklah merasa sunyi kerana adanya jiran yang berdekatan.

Dari segi keburukannya tidaklah banyak tetapi di antara mereka ialah seperti berikut. Kadangkala pergaduhan berlaku dan ada kemungkinan ini akan membuat mereka tidak berkawan hinggalah mereka berpisah. Rumah-rumah pangsa ini selalunya tinggi belaka dan ada kemungkinan budak kecil jatuh dari atas yang menyebabkan kematian. Kepada ibu yang takut kejadian ini berlaku, mereka akan mengurongkan anak-anak mereka di dalam rumah dan perbuatan ini tidaklah berapa elok. Ada kemungkinan lif di rumah pangsa ini tersangkut dan tidak dapat berjalan. Kadang-kadang bila ini berlaku orang yang di dalamnya akan terperangkap dan ada juga yang mati kerana udara yang tidak mencukupi. Kejadian ini sering berlaku di kota-kota yang besar di mana terdapat banyak rumah pangsa.

Bila kebakaran berlaku, mereka akan menghadapi masaalah yang besar sekali. Mereka yang tinggal di atas susah hendak turun ke bawah dan akan menyebabkan mereka hilang akal dan akan terus terjun ke bawah. Pada ketika ini banyak akan mati. Kadang-kadang ada juga pemuda-pemuda bergaul dan akan menyebabkan mereka menjadi kumpulan jahat.

Masaalah yang dihadapi oleh ibu ialah menyidai kain. Tempat yang diberi menyidai kain tidak berapa besar dan kadang-kadang tidak mencukupi kepada ibu yang mempunyai banyak anak. Rumah-rumah ini selalu kotor dengan sampah sarap dan ini membuat udara kotor.

Dengan ini kita dapati banyak kebaikan dan keburokan jika tinggal di rumah pangsa dan masaalah itu mestilah dihadapi oleh mereka yang tinggal di sana.

M'OHD. AZHAR,
4 ADD. SCIENCE,
Pemenang Kedua dalam
Pertandingan Karangan Tingkatan 4.

KEBUDAYAAN KUNING

Pengharaman kemasukan filem-filem sex, jenayah dan keganasan telah diumumkan di akhbar-akhbar. Menurut lapuran surat khabar itu, filem-filem tersebut adalah mencemar moral seseorang. Moral orang itu akan menjadi rendah dan dia mungkin menjadi penjenayah. Filem-filem sex bukan saja mempengaruhi maruah seorang tetapi juga kesopanannya.

Jawatankuasa Pilihan Khas Parlimen sedang mengkaji dan mempertimbangkan hal itu supaya ianya tidak bertambah buruk. Berdasarkan kepada kesan-kesan filem-filem sex, keganasan dan filem jenayah, yang terlibat dalamnya ialah muda-mudi yang bertenaga dan bersemangat. Mereka terus mengikut apa yang ditayangkan di dalam filem-filem tersebut dengan tidak mengetahui keburukannya. Walaupun, belum ada penjelasan yang tetap sejauh manakala filem-filem jenis itu membawa akibat buruk, kesan yang didapati di kalangan anak-anak muda telah membuktikan bahawa ia sungguh merbahaya.

Peninjauan dan pendapat-pendapat orang ramai, pertubuhan-pertubuhan dan orang perseorangan telah di minta. Tujuan mereka ini adalah mengsyurkan kerajaan supaya mengkaji dengan teliti tentang hal yang disebutkan. Walaupun masalah 'filem-filem jenayah terhadap pemuda-pemudi' belum sampai keperingkat yang hebat dan merosakkan, kita patut meninjau ke masa depan. Kita harus berikhtiar dan bertindak menghalangkan kemajuannya tayangan filem-filem yang merosakkan supaya anak-anak muda yang akan jadi urat nadi negara kita, tidak dipengaruhi olihnya.

Bagaimanapun, pengharaman filem-filem sex yang berfaedah bagi kajian dalam bidang-bidang yang mempunyai hubungan dengan pendidikan sains seperti dalam bidang perubatan perancang keluarga, penyelidikan dan penyakit-penyakit, penayangan filem-filem sex yang berfaedah juga memberi pelajaran bagi kebaikan rumah tangga suami isteri.

Kesan yang buruk dari filem-filem yang bolih dikatakan lucah itu, bukan saja terhadap moral muda-mudi malahan juga kepada sebahagian rakyat yang terpengaruh sewaktu menuntunnya. Masaalah ini telah terjadi dipelbagai negara yang telah maju dari sudut sains dan teknoloji umpamanya, Amerika Syarikat. Tetapi kerajaan mereka tidak mempertimbangkan berat soal ini dan sebab itulah negara mereka mundur dari segi disiplin, tata tertib dan kesopanan.

Di sini nyatalah bahawa filem-filem yang memberikan keburukan, telah menjadi musuh kepada setiap negara dan kerajaannya. Ia mempengaruhi kehidupan dan merosotkan segala disiplin yang ada pada sebahagian rakyat di negara kita ini. Sebagai negara muda yang sedang menyusun masyarakat untuk berjuang serta mematuhi dan berdasarkan kepada prinsip-prinsip dan undang-undang rukunegara, maka, anasir-anasir dan gejala-gejala seperti ini haruslah diketepikan secepat mungkin.

WOO KOK WAI
TINGKATAN 4-E.

PENCEMARAN ALAM

Kini, alam kita yang cantik dan murni telah dicemarkan olih sains dan teknoloji. Perkembangan perusahaan adalah faktor yang utama mencemar alam kita. Negeri yang ada banyak kilang-kilang dan mempunyai perusahaan yang moden adalah negeri-negeri yang amat kotor akibat pencemaran. Negeri-negeri itu ialah saperti negeri-negeri Eropah, Amerika Syarikat dan negeri Jepun.

Di Malaysia pun kita dapat pencemaran dari kilang-kilang terutama sekali di dalam kawasan Petaling Jaya. Asap yang keluar dari cerubong kilang-kilang itu mencemar udara di sekililingnya. Asap-asap itu menggandong bahan kimia yang merbahaya untuk kesihatan kita. Kilang-kilang haruslah diletakkan jauh dari tempat kedudukan orang ramai. Di sini saya hendak menegaskan bahawa kerajaan kita hendaklah mempunyai dasar kepentingan kesihatan lebih dari keuntungan yang di dapati dari perusahaan.

Air di sekeliling pelabuhan Kelang telah dicemarkan dengan minyak-minyak dan kekotoran yang di bawa oleh sungai-sungai. Ini sangat merbahaya pada nyawa binatang yang tinggal di dalam lautan. Yang lebih merbahaya ialah minyak dan bahan-bahan kimia. Ikan-ikan akan mati kalau kedua ejen pencemaran tersebut ada berlebihan dalam air laut. Walaupun ikan-ikan yang sihat dan kuat tahan kedua ejen pencemaran itu, kita akan dapat kesusahan pula. Bahan kimia yang ditelan oleh ikan-ikan akan membahayakan nyawa kita. Dengan menyedarkan kesulitan itu kerajaan Malaysia serta kerajaan Indonesia telah bertindak. Beberapa rundingan telah dijalankan untuk mengatasi masaalah pencemaran di Selat Melaka. Langkah-langkah yang sesuai telah dilancarkan oleh kedua kerajaan dan kejayaan telah di capai.

Alat pencemaran alam yang amat merbahaya ialah radioactivity. Ini disebabkan oleh kajian bom nuklear. Amerika Syarikat, Russia dan negeri Cina telah menjalankan ujian bom nuklear di tempat masing-masing. Selepas bom nuklear diletupkan, udara di sekililingnya dicemarkan oleh unsur radioactivity. Radioactivity sangatlah merbahaya kepada segala binatang-binatang dan tumbuhan-tumbuhan. Bahayanya di rasai bila Amerika Syarikat meletupkan bom itu di Hiroshima dalam peperangan dunia kedua. Beribu-ribu orang meninggal dunia dan beribu-ribu juga yang tercedera parah. Mereka yang tidak berdosa itu telah menjadi alat-alat dalam kajian sains. Se lepas tiga puluh tahun, tapak radioactivity dapat dilihat. Ada yang dilahirkan tampa kaki, ada yang dilahirkan tampa tangan atau jari-jari. Ada pula yang mempunyai dua kepala. Ini semua adalah akibat radioactivity.

Dengan kesedaran bahaya letupan bom nuklear, ahli-ahli Bangsa Bersatu telah mengecam negeri besar yang mengadakan ujian bom nuklear. Bila negeri Perancis hendak menjalankan ujian itu, negeri di seluruh dunia membantah akan perbuatan ini. Kapal dari negeri New Zealand telah mendekati Mururoa Atoll, tempat mengadakan ujian bom nuklear, untuk bertimbang rasa. Itulah cara yang tepat untuk menghalang sebuah negeri yang menjalankan ujian seperti ini.

Langkah yang tepat untuk mengawal pencemaran alam ialah mengadakan satu pertubuhan dunia. Pertubuhan itu akan mengkaji cara-cara untuk membersihkan dunia yang di kasihi ini. Pertubuhan ini haruslah di beri kuasa untuk memperhentikan sebuah negeri menguji dengan bom nuklear. Pertubuhan ini dihendakkan mengawal pokok-pokok dan bahan-bahan alam semula jadi. Oksijan yang kita perlu untuk hidup di dapati dari pokok-pokok. Tampa pokok-pokok kita tidak akan dapati oksijan yang lumayan. Dengan ini kita akan meninggal dunia, diracun oleh gas krbon dioxide.

Untuk kebahagian dan kesihatan manusia, perlulah sebuah alam yang bersih dan murni. Kebahagiaan akan tercapai kalau kita beri keutamaan kepada kesihatan bukan kekayaan.

CHIONG CHEE KIN
FORM 4-E.

MASYARAKAT ADIL DAN CARA MENCAPAINYA

Kepopulariti perkataan, "Masyarakat Adil," ini digunakan, memang sudah tidak ada batasannya. Di mana-mana sahaja kita berada, kita boleh mendapati slogan ini di lambang-lambangkan. Di sampul-sampul surat dan di akhbar-akhbar juga perkataan "Masyarakat Adil" ini dicapkan. Dari siaran-siaran radio dan talibisven pula, kita seringkali mendengar slogan ini disebut-sebut.

Memang sudah tidak asing lagi perkataan ini kepada kita, tetapi kadang-kadang ada pula sesuatu yang membingungkan saya. Persoalannya adalah, adakah semua orang tahu akan erti slogan ini? Saya sendiri pun tidak begitu yakin, tetapi kepada saya ia adalah sesuatu ucapan bagi menyedarkan kita akan kepentingannya masyarakat kita di Malaysia : hidup dengan aman damai, keharmunian dan keadilan tanpa sebarang jurang perbezaan antara pangkat dan perkauman. Bolehkah semua ini dicapai? Jawabnya memanglah boleh tetapi semua ini akan memerlukan masa panjang dan semangat kesabaran mestilah ujud. Apa pula cara-caranya untuk mencapainya dan dari mana pula kita mesti mulai?

Pada pendapat saya, mula-mulanya perkauman mestilah dihapuskan. Pelbagai kaum yang berada di dalam negeri ini mestilah bercantum untuk dijadikan satu keluarga yang basar di mana persefahaman boleh terdapat. Bagaimana pula ini boleh tercapai?

Pertamanya, di dalam apa jua bidang pekerjaan, pangkat-pangkat pekerjaan, pembahagian rezeki perlulah dibahagi-bahagikan kepada semua kaum dalam rasyio bilangan penduduknya di dalam negeri ini. Misalnya di dalam bidang perniagaan yang memangnya di bolot oleh kaum Cina, orang Melayu dan orang India perlu diberi satu-satu bahagian. Orang-orang Cina yang sudah matang dalam bidang ini mestilah memberi tunjuk-ajar kepada kaum yang lain supaya mereka juga akan mendapat kejayaan dalam bidang yang tersebut itu. Dalam bidang pertanian, orang India mestilah diberikan peluang bagi mereka mencubanya. Mereka tentu akan berjaya, memandangkan yang mereka itu kuat dan rajin serta ingin belajar.

Dalam bidang politik, semua kaum patutlah diberikan peluang untuk menceburkan diri mereka supaya pendapat, pikiran, kesulitan serta perasaan mereka dapat diketahui oleh kaum yang lain dan oleh kerajaan juga.

Semangat muhibbah patutlah terkandong dalam hati kita. Tolong-menolong antara satu sama lain mestilah dipentingkan. Kuasa luar yang ingin membuat kekacauan untuk memutuskan pertalian masyarakat kita mestilah dihapuskan dengan segera.

Dengan cara-cara yang tersebut, masyarakat adil boleh di capai. Penduduk-penduduk di Malaysia bolehlah hidup dalam suasana aman damai, penuh dengan persefahaman dan keharmunian serta seterusnya dapat menikmati keadilan.

CHAN PENG ONN

Pemenang Hadiah Pertama
Bagi Tingkatan 5

KEPENTINGAN PERSATUAN IBU-BAPA DAN GURU-GURU

Jika sesebuah sekolah inginkan kemajuan yang lebih baik dan cemerlang, ianya patut menubuhkan persatuan ibubapa dan guru-guru. Persatuan ini boleh memainkan peranan yang penting di sesebuah sekolah. Dengan adanya persatuan ini kemajuan atau kemunduran seseorang murid atau pelajar dapat di kesan. Dan seterusnya rekonstraksi-rekonstraksi yang memberi faedah dapat dilancarkan.

Perjumpaan persatuan ini patut diadakan lebih kurang dua kali sebulan. Dengan adanya perjumpaan-perjumpaan persatuan ibubapa dan guru-guru; ibubapa dan guru-guru dapat berdamping rapat dan bertukar-tukar pikiran. Apabila semuanya sudah seia sekata, maka mana-mana pendapat yang dipikirkan penting akan dijalankan, umpamanya ibubapa dan guru bersetuju untuk menambah masa belajar di sekolah atau bersetuju mengadakan kelas-kelas tambahan dan yang lain-lain lagi; tentulah dapat dilaksanakan kerana kedua-dua pihak akan bekerja sama.

Apabila ibubapa dan guru-guru sudah berdamping rapat maka ibubapa dapat mengetahui kemajuan anak-anaknya. Anak-anak mereka akan lebih giat berusaha kerana mereka takut dimarahi oleh ibubapanya. Dengan ini pelajar-pelajar akan menunjukkan interesnya pada setiap mata pelajaran yang diajar di sekolah. Guru-guru dapat mengetahui mana-mana ibubapa yang tidak bertanggung-jawab atas pelajaran anak-anak mereka (pelajar) melalui persatuan tersebut.

Persatuan ini juga dapat menyelesaikan masaalah-masaalah setengah-setengah pelajar-pelajar yang mundur. Guru-guru akan menanyakan ibubapa mereka mengenai diri pelajar itu semasa berada di rumah. Mungkin pelajar itu mundur di dalam pelajaran disebabkan oleh keadaan di rumah tidak membenarkan dia membaca buku ataupun pelajar-pelajar itu tidak dapat kemudahan-kemudahan untuk belajar. Disiplin pelajar-pelajar dapat diperbaiki melalui persatuan ini. Guru-guru akan berusaha memperbaiki kelakuan pelajar-pelajar. Apabila didapati pelajar-pelajar tidak juga mengubah sikapnya maka guru-guru dapat peluang mengemukakan masaalah tersebut kepada ibubapa pelajar itu lantas tindakan akan diambil oleh ibubapa itu sendiri untuk memajukan disiplin anaknya yang secara tidak langsung akan memajukan disiplin sekolahnya pula.

Boleh dikatakan banyak sekolah di Malaysia ini terdapat pelajar-pelajar yang sengaja ponteng dan datang lambat ke sekolah. Pelajar-pelajar ini ponteng dan bergaul pula dengan orang-orang yang di keji oleh masyarakat. Apabila terjadi sesuatu keburukan ke atas pelajar-pelajar itu maka nama sekolahnya pun akan menjadi buah mulut orang tentang tak baiknya itu. Persatuan ibubapa dan guru boleh mengambil tindakan bagi mencegah berlakunya kejadian seumpama itu.

Pada setengah-setengah keadaan atau tempat persatuan ibubapa dan guru ini bukan sahaja penting bahkan wajib ditubuhkan terutama sekali di sekolah-sekolah yang mempunyai pelajar-pelajar lelaki dan perempuan bagi mencegah berlakunya perkara-perkara maksiat.

Akhir kata, Persatuan ibubapa dan guru-guru sangat penting:—

a) Untuk merapatkan perhubungan antara ibubapa dengan guru-guru supaya tindakan berguna dapat dijalankan.

b) Untuk memajukan sekolah.

c) Untuk menjaga nama baik sekolah dan disiplin pelajar-pelajar atau murid-muridnya; dan

d) Untuk mencegah dari berlakunya perkara-perkara yang boleh mengakibatkan keruntuhan akhlak pelajar-pelajar.

SHAMSUDIN SALLEH
TINGKATAN 5-E.
Pemenang Hadiah Yang Ke dua
Bagi Tingkatan 5.

PERKARA-PERKARA YANG BOLEH MEMBAWA KEBURUKAN KEPADA KAWALAN SESEBUAH SEKOLAH

Nama sesebuah sekolah sangat penting. Kalau sesuatu peristiwa buruk atau kurang sopan berlaku di sesebuah sekolah maka nama sekolah itu akan merosot. Orang ramai akan berpikir berkali-kali kalau hendak anak-anak mereka belajar di sekolah tersebut. Supaya nama baik sesebuah sekolah dapat diperkekalkan, ada beberapa perkara yang sepatutnya tidak boleh berlaku di sesebuah sekolah.

Terutama sekali, seorang guru besar di sesebuah sekolah mestilah bertanggung-jawab. Kegiatannya di sekolahnya amatlah penting kepada kawalan sekolahnya sendiri. Dia mesti mentadbirkan sekolahnya secara tegas dan keras kalaupun tidak secara kuku besi. Budak-budak yang sengaja-senjaga melanggar undang-undang sekolah itu mesti di hukum dengan berat olehnya. Dia mesti merunda sekolahnya tiap-tiap hari supaya boleh memandang sendiri dengan kedua-dua belah matanya bagaimana keadaan sebenar di sekolahnya, samada baik ataupun buruk. Dengan cara ini dia boleh menangkap seseorang budak yang telah melanggar undang-undang sekolah dengan serta-merta. Budak-budak di sekolah akan sentiasa berjaga-jaga dan tidak akan berani melakukan perkara yang buruk kerana mereka tahu di sekolah mereka ada seorang guru besar yang akan menghukum mereka dengan keras. Jadi dengan sendirinya sekolah itu akan dipenuhi oleh penuntut-penuntut atau murid-murid yang berbudibahasa dan bersopan-santun. Ini sudah tentu menjadikan kawalan sekolah itu baik dan seterusnya nama sekolah itu pun naik juga.

Akan tetapi sesebuah sekolah itu jika mempunyai seorang guru besar yang lemah, yang tidak pedulikan keadaan darjahnya, tentulah penuntut-penuntut tidak akan sunyi. penuntut-penuntut atau murid-murid di sekolah begitu, tidak akan mengikut undang-undang sekolahnya, tidak akan takut kepada guru-guru atau guru besar mereka. Apabila keadaan seperti ini berlaku, tentulah orang luar akan dapat tahu sekolah itu tidak baik kerana murid-murid di sekolah itu tidak sopan dan tidak berbudibahasa. Maka akibatnya nama sekolah itu pun akan jatuhlah.

Di sesebuah sekolah yang mempunyai guru-guru yang lemah, tidak rajin dan tidak bertanggung-jawab kepada kawalan sekolah pun boleh memberi keburukan kepada sekolah mereka. Murid-murid tidak akan menghormatkan mereka. Misalnya, bila seseorang guru yang tidak pedulikan keadaan darjahnya, tentulah penunttut-penuntut tidak akan sunyi. Dan lagi kalau ajarannya sangat membosankan, keadaan di darjah itu akan bertambah buruk. Kalau guru menghukum mereka, mereka tidak peduli kerana mereka tidak takut kepadanya. Kalau mereka kena rotan, mereka akan membalas dendam dengan melakukan perbuatan-perbuatan yang menyakitkan hati dan lebih menyusahkan guru itu. Apa yang berlaku di darjah itu, pun boleh berlaku di lain-lain darjah. Akibatnya kawalan sekolah itupun akan berada dalam keadaan yang buruk.

Di sesebuah sekolah yang ada sekumpulan guru-guru yang tegas dan keras, yang suka mengambil berat pada kawalan sekolahnya, maka keadaan di sekolah itu akan baik kerana murid-murid atau pelajar-pelajarnya tahu menghormati guru, tahu membezakan baik dengan buruk, patuh pada undang-undang dan sentiasa mengikut perintah gurunya.

Di tiap-tiap sekolah, terutama di sekolah menengah, ada Lembaga Pengawas Murid-murid. Pengawas-pengawas ini mesti bekerja bersungguh-sungguh menjaga kawalan sekolah mereka. Kalau mereka malas dan cuai, tidak bersopan dan tidak berbudi, maka murid-murid lain pun mengikut mereka kerana mereka boleh dikatakan sebagai pemimpin di sekolah mereka.

Budak-budak atau pelajar-pelajar yang menghisap ganja dan rokok pun memberi keburukan kepada kawalan sesebuah sekolah. Bila masyarakat kita yang sangat menentang orang yng menggunakan madat telah tahu sesebuah sekolah mempunyai pelajar-pelajar yang ketagih ganja atau rokok, maka sekolah tersebut akan mendapat nama yang buruk. Lain dari itu penuntut-penuntut yang menggunakan madat atau menghisap rokok itu akan mempengaruhi penuntut-penuntut lain menggunakan madat atau menghisap rokok. Jadi gulungan penuntut-penuntut yang demikian akan bertambah bilangannya. Bila seseorang pelajar menggunakan madat, ia akan berada dalam keadaan tidak sedar diri dan tidak sedar atas apa yang dilakukan olehnya. Misalnya ia boleh memecahkan perabut dengan tidak sedarkan akibatnya. Keputusannya: apa-apa perbuatan yang dilakukan oleh pelajar penagih madat ini akan memburukkan juga kawalan sesebuah sekolah.

Perkara-perkara yang saya telah sebutkan di atas tadi sedang berlaku, kalau saya tidak salah, di beberapa buah sekolah. Kalau pentadbiran di sekolah-sekolah itu tidak diubah, keadaan akan menjadi bertambah buruk dan nama sekolah akan bertambah rendah darjatnya.

LEE LAI KEONG
TINGKATAN 5-E
Pemenang Hadiah Yang Ketiga
Bagi Tingkatan 5.

PERANAN PERIBAHASA DALAM KEHIDUPAN KITA

Tiap-tiap bangsa di dalam dunia ini mempunyai peribahasa mereka sendiri. Kalau diselidiki dengan cara meluas dan mendalam akan peribahasa sesuatu bangsa itu, maka kita dapati ianya pada keseluruhannya mencerminkan cara hidup bangsa itu. Ianya selalu berkisar sekitar kebudayaan, sikap, sipat dan harapan sesuatu bangsa itu. Kebaikan, keburukan, kepincangan serta kelemahan masyarakat juga selalu disalurkan melalui peribahasa.

Sebelum kita menganalisa peranan peribahasa dalam kehidupan kita, elok kita ketahui lebih sedikit akan difinisi peribahasa. Ianya ialah rangkaian kata yang digunakan bagi menerangkan atau menyampaikan sesuatu maksud dengan secara halus atau tidak langsung. Satu peribahasa boleh ditujukan atau dimaksudkan kepada berbagai-bagai keadaan. Oleh kerana sipatnya yang tepat ianya dapat memberi erti yang mendalam.

Peribahasa sangat popular terutama sekali dikalangan orang-orang Melayu yang memang sudah terkenal dengan kehalusan bahasanya. Peribahasa Melayu boleh dibahagikan kepada beberapa cabang mengikut bentuk dan maksudnya iaitu bidalan, perpatah, perumpamaan, perbilangan dan lain-lainnya Tetapi semuanya mempunyai peranan yang sama.

Di sini, kita akan mengkaji beberapa buah peribahasa Melayu masyhur dan peranannya di dalam masyarakat kita, misalnya kita kaji peribahasa ini, "Biar mati anak jangan mati adat." Peribahasa ini sangat diagungkan pada zaman dahulu khususnya pada zaman kemasyhuran raja-raja Melayu yang sudah terkenal dengan kekukuhan adat istidatnya. Masyarakat Melayu tatkala itu sangat mementingkan adat sehingga ianya diletakkan di atas singgahsana yang tertinggi sekali dalam penghidupan mereka. Dari peribahasa ini dapatlah kita ketahui akan sikap masyarakat Melayu pada masa itu.

Selain dari untuk membayangkan sikap sesuatu bangsa itu peribahasa juga digunakan sebagai satu saluran pengajaran untuk memberi nasihat dan kesedaran kepada masyarakat. Misalnya peribahasa "Sudah terantuk baharu mengadah" yang digunakan bagi menasihatkan orang supaya berwaspada menjalankan sesuatu agar tidak keciwa. Selain dari itu ada juga peribahasa yang digunakan untuk matlamat yang sama seperti, "Berakit-rakit ke hulu berenang-renang ketepian, bersakit-sakit dahulu bersenang-senang kemudian", "Hendak seribu daya tak hendak seribu dalih." Peribahasa seperti di atas walaupun telah lama ujud namun ianya masih tetap hidup dikalangan masyarakat Melayu hari ini.

Peribahasa juga digunakan sebagai sindiran atau ejekan. Ini nyata sekali dipakai oleh masyarakat dalam kehidupan sehari-hari. Peribahasa seperti "Siapa makan cili dialah merasa pedas," "Tak tahu menari dikatakan tanah tinggi rendah," "Kacang lupakan kulit," dan sebagainya. Peribahasa tersebut sangat tepat dalam menyampaikan maksudnya. Walaupun ianya tidak disampaikan secara sungguh-sungguh tetapi ianya memberikan kesan yang mendalam. Dari peribahasa ini dapatlah diketahui akan sifat orang-orang Melayu yang tidak suka mengatakan sesuatu secara terus-terang. Mereka lebih suka memainkan bahasa supaya lembut dan sedap didengar.

Sebagai kesimpulan nyatalah peribahasa mempunyai tempat yang istimewa dan memainkan peranan penting dalam semua aspik penghidupan kita.

MASPIAR ANWAR
TINGKATAN 5-E

AKIBAT KALAU BERLAKU PEPERANGAN DUNIA YANG KETIGA

Peperangan amatlah ditakuti oleh orang. Sungguhpun jenerasi-jenerasi baharu belum pernah terlibat atau mendapat kesusahan dan penderitaan semasa peperangan tetapi mereka semua telah dapat melihat dalam panggung-panggung wayang dan dari berita-berita yang mengandungi kisah-kisah keburukan peperangan.

Dalam peperangan dunia yang pertama dan kedua dahulu, kematian dan kerugian sangatlah banyak. Misalnya, semasa peperangan dunia yang pertama hanya "gas chlorine" yang ditakuti orang tetapi semasa peperangan dunia yang kedua, pakar-pakar sains di Amerika telah mencipta sebuah tenaga yang dinamakan "atom" dan tenaga ini mempunyai kuasa yang paling dahsyat sekali. Pakar-pakar sains ini mencampur-campurkan beberapa unsur-unsur lalu dijadikan bom yang dinamakan bom atom.

Negeri yang pertama di bom dengan bom atom itu ialah negeri Jepun. Dua buah bom yang digugurkan di Hiroshima dan Nagasaki dipanggil "little boy" dan "fat man". Oleh kerana bom ini: segala pohon kayu, tumbuh-tumbuhan, binatang liar, binatang ternakan dan segala-galanya yang tadinya hidup, semuanya lenyap. Orang-orang yang tidak mati tetapi tubuhnya kemasukan sinar radio-aktif memperlihatkan bekas-bekas luka yang sangat mengerikan.

Dalam jarak 500 miter dari tempat ledakan bom atom, segala makhluk hidup menjadi mampus. Jarak 1,000 miter, kematian kerana sinar radio-aktif adalah kira-kira limapuluh peratus. Jarak 2,000 miter menyebabkan sinar radio-aktif itu menimbulkan luka di badan seperti terbakar dan kulit menggelupas. Bahkan jarak 4,000 miter atau lebih pun sinar radio-aktif itu masih boleh menyengsarakan manusia atau binatang. Walaupun si mangsa itu tidak mengalami luka apa-apa dan kelihatan hidup sihat dan segar-segar tetapi lama kelamaan ternyata ada sesuatu yang tidak biasa di dalam tubuhnya. Akhirnya si mangsa itu — manusia atau binatang — pun akan mati juga.

Negara-negara besar seperti Amerika, Russia, Cina dan Perancis baharu-baharu ini sibuk membuat alat-alat senjata peperangan. Mereka berbuat demikian kerana mereka percaya mereka tidak akan ketinggalan dibelakang sekiranya peperangan dunia yang ketiga berlaku. Senjata-senjata yang baharu-baharu ini dibuat adalah lebih dahsyat daripada senjata-senjata yang digunakan semasa peperangan yang lalu.

Ada juga negara-negara yang berkecuali seperti India, Yugoslavia, Indonesia, Malaysia, Singapura dan lain-lain lagi, tetapi pada pendapat saya negara-negara berkecuali ini juga akan mendapat kerugian kerana perdagangan mereka akan terputus atau pun termusnah. Ada sebuah peribahasa Melayu yang mengatakan bahawa negara-negara berkecuali ini akan kerugian kalau negara-negara besar berperang. Peribahasa itu berjodol begini, "Gajah sama gajah berjuang pelanduk mati di tengah-tengah".

Kalaulah negara-negara besar berperang, barang-barang yang selalu di impot seperti jentera-jentera, makanan, minyak, kainbaju dan lain-lain lagi tidak dapat diimpot lagi dan hasil keluaran negara kita juga tidak dapat diekspot. Akibatnya ekonomi negara kita akan terancam dan jatuh dan keadaan ini pula boleh mengakibatkan seluruh rakyat akan menderita.

Perjanjian-perjanjian antara bangsa seperti perjanjian Amerika dengan Vietnam Selatan atau Taiwan, Russia dengan India dan lain-lain lagi boleh menghebatkan lagi peperangan apabila negara lain diserang oleh musuh. Akibat penyokongan mereka pada negara lain itu seperti Russia dengan India, Russia pun terpaksa terlibat di dalam peperangan semasa terjadi peperangan Indo-Pakistan yang berlaku baharu-baharu ini.

Bagaimana sekalipun sesuatu peperangan itu akan tamat juga akhirnya dan selepas tamatnya peperangan itu baharulah mereka akan sedar dan terasa akan keburukan peperangan itu. Kedua-dua pihak sama-sama mendapat kerugian. Untuk membaiki atau membetulkan semula kerusakan-kerusakan itu akan memakan masa yang lama dan wang yang sangat banyak. Oleh itu terpaksalah mereka meminjam wang dari Bank Dunia atau dari lain-lain pihak yang mampu. Ini bukanlah satu sahaja keburukannya malah ada yang lain lagi seperti ada manusia yang akan cacat, buta, tempang, bopeng dan lain-lain lagi. Lanjutan dari itu ada pula berbagai-bagai penyakit dan kesulitan akan dihadapi oleh manusia atau negara yang terlib at di dalam peperangan.

Saya tidak dapat menggambarkan bagaimana dahsyatnya senjata-senjata yang akan digunakan dalam peperangan dunia ketiga itu kelak kerana senjata-senjata yang akan digunakan itu tentulah lebih dahsyat daripada bom atom. Kalau bom atom boleh meleburkan sebuah bandar seperti Hiroshima, mungkin sebiji bom yang akan datang boleh melenyapkan sebuah pulau-pulau Jepun. Dan manusia yang terkorban kerananya mungkin sepuluh kali ganda lebih banyak. Saya fikir mungkin itulah masanya dunia ini akan kiamat.

Saya berharap dan berdoa kepada Tuhan, muga-muga peperangan-peperangan dapat dielakkan. Negara-negara besar atau kecil mestilah menggunakan pengaruh atau diplomasi mereka supaya jangan berlaku peperngan dunia yang ketiga. Tiap-tiap satu langkah kemajuan sains dan teknoloji hendaklah digunakan untuk kebaikan dan kemajuan manusia di dalam semua lapangan — bukan digunakan untuk berbunuh-bunuhan antara manusia dengan manusia.

Jika ada perselisihan atau pertelingkahan antara pemimpin dengan pemimpin sesebuah negara, maka pemimpin-pemimpin itu hendaklah mendinginkan kepala masing-masing supaya dapat duduk bermesyuarat atau berunding bersama-sama untuk menyelesaikan pertelingkahan itu dan bukanlah dengan berperang untuk mencari sesuatu keputusan.

JAGAN PERSATH
TINGKATAN 5-E.

KEBUDAYAAN BARAT TELAH MEMPENGARUHI KEBUDAYYAN KITA

Bila kita memandang kepada corak masyarakat kita pada masa sekarang, kita dapati kebudayaan kita telah dipengaruhi oleh kebudayaan barat. Hal ini boleh disaksikan dengan sejelas-jelasnya.

Tiap-tiap hari kita dapat melihat anak-anak gadis bangsa kita berpakaian mini. Ini dilakukan mungkin dengan tujuan menarik perhatian orang ramai. Kebanyakan mereka itu tidak gemarkan lagi berpakaian kebangsaan masing-masing, sebabnya mereka lebih suka memakai pakaian-pakaian yang lazimnya dipakai oleh orang-orang barat. Setengah-setengah orang timur lebih suka bercakap dalam bahasa barat atau bahasa Inggeris hingga tidak suka bercakap dalam bahasa mereka masing-masing. Ada juga orang-orang yang tidak tahu bertutur dalam bahasa mereka sendiri. Ini sangat menghairankan dan telah menjelaskan betapa teguhnya kebudayaan barat telah mempengaruhi kebudayaan kita.

Pemuda pemudi kita pada hari ini lebih gemar mendengar muzik-muzik dan lagu-lagu barat dan sangat berminat menuntun wayang gambar barat. Lagu-lagu dan tarian-tarian kita yang asli makin lama makin luput. Kebanyakan pemuda pemudi sekarang ini lebih gemar menari dan menyaksikan tarian-tarian barat seperti tarian-tarian rock, waltz, twist dan sebagainya. Tarian-tarian asli seperti tarian joget, boria dan lain-lain lagi di anggap oleh pemuda pemudi kita sebagai sudah lama ketinggalan zaman. Pada halnya, kebudayaan timur melarang melakukan perbuatan-perbuatan seperti contoh-contoh yang disebutkan di atas tadi.

Sungguhpun demikian orang-orang kita bersikap membiarkan sahaja kebudayaan kita — tidak hiraukan langsung. Apabila mereka telah terpengaruh oleh kebudayaan barat mereka pun menirunya dan melakukan pula perbuatan-perbuatan yang tertentangan dengan kehendak-kehendak kebudayaan mereka. Perkara ini sangat kita kesalkan. Orang-orang kita selalu bertindak secara melulu — tanpa berfikir panjang tentang buruk baiknya. Sepatutnya kita mesti bertanya, "Mengapa kita mesti mengikut atau mengamalkan kebudayaan barat dan meninggalkan kebudayaan kita." Sebenarnya kebudayaan kita penuh dengan tatatertib, kesopanan dan tidak kurang baiknya dari kebudayaan barat.

Hal ini harus kita sedari bersama-sama dan kita mesti bangunkan kembali kebudayaan kita dan mengamalkannya dengan sepenuh keyakinan. Kebudayaan adalah lambang sesuatu bangsa. Hilang kebudayaan luputlah bangsa. Oleh yang demikian janganlah kita amalkan sangat-sangat kebudayaan barat dengan meninggalkan sahaja kebudayaan kita. Marilah kita memperbaharui tenaga, fikiran dan azam kita supaya dapat dikembalikan kebudayaan kita pada tempat yang sewajarnya.

S. CHANDRAN
TINGKATAN 5-E.

PENGANGKUTAN DI MALAYSIA BARAT

Pengangkutan menjadi cara yang paling mudah sekali kepada manusia yang hendak pergi dari satu tempat ke satu tempat yang lain. Pengangkutan di Malaysia Barat pada masa ini telah banyak berkembang dan telah bertambah moden. Kenderaan-kenderaan pengangkutan kebanyakannya di impot dari negeri-negeri luar seperti Britain, Amerika Syarikat, Jepun, German, Sweden, Itali dan Perancis. Pengangkutan itu adalah berlainan jenis, rupa dan warnanya. Jenis pangangkutan di Malaysia Barat ialah motokar, basikal, teksi, bas, lori, keretapi, kapal laut, kapalterbang dan lain-lain lagi.

Di Malaysia Barat ada kira-kira sepuluh juta penduduk-penduduk. Mereka ini bergantung kepada pengangkutan samaada mahal ataupun murah, untuk membawa mereka atau barang-barang merek dari sebuah tempat ke sebuah tempat yang lain.

Beca menjadi satu jenis kenderaan pengangkutan yang bayarannya murah sahaja Beca-beca boleh di dapati di pasar-pasar dan pesta-pesta kecil. Oleh kerana bayarannya murah, suri-suri rumah tangga suka menaikinya. Beca selalu digunakan oleh orang-orang yang miskin atau orang-orang yang rendah pendapatannya. Ada juga orang menaiki beca untuk tujuan makan angin sahaja. Pelancung-pelancung yang melancung ke negeri ini dari luar negeri terutama sekali mengambil peluang ini untuk melihat tempat-tempat dengan lebih dekat lagi.

Basikal ialah satu jenis pengangkutan yang biasanya digunakan oleh orang-orang luar bandar dan dalam bandar juga terutama sekali oleh kaum buruh untuk mereka pergi ke sawah-sawah, ke ladang-ladang getah, kelapa atau kelapa sawit dan lain-lain lagi. Oleh kerana harga sebuah basikal tidak sebegitu mahal dan ia boleh tahan lama, ramailah orang-orang yang suka membelinya. Walaupun di bandar pengangkutan telah maju dan moden tetapi masih ramai penduduk-penduduk bandar yang suka menaiki basikal berulang-alik pergi bekerja di kilang-kilang, di kedai-kedai, di gedung, di pejabat dan lain-lain.

Ramai penduduk-penduduk di Malaysia Barat mempunyai motokar. Sebahagian besar daripada orang-orang di bandar-bandar besar memiliki motokar. Mereka menggunakan motokar untuk pergi ke pejabat, ke kedai-kedai, ke pasar, membuat perniagaan, membawa barang-barang, melawat kawan-kawan mereka atau untuk mengembara keluar negeri. Kereta-kereta itu bukan sahaja mudah dipandu tetapi juga tempat di dalamnya luas. Teksi, tidak kira apa jenis keretanya, akan membawa kita ke tempat-tempat yang di ingini tetapi untuk menaiki teksi, seseorang itu terpaksalah membayar tambangnya.

Lori menjadi sejenis pengangkutan yang penting sekali kepada seseorang yang berurusan penting dengan atau daripada pembeli-pembelinya. Lori boleh digunakan untuk membawa barang-barang perniagaan ke kedai-kedai atau ke pasar-pasar luar bandar atau pun ke pelbuhan-pelabuhan untuk di ekspot ke negeri-negeri luar. Ia juga digunakan untuk membawa ikan-ikan dari pantai timur, sayuran-sayuran dari merata-rata tempat ke pasar ataupun membawa barang-barang makanan seperti baras, tepung, gula, susu dan lain-lain ke pekan-pekan kecil, ke kedai-kedai atau ke lain-lain tempat. Kenderaan yang satu lagi jenisnya ialah gerabak. Ia digunakan untuk di muat dengan barang-barang berat dan biasanya ditarik oleh jentera keretapi.

Bas ialah sejenis pengangkutan yang murah yang digunakan oleh penduduk-penduduk di Malaysia Barat. Bas senang menggunakannya. Tempat di dalamnya pun luas dan ramai orang yang boleh di bawa olehnya dalam satu perjalanan. Untuk menyenangkan lagi penduduk-penduduk negeri ini, kerajaan telah membina beberapa buah perhentian-perhentian bas dan stesyen-stesyen bas di merata-rata tempat. Tambang bas pun lebih murah daripada tambang teksi.

Keretapi adalah satu jenis lagi pengangkutan di darat yang lebih besar, lebih cepat dan lebih selesa. Tambangnya pun tidak begitu mahal dan sekarang ini kemudahan-kemudahan keretapi telah diperluaskan ke tempat-tempat yang pada mulanya dahulu tidak mempunyai perkhidmatan keretapi. Untuk membawa lebih banyak lagi penumpang-penumpang, gerabak-gerabak penumpang ditambah dan disambung pada gerabak-gerabak yang lain itu.

Selain daripada negeri-negeri di dunia ini terpisah satu sama lain oleh banjaran-banjaran gunung, ia juga terpisah oleh laut atau lautan yang luas. Untuk perhubungan antara satu negeri dengan negeri yang lain, kapal laut telah digunakan terutama membawa barang-barang. Di negara kita pada masa ini tidak ramai orang yang menggunakannya sebab perjalanannya sangat lambat. Dahulu kapal laut digunakan oleh orang ramai sebab bayarannya murah dan sebab tidak ada lain kenderaan pengangkutan yang lebih laju daripadanya. Sampan-sampan, motobot-motobot dan lain-lain kapal kecil digunakan oleh nelayan-nelayan yang menangkap ikan di laut.

Akhir sekali disebutkan pula tentang kapal terbang. Kapal terbang telah menjadi sistem pengangkutan yang paling cepat sekali di Malaysia Barat, tetapi tambangnya sangat mahal. Ia sungguh selesa. Sekarang ada sistem-sistem penerbangan yang memberi faedah kepada orang ramai untuk pergi ke bandar-bandar besar sahaja. Kapal terbang selalu digunakan oleh pelancung-pelancung, peniaga-peniaga dalam urusan penting keluar negeri dan juga orang ramai.

Semua jenis pengangkutan yang tersebut di atas tadi itu telah meninggikan lagi taraf meninggikan lagi taraf hidup penduduk-penduduk di Malaysia Barat. Pengangkutan juga telah memainkan peranan penting dalam bidang pelancungan di negeri ini dengan memberi kemudahan-kemudahan pengangkutan kepada pelancung-pelancung luar negeri yang datang melancung ke negeri ini. Dengan tidak adanya pengangkutan tentulah orang ramai akan susah pergi dari satu tempat ke satu tempat yang lain dan pelancung-pelancung tidak akan datang ke negeri ini, peniaga-peniaga akan rugi teruk dan pekerja-pekerja akan beroleh kesusahan pergi ke tempat kerja masing-masing. Semua orang perlukan pengangkutan

dan pada pendapat saya: pengangkutan di Malaysia Barat akan bertambah berkembang dan lebih maju dan pada tahun-tahun akan datang, orang-orang di negeri ini akan mula membuat kenderaannya sendiri tanpa bergantung kepada negeri lain mengekspot barang mereka ke negara kita ini.

A. JEYASEELAN,

TEMAN

Bila budi tergadai sudah
walau pun ia setitik cuma
pohon akan luruh daunnya
salji beku akan cair jua
lantas menyembah bumi nan rata.

Tapi kawan,
jiwa manusia apalah lambang
antara dua persimpangan —
bagi menetukan satu tujuan
di hati dua insan.

Setia berkawan
aku dan kau teman
deras manuju jalan nan satu
pada puncak yang sedia menunggu,
bagi menentukan —
derita dan kebahagiaan.

Kita sama sahaluan
sama akur, tegoh meluru laju
lupakan segala rintangan
yakin dan tabah hati
untuk kejayaan pasti jadi.

TINGKATAN LIMA SAINS.

KELAM KEMBALI TERANG

Hari itu
Aku hampir-hampir keciwa
Kabus begitu pekat
Pandangan ku gelap
Sepi .....
Sayu .....
Ku kira .....

Dunia tak seindah
dulu lagi
Bahagia tak mungkin
menjelma lagi
Aku pasti mati
di dalam kelam
ditelan kabus hitam pekat

Tiba tiba .....
Pandangan ku cerah
Kabus hilang ditelan.....
sinaran matahari
Aku rasa gembira hingga.....
Tak sedar mutiara
bergolak dari kelopak mata
Sinaran bahagia
memacar semula.

TINGKATAN LIMA SAINS.

BOARD OF PREFECTS

STANDING (FROM LEFT TO RIGHT): Wong Kai Cheong, Theang Kok Keng, Ravi Nayar, Tan Leong Seng, Ajit Singh, Loganathan, M. Kumar, Ridzwan Ahmad, Fong Kek Hin, Rajandran, George Ho Kim Wan, Chiong Chee Kin, Soo Kim Yew, Tan Kim Hong.

SEATED (FROM LEFT TO RIGHT): Somasundiam, Amrik Singh, Kay Yew Kiang, Teh Sar Moh Nee, Ong Say Kee, Mr. Zachariah, Lee Lai Keong, Mr. Kwong Sea Khoon (*Principal*), Wong Hin Weng, Chandra, Lee Seng Chee, Philip Lee.

This year the prefects board consisted of 25 prefects, 10 being seniors while the rest were juniors. The junior member of the board were officially installed on the 2nd of March, 1973 by the Chairman of the Board of Governors, Mr. Chan Wing Chui. Prior to this, the School Captain and his Assistant were appointed by the Principal, while the Secretary and Treasurer were elected by the Board.

Under the guidance of our Advisor, Mr. K. G. Zachkariah, and also of the captain, members of the board endeavoured to carry out their duties in the best possible way. Our duties were mainly concerned with maintaining and promoting better discipline and relationship amongst our fellow schoolmates. To maintain discipline prefects were assigned various duties in the morning, recess, after school (dismissal duty) and also in the afternoon. In the afternoon the prefects on duty helped the teachers in maintaining the general discipline of boys who came for games, club meetings and so on. At the same time they also checked on the attire worn by those involved. When caught with unsuitable uniform which did not comply with the school rulings, they were normally given a warning on the first offence and subsequently sent to detention classes if the offence was repeated.

Meetings were held when the situation arose, but this was more or less on an average, after the space of a fortnight. On a number of occasions 'emergency' meetings were also held, and these were to discuss problems and difficulties encountered during the course of their duties. Matters brought up were discussed among the members of the board.

With the education ministry's hair style ruling, regular surprise checks were conducted to weed out students who, in defiance of this rule, 'cultivated' hair of an undesirable length. They were given an ultimatum, that is, to cut it following the requirements of the ministry or face the prospect of being sent home.

During the course of the year, our board was invited on numerous occasions to social gatherings, sports and other functions held by neighbouring schools. Our own traditional combined social was unfortunately cancelled, this year. However, a buffet was held instead. For the buffet, our board invited a special guest, no other than the singer-composer Mr. Alfred Ho. He without doubt contributed to the success of the function.

I hope that the incoming Prefects Board will follow our footsteps to serve the school to the best of its abilities and perhaps improve on what we have done.

All the service that we have done during these two years would not have been possible had it not been for the co-operation of our Advisor. To him we express our sincere thanks.

BY
WONG HIN WENG.

BOARD OF STUDENT LIBRARIANS

BACK ROW STANDING (FROM LEFT TO RIGHT): Teo Wee Chee, Parames, Cheong Hoo Eng, Tan Chuan Huat, Guneratnam, Jeyakumar, Subramaniam, Gerad Anthony, Baharin bin Zakaria, Yap Poh Lim, Foo Se Hee, Teh Ah Bee.

MIDDLE ROW STANDING (FROM LEFT TO RIGHT): Lim Jew Liang, Dennis Frankin, Lee Yoon Sin, Chua Gong Hua, Ang Siong Min, Cheong Mun Tuck, Thinakaran, Goh Loy Choon.

SITTING (FROM LEFT TO RIGHT): Loh Kim Heng, Law Kam Wah, Yap Oi Huat, Yap Chin Kok, Wong Keng Seng, Phoon Khai Choong, Mr. James Amoz, Yong Fun Men, Long Poh Sum, Samuel Joshua, Wesley K. Paul, Halim, Ng Wai Cheong.

Membership : 38.

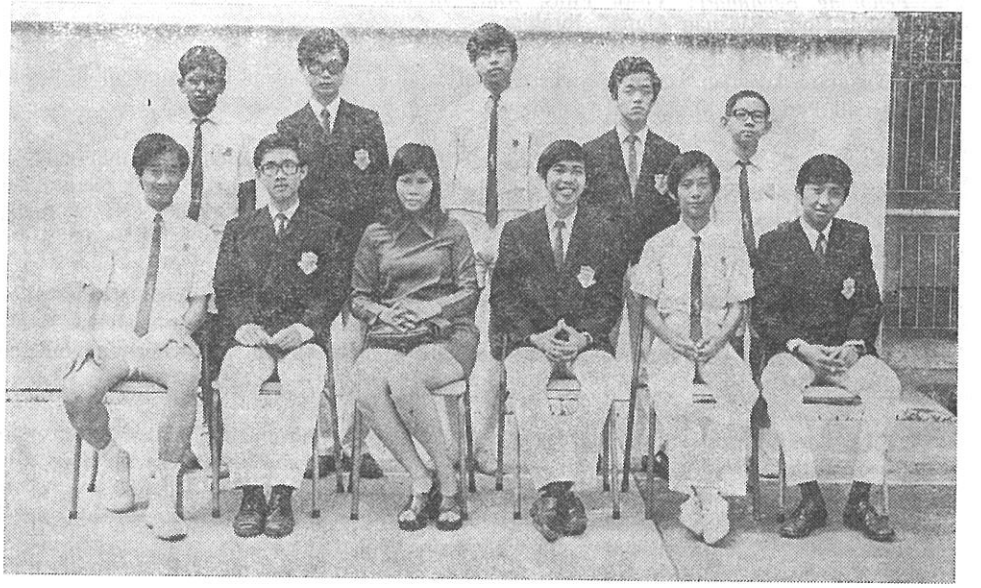

The library aims to stimulate interest in reading and to cater for research by expanding the collection of books. We were fortunate to be able to purchase 600 new books worth $2,000 most of which are reference books. We are grateful also for the contribution of about 250 used books from the Interact Club.

In answer to popular demand, the library was opened during the Second Term holidays to enable students to prepare for their examinations.

The library board would like to thank the master-in-charge, the principal, teachers and students for their cooperation. Special credit must also be given to the librarians, without whom our library would not have functioned as efficiently as it has this year.

PHOON KHAI CHOONG,
HON. SECRETARY.

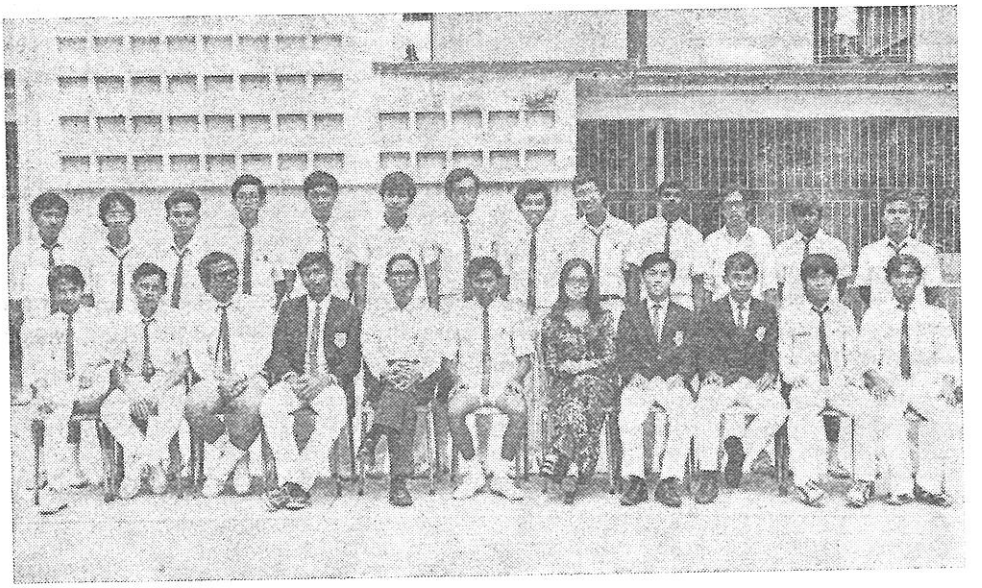

PHILATELIC CLUB

STANDING (LEFT TO RIGHT): Viji, Jeffrey Chiong, Chu Chin Leong, Thomas Theang, David.

SEATED (LEFT TO RIGHT): Yap Peng Yew, Woo Kok Wai, Mrs. Chan S. H. (*Advisor*), Lee Seng Chee, Low Kon Leong, Patrick Soo.

SENIOR PERSATUAN BAHASA MALAYSIA

SEATED (FROM LEFT TO RIGHT): Hanafiah bin Baharum, Yusof Pilus, Juanim Jaffri, S. Chandra, Encik Satari (*Penasihat*), Baharin bin Zakaria, Puan Normah (*Penasihat*), Kay Yew Kiang, Ridzuan bin Ahmad, Abdul Murad Buyong, Samsudin Salleh.

STANDING (FROM LEFT TO RIGHT): Zaharizin, Ibrahim, Abdul Rahman, Zuklifli Ali, Shaiful Ahmad, Arshad bin Manaf, Hamdan bin Sukran, Abdul Halim, Norhadi Hashim, Moorthy Chelliah, Mohd. Noor, N. Selvaraju, Kamariddin Ismail.

Yang Di-Pertua: Baharin Zakaria, *Naib Yang Di-Pertua*: Abdul Murad, *Setia Usaha*: Juanim Jaffri, *Penolong Setia Usaha*: S. Chandra, *Bendahari*: Kay Yew Kiang, *Penolong Bendahari*: Yusof Pilus, *Ahli2 Jawatan*: Kamaruddin Ismail, *Kuasa*: Mohd. Noor, Ridzuan Ahmad, Ibrahim.

Diantara kegiatan kegiatan yang dicapai ialah; Mengadakan lawatan sambil belajar Keuniversiti Pertanian MALAYSIA, Serdang.

Pada 24hb. Mei, 1973, persatuan ini telah mengadakan pertandingan Bahath dengan Sekolah Menengah Perempuan Jalan Ipoh atas tajok. "Pengaroh baru barat merosakkan masyarakat malaysia." Sabagai pihak pembangkang, pasukan kita telah berjaya mengalahkan pasokan lawan.

Persatuan ini telah berjaya mengadakan pementasan derama "Hang Jebat Menderhaka." Pada hari penyampaian hadiah pada 19hb. Julai, 1973. Kami semua merasa bangga kerana mendapat guru-guru penasihat yang aktif dan sanggup meluangkan masa membimbing dan menasihati ahli-ahlinya.

Akhir sekali izinkan lah saya mengucapkan terima kasih saya kapada guru guru penasihat, Pengetuanya dan ahli-ahli persatuan ini keselurohannya atas kerja sama yang diberikan sahingga persatuan ini dapat bergerak dengan lancarnya. Diharap juga pada tahun-tahun akan datang, ahli-ahli barunya akan terus memegang perinsip bersatu Tegoh Bercerai Roboh. Agar kejayaannya pada tahun ini tidak ternoda.

Sekian terima kasih.

JOHANIM JAFFRIE,
SETIAUSAHA PBMSMLS.

SITTING (FROM LEFT TO RIGHT): Tan Tiang Hock, Soo Kim Yan, Puan Hanumah, Cik Normah, Kamarulzaman, Ho Kim Yen.

CAREERS AND GUIDANCE CLUB

The membership to this club is opened to all pupils of this school. The aim of the club is to give the pupils an insight into the future, and give guidance on how to decide on their career. We started off by displaying career charts on the Principal's notice board and also the Reading Room of the Library.

The club also took part in interviewing personnel from the Malayan Railways. This was organised by the Selangor Education Department.

The club also invited speakers who could contribute by giving talks on careers. Mr. Mani and Mr. Nair from the Cyma College of Commerce gave a talk on opportunities in the field of commerce. We are also trying to get personnel from the Armed Forces to give speeches during the Third Term.

Finally, on behalf of the committee members of the club I would like to thank Mr. Ibrahim, Mr. William David and Mr. Amoz for their invaluable help without which the club would never have been able to go on. I sincerely hope our incoming members will keep this torch alight and pass it on to their worthy successors.

ANTHONY FERNANDEZ,
HON. SECRETARY.

SENIOR LITERARY AND DEBATING SOCIETY

STANDING (FROM LEFT TO RIGHT): Andykana, Christopher, Dennis, Logasubran, Ajeet Singh, Kalaiselvam, Thurairajaloo, Yap Chin Kok.

SEATED (FROM LEFT TO RIGHT): Kumar, Ravi G. Nayar (*Hon. Secretary*), Mrs. Chan Kok Eng, Mrs. Tang Kim Siw, Mrs. Koay Meng Chye, Amrick Sandhu Singh (*President*), Rajandran (*Hon. Treasurer*).

Membership : 42.

1973 was an eventful year for our society. First of all we had a hamper sale to raise funds for our projects. Mr. Ibrahim of the afternoon staff won the hamper. At the impromptu elocution contest many pupils performed very well, but Harwinder (1st), Gunaretnam (2nd) and Amrik Singh (3rd) were judged the best speakers. On the last day of first term we organised a variety show consisting of a medley of songs and sketches.

The second term was a very busy term. There was good response to the essay, poem and short story writing competition.

Essay prize winners were:—

D. Arikrishnan — (1st).

Loke Wing Fee — (2nd).

Short story prize winners were:—

R. Gunaratnam — (1st).

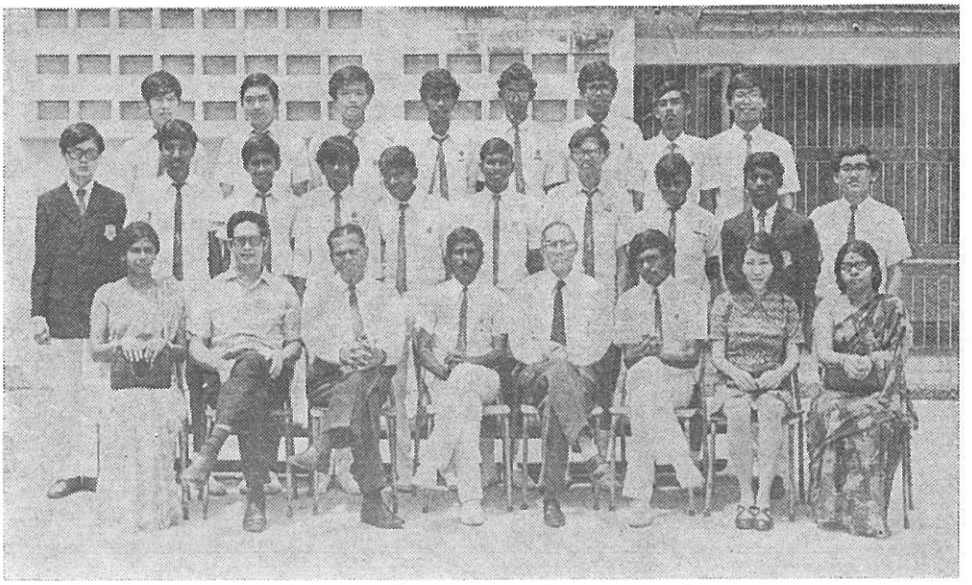

Yap Chin Kok — (2nd).

Another variety show was organised for the afternoon session boys on Teachers' Day.

The climax of our activities was the speech day concert entitled "Cultural Night". The snow featured a classical Malay drama "Hang Jebat Derhaka", produced by Persatuan Bahasa Kebangsaan and backed by splendid props constructed by Mr. Chong Wan and The Art Club. Malay and Maori dances, a cultural excerpt showing a Red Indian pow-wow, songs and musical items of a high standard. The next day we were thrilled to read the report of the concert published in the Malay Mail.

RAVI NAYAR,
SECRETARY.

THE SCIENCE AND MATHS SOCIETY

SITTING (FROM LEFT TO RIGHT): Miss Pathma Naganather, Mr. Lee Hun Yen, Mr. Zakariah (*Adviser*), Jayaraj (*President*), Mr. Kwong Sea Khoon (*Principal*), Balasingam (*Secretary*), Miss Yap and Mrs. Nayar.

STANDING (MIDDLE ROW): Chiong Chee Kin, Silvaraj (*Treasurer*), Francis, Dennis, Logasubran, Selvaraj, Ang Siong Ming, Selvaraju, Rajendran, Tan Soon Leong (*Vice-President*).

STANDING (BACK ROW): Tan Yik Tau, Tan Teng Siong, Cheong Kwong Mun, M. Subramaniam, Jeyakumar, Devandran, Muralee and Yap Ooi Huat.

Aim : Instilling and promoting an interest in Science and Mathematics.

Activities : Meetings were held once every fortnight, on Thursdays.

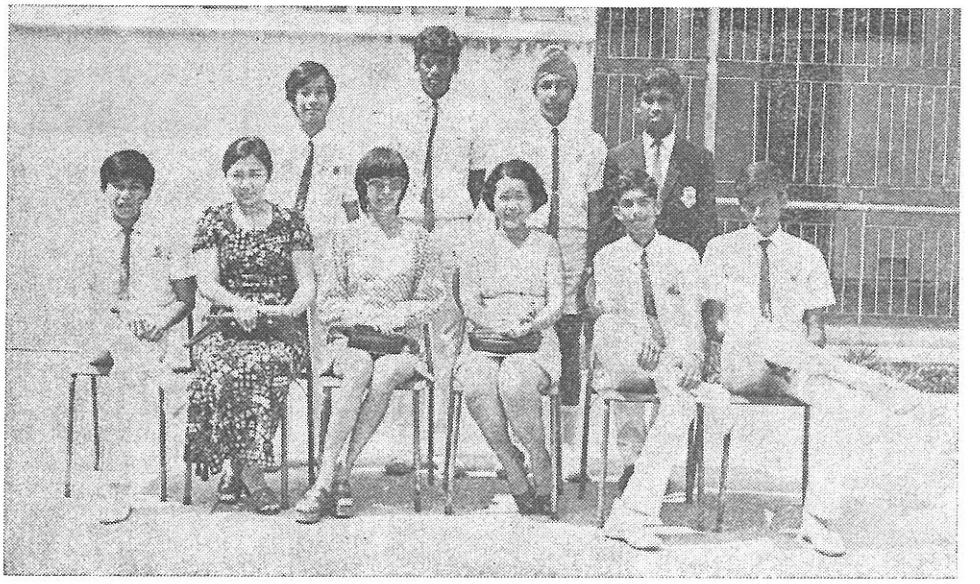

We spent some time-improving and decorating our school garden.

We used some of the flower pots to decorate the school on certain school functions.

During the 2nd term we heard interesting and educational talks by our advisors, Mr. Lee Hung Yen, Mr. Lee Yong Chee and Mr. Lau Ban Eng. The inter-house quiz occupied nearly the whole of the second term. Red House emerged Champions.

BALASINGAM,
HON. SECRETARY.

SENIOR HISTORICAL AND GEOGRAPHICAL SOCIETY

SITTING (LEFT TO RIGHT): Yap Chin Kok, Mrs. Koay Meng Chye, Mrs. D. Liew, Mrs. L. Bavananda, Jagan Persath, S. Kumar Sooriar.

STANDING (LEFT TO RIGHT): Low Kok Leong, Anthony Francis, Tharam Singh, Rajendran.

The office-bearers were elected at our annual general meeting during the early part of the year. At the next meeting our constitution and programme for the year 1973 was drafted by the committee.

The main aim of the society was to widen the interest of students in history and geography. Various projects for example talks on topics of geographical interest and quizzes were carried out successfully. In the interform Historical and Geographical quiz organised by our society Form 5 Arts 1 emerged as the champions and Form 5 Science 1 as runner-up. Last year our school emerged as the winner in the Bastin Shield Historical quiz organised by the University of Malaya. The shield was brought back again this year. Our School was represented by Surinder Singh, Yap Chin Kok, Selvarajah and Rajendran.

Our school was also invited to take part in the Hamzah Sendut Shield organised by the Malayan University. This is to take place during the third term. We hope to regain the shield which we lost to M.G.S. by one point in 1971.

I would like to convey my thanks to our advisers for their sustained interest in the society and for their valuable advice.

S. KUMARASOORIAR,
HON. SECRETARY.

BASTIN SHIELD WINNERS

The Malay Mail, Tuesday, August 14, 1973

Win No 2 to prove it was no fluke

KUALA LUMPUR, Tues. — The Methodist Boys' Secondary School, Sentul, have won the Bastin Shield for the second year.

The shield was won at the annual inter-school historical quiz competition organised by the University of Malaya's Historical Society.

Picture shows proud headmaster Mr. Kwong Sea Khoon with the successful team.

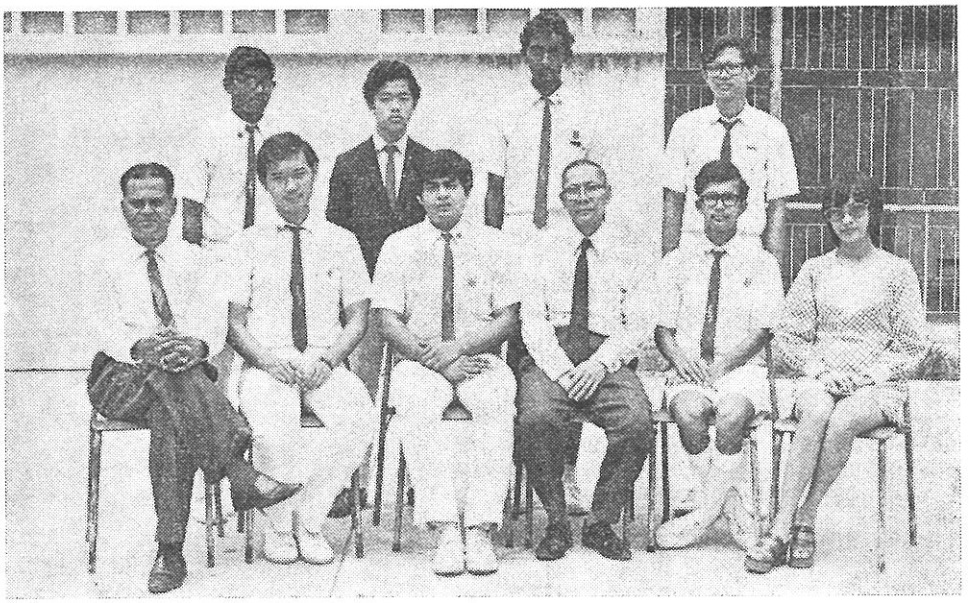

The team, from left, are M. Rajendran, Sarinder Singh, A. Selvarajah (hidden) and the leader, Yap Chin Kok.

The team beat four schools in the finals held last Saturday.

"We wanted to do it to prove that our school did not win by fluke last year," said Chin Kok.

They put in a lot of hard work to achieve that goal and were given moral support by their history teachers — Mrs. Robin Goh and Mrs. L. Bavanandan.

INTERACT CLUB

SEATED (LEFT TO RIGHT): Mr. Zackariah, Chan Koon Fatt, Surinder Singh, Mr. Kwong Sea Khoon, Christopher D'Rozario, Mrs. Doreen Liew.

STANDING (LEFT TO RIGHT): Ganesh Kumar, Theang Kok Keng, Jeyakumar, Richard Ang Siong Min.

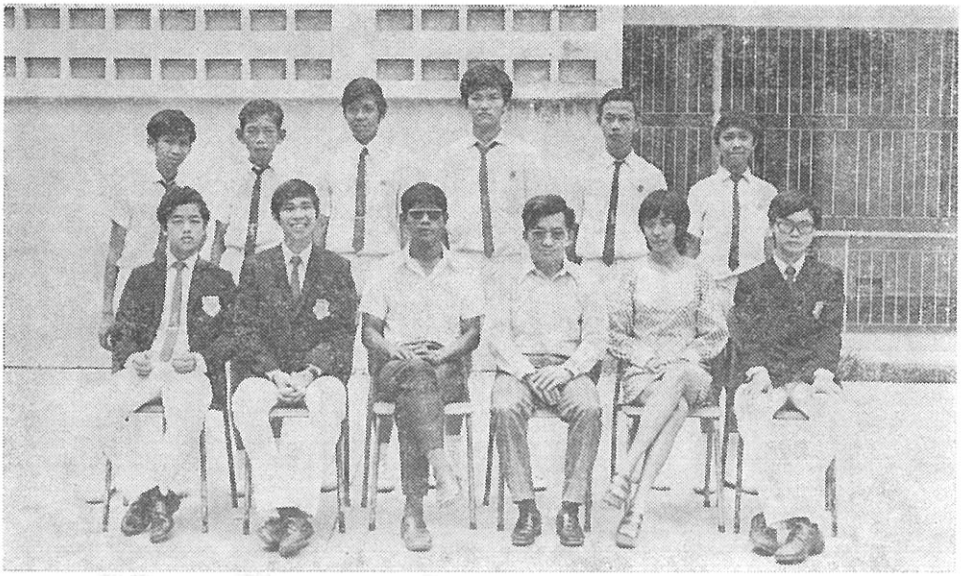

1973 marks the first year of our existence in this school. Our first Board of Directors was inaugurated on the 7th of March and four months later, the official Installation Ceremony took place. During this ceremony, our club was presented with the Interact Charter.

To raise funds to finance our many activities, we sold fruits on the day of the Annual X — country race and collected $150/- from our sale of old newspaper. A 7-man delegation attended the Annual Interact Conference held on the 21st of March at the Sekolah Alam Shah, Kuala Lumpur. The President was given the honour of chairing the Conference, thus bringing prestige to both the club and the school. Two hundred and fifty books were presented to the school library as a service of the club to the school. Towards the end of the 3rd term, we had another fund raising project which brought in $236/-. Immediately after this an International Understanding project was held. As forms of service, we sold flags and book marks for charitable organisation like the National Heroes' Fund, Malaysian Association for the Blind and the Retarded Children's Association of Selangor.

Although still new, the Club had scored considerably well in all its undertakings and credit must be given to the indispensible efforts of our advisors and members.

CHAN KOON FATT,
HON. SECRETARY.

THE AQUARISTS' CLUB

STANDING (FROM LEFT TO RIGHT): Wong Peng Kueh, Low Koh Bee, Wong Pow Lai, Tan Eng Tor, Wong Peng Kee, Wong Loke Yee.

SITTING (FROM LEFT TO RIGHT): Thomas K. K. Theang, Richard Lee (*President*), Mr. Andrew James, Mr. Tan Teong Chuan, Mrs. Doreen Liew, Jefferey Chiong (*Secretary*).

ABSENT: Yam Kien Wah (*Treasurer*).

Although the national interest in the aquarium hobby is at a very low ebb at the moment, our club manages to survive with a creditable membership of 81 for this year. Though not as active as before, we still hold our regular 'fish shop' every Friday after school. This is to enable our members to obtain fishes and accessories at a very economical rate as well as to help them to dispose of their excess fish.

We did not stage a fish show this year for fear of incurring too great a financial loss. However, we organised a fishing competition during the Second Term. The response was good. About 30 anglers from our school turned up at a pool near Jalan Ipoh. They tried their luck with their rods and lines from 7.30 a.m. till 11.00 a.m. Mr. Liew Wai Lin was the judge at the weighing-in.

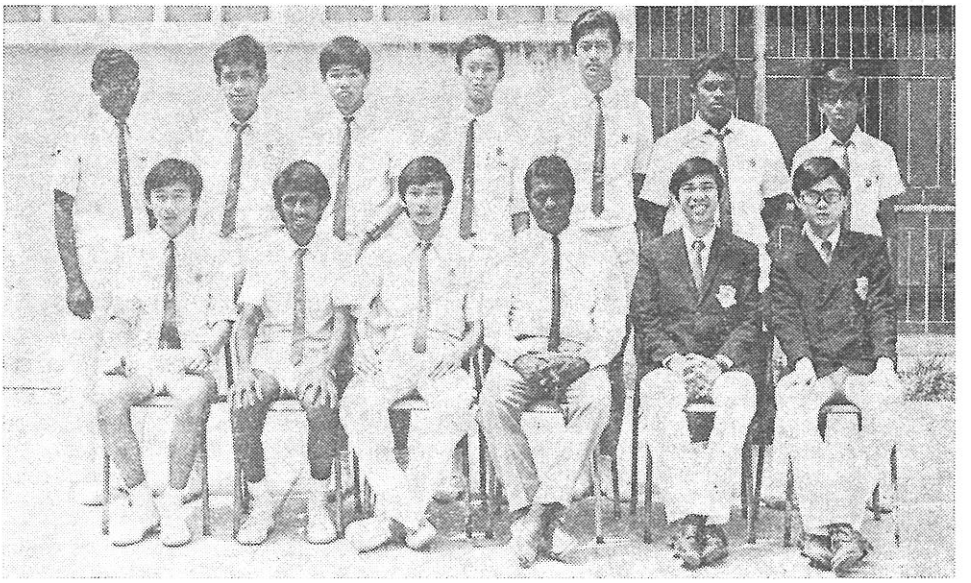

Results of the Competition:—

Heaviest Single Catch.	*Heaviest Total Catch.*
1st. Teh Ah Bee Form 5-B	1st. Teh Ah Bee Form 5-B
2nd. Koh Hock Guan Form 1-B	2nd. Tan Kim Hong Form 5-C
3rd. Tan Kim Hong Form 5-C	3rd. Fong Chee Wah Form 5-E

At the close of the year we intend to organise an excursion to the National Aquarium for our members.

CHIONG CHEE KIN,
SECRETARY.

PHOTOGRAPHIC SOCIETY

STANDING (LEFT TO RIGHT): Ganesh Kumar, Chew Chee Beng, Ng Kian Chong, Wong Koh Mun, Soh Chin Yin, Subramanium, Balakrishnan.

SITTING (LEFT TO RIGHT): Fong Kong Hin, Umapathy, Say Geek Nia, Mr. Thevarajah (*Adviser*), Lee Seng Chee, Chiong Chee Kin.

ABSENT: Abraham.

The society started rather late this year but with the help of our advisers we managed to carry out the activities of the society for the year.

The new members were taught how to handle a camera as well as how to print photographs.

We would like to take this opportunity to thank our adviser Mr. Thevarajah for his assistance and guidance.

UMAPATHY & LEE SENG CHEE,
SECRETARY & TREASURER.

AERO — MODELLING CLUB

STANDING (LEFT TO RIGHT): Chandra, Yap Peng Yew (*Treasurer*), Philip Varghese (*Secretary*), Teh Ah Bee (*President*), Mr. Andrew James (*Adviser*).

SQUATTING (LEFT TO RIGHT): Shamsuddin bin Mohd. Thani, Johnson Fernandez, Jeyamogan, Tan Chuan Huat, Teh Onn Seng, Bushwantrao, Tok Joo How.

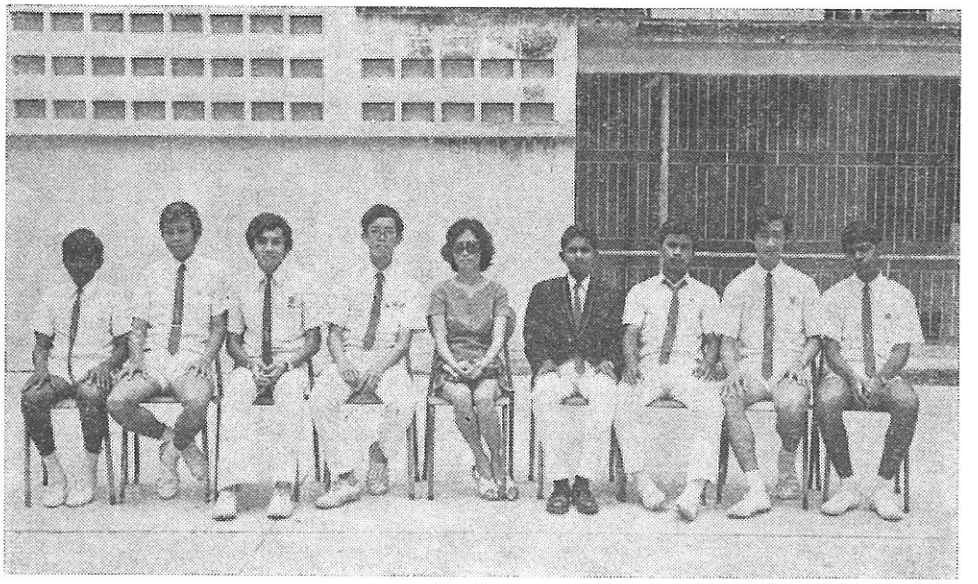

Membership : The year 1973 began with the recruitment of members from Form 3, thrilling display which left the crowd breathless.

Activities : On Mondays we repair broken planes and on Fridays we hold our flying sessions. All the members now know how to fly model planes. On sports day we put on a thrilling display which left the crowd breatless.

We are grateful to our advisers Mr. Andrew James and Mr. Chong Wan for their kind assistance.

PHILIP VARGHESE,
HON. SECRETARY.

ART CLUB

(LEFT TO RIGHT): R. Rajenthran, Wong Pow Lai, Abdul Halim, Zulkifli Mohd. Ali (*Chairman*), Mrs. Soong Mun Wai (*Adviser*), V. Somasundram (*Secretary*), Kamaruddin Ismail, Yap Peng Yew (*Treasurer*), D. Thanaselvam.

Adviser	Mrs. Soong Mun Wai
Chairman	Zulkifli Mohd. Ali
Secretary	V. Somasundram
Asst. Secretary	Abdul Halim
Treasurer	Yap Peng Yew
Form 5 Representative	Kanaruddin Ismail
Form 4 Representative	Wong Pow Lai
Form 3 Representative	Thanaselvam, D.

This year's membership was open to only the Senior Forms. We have 30 members and the membership fee is $2/-. Our main aim is to promote interest of those who are good in art.

This year, our activities were limited, for we have no Art Room. However, we managed to carry out some of our activities.

Our Club took a very active part in the Stage Decorations for the Prize - Giving Day. We are also planning to visit the National Art Gallery during the 3rd term.

Finally, on behalf of the members of the Art Club, I would like to thank every member and our Adviser, Mrs. Soong, for their tireless efforts in the successful running of the Club.

V. SOMASUNDRAM,
HON. SECRETARY.

TAE–KWON–DO CLUB

The TAE–KWON–DO CLUB of our school was organised by the Boys Brigade in 1972. We have 26 members. No enrolment fee is charged but there is a training fee as well as a membership fee. This club has outstanding instructors who are highly qualified in Tae-Kwon-Do and have more than 10 years of experience. The chief instructor is Mr. Eldon Thian (a second dan and black belt holder since 1967) and he is assisted by the senior members of the club.

The major purpose of establishing this club is to seek friendship. All members have to take an oath. The oaths are as follows:—

1. We, as members, train our spirit and physique under strict knighthood.
2. We, as members, united in mutual friendship.
3. We, as members, will comply with Regulations and obey our Instructor.

The tenets of TAE–KWON–DO is to achieve:—

1. Etiquette.
2. Modesty.
3. Preserverance.
4. Self-Control.
5. Indomitable Spirit.

The training sessions are held twice a week, that is, on Saturdays and Sundays at 4.30 p.m.

Our club participated in the Selangor Inter-School Tae-Kwon-Do Competition for the first time this year.

We hope that more boys will join the club in future.

Report by :
HOW YOW WAH.

CARROMS CLUB

Adviser - - - - - -	Miss Naganather
President - - - - -	Tang Yoon Choon
Vice-President - - - -	Cheong Chee Kin
Hon. Secretary - - - -	Phoon Khai Choong
Vice-Secretary - - - -	Tan Chuan Huat
Hon. Treasurer - - - -	Soo Kim Yew

The officials were nominated by the teacher-in-charge, Miss Naganather, at the first general meeting held on the 9th of February.

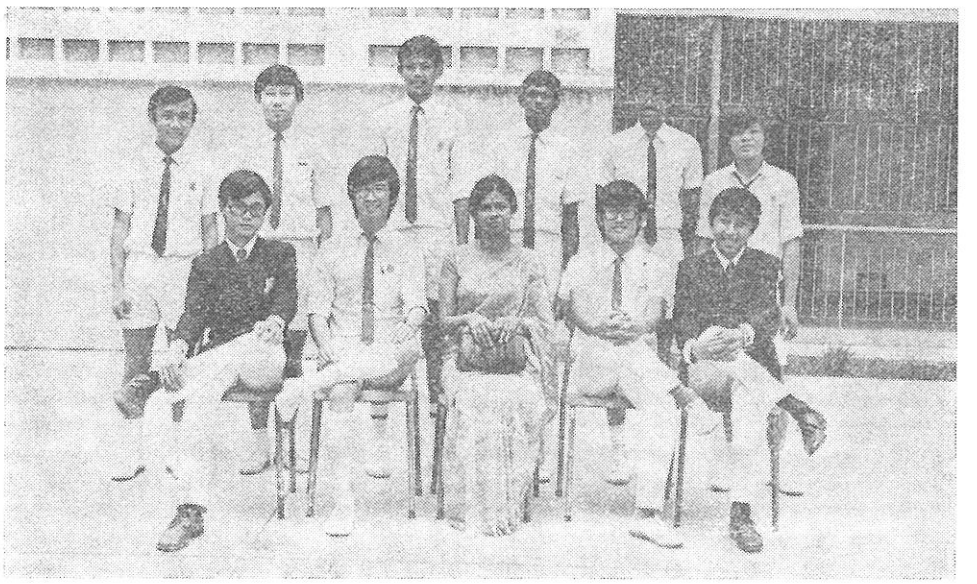

Practices were held every Friday and due to the response shown by the members at these practices, the Club was presented with a new carroms board by the school.

In June, the carroms competition among the pupils of the school started and the competitors battled for about 2 weeks. The winner of the competition was Tan Chuan Huat.

In conjunction with the above competition, an inter-house carroms tournament was also held in which White House emerged the Champion with Blue House as the Runners-up.

Thanks must be forwarded to our advisers and the Principal for their invaluable guidance and co-operation.

PHOON KHAI CHOONG,
HON. SECRETARY.

STANDING (FROM LEFT TO RIGHT): Lim Hwa Teong, Tan Chuan Huat, Harry Loo, Moorthy Chelliah, Philip Varghese, Low Sing Guan.

SEATED (FROM LEFT TO RIGHT): Cheong Chee Kin, Tang Yoon Choon, Miss Naganather, Phoon Kai Choong, Soo Kim Yew.

CHESS CLUB

Membership : 140.

Practises are held regularly every Tuesday & Friday.

During the first term, the club purchased 5 international sets and 12 Chinese Chess sets. We also have 6 sets of stratagium, a game popular among some chess enthusiasts.

Inter-house tournaments started at the beginning of the second term. A league system was imposed and after a stiff battle White House snatched the championship in the senior section, breaking the past domination of the game by Yellow House. However, in the junior section Yellow House was able to show their power by defeating Green House for the gold medal.

Immediately after the above tournament, the Individual International and Chinese Chess tournament started for both senior and junior sections. The so-called "Battle of Wits" lasted for 3 weeks and the following boys emerged winners:—

SENIOR SECTION — INTERNATIONAL CHESS

Champion - - - - - Tan Eng Tor
Runner-up - - - - - Soo Kim Yew

CHINESE CHESS

Champion - - - - - Soo Kim Yew
Runner-up - - - - - Tan Leong Seng

JUNIOR SECTION — INTERNATIONAL CHESS

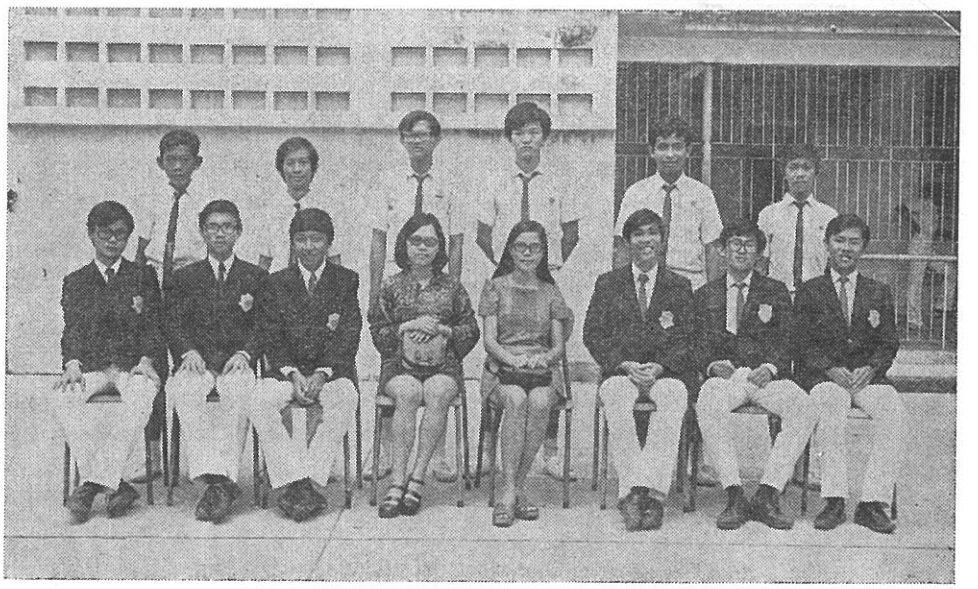

Champion - - - - - Johnny Tai
Runner-up - - - - - Seow Yoke San

CHINESE CHESS

Champion - - - - - Peh Hoo Chun
Runner-up - - - - - Low Beng Wah

Players were selected for the school team after these tournaments. In the Dudly Shield competition our boys lost 2 - 3 to the old boys.

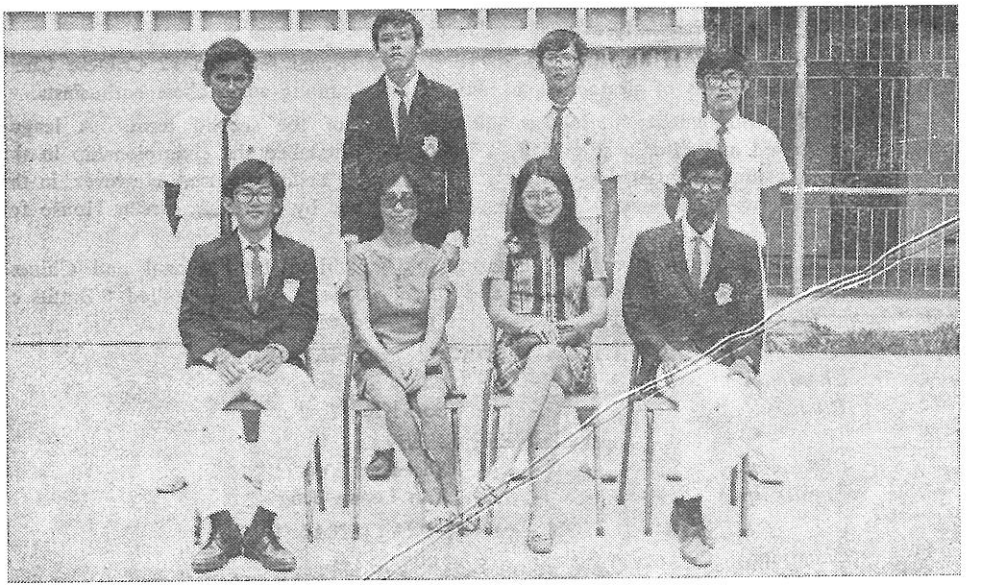

ONG SAY KEE,
SECRETARY.

SEATED (FROM LEFT TO RIGHT): Chong Chee Kin, Woo Kok Wai, Soo Kim Yew, Mrs. Chan (*Advisor*), Mrs. Goh (*Advisor*), Lee Seng Chee, Ong Say Kee, Kay Yew Kiang.

STANDING (FROM LEFT TO RIGHT): Low Kok Bee, Low Kok Leong, Ang Siong Min, Tan Eng Tor, Chew Chee Beng, Wong Loke Yee.

INTER - SCHOOL CHRISTIAN FELLOWSHIP

SITTING (LEFT TO RIGHT): Ong Say Kee, Mrs. Soong Mun Wai (*Adviser*), Mrs. Robin Goh (*Adviser*), Philip Lee.

STANDING (LEFT TO RIGHT): Joseph Niles, Teh Sor Moh Nee, Foong Chee Wah, Phoon Kai Choong.

Committee Members :—

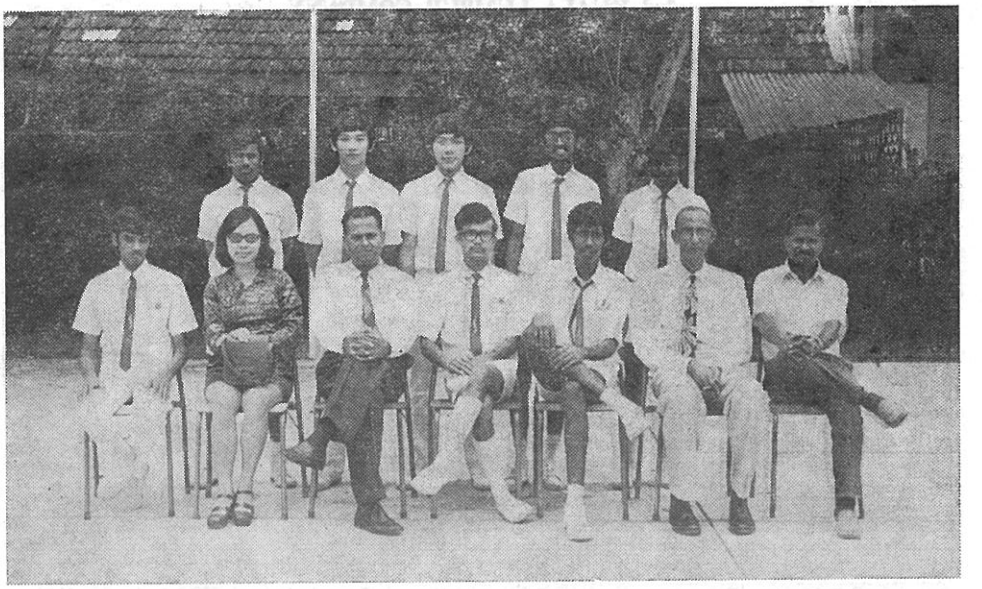

Ong Say Kee
Teh Sar Moh Nee
Phoon Kai Choong
Philip Lee
Foong Chee Wah
Joseph Niles

Our motto is :— "To Know Christ, to make him known". Thus, our activities are centred around this fundamental aim of our society. We are part of a bigger organization, the Scripture Union which has many affiliated school groups throughout Malaysia.

This year we meet on Friday at 12.25 p.m. in Form 4-C Room. We have various activities which include bible studies, talks, Singspiration, organised meeting by the Diploma of Education Students, and under-graduates of the University of Malaya.

We are grateful to have the help of Mrs. Soong and Mrs. R. Goh. Together with God's help, and guidance we hope to strive even harder to make "Christ Known in Our School."

CHAPEL COMMITTEE

STANDING (FROM LEFT TO RIGHT): Selvaraju, Say Geek Nia, Low Seng Chong, Umapathy, Stephen.

SITTING (FROM LEFT TO RIGHT): Nadesan, S., Mrs. Chan K. E., Mr. Zachariah, Christopher D'Rozario, M. Subramaniam, Mr. Arthur Lee, Mr. James Amoz.

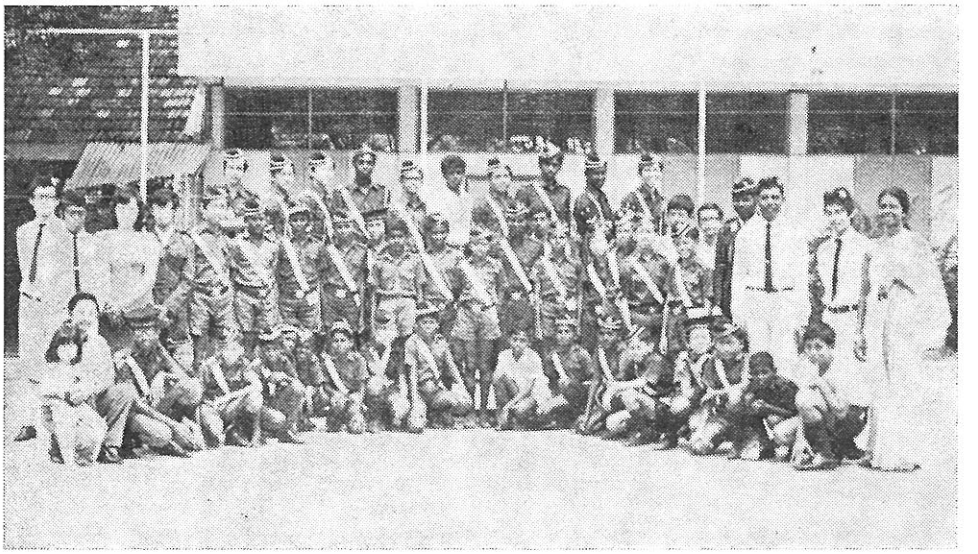

The task of the chapel committee is to chair the meetings and lead in chorus singing during the weekly Friday chapel services. At these services, guest speakers from the various churches in and around Kuala Lumpur address the students.

Extra services were held during Religious Emphasis week, and more students participated in these services. More enthusiastic participation in singing was shown because of the musical backing given by some of our students.

It is hoped that the Chapel service would serve to lead the students to the right path — the path of happiness — the happiness of God's love.

BOY'S BRIGADE

2nd KUALA LUMPUR COMPANY

SQUATTING (FROM LEFT TO RIGHT): Our former Captain David S. H. Chia and his child.

STANDING (FROM LEFT TO RIGHT): Our new Captain, A. T. Karasu, Lt. Tan Geok Soon (behind Captain), Mrs. Chia, Sgt. Phoon Kai Choon, S/Sgt. S. Sarvananthan.

(END OF THE FIRST ROW STANDING): Lt. Jones, W/O Danny Hooi, Mrs. Jones.

BACK ROW (FROM LEFT TO RIGHT): Cpl. Lai Siew Hong, L/Cpl. Yau Ah Wah, L/Cpl. Tan Chuan Huat, L/Cpl. M. Murugan, L/Cpl. Christopher, L/Cpl. Thangarajoo, L/Cpl. Yong Fun Men, Pte. Stanley, L/Cpl. S. Ganeson, Cpl. Lee Seng Chee.

The beginning of 1973 saw many changes. Two officers were promoted to the ranks of Lieutenant. They are Mr. and Mrs. Jones (the first woman-Lieutenant in the history of 2nd K.L. Boy's Brigade Company). Lieutenant A. T. Karasu was promoted to be the Captain for 1973.

The Kuala Lumpur Battalion talentine was held in Y.M.C.A. Hall on March 24th. Our company along with our juniors displayed their talents and took back some of the prizes. From March 30th to April 3rd four boys attended a leadership training camp at Bentong, Pahang, organised by the Methodist Church.

This year our band performed under a new Band Major Cpl. Lee Seng Chee, at our school sports as well as that of the M.B.P.S. Sentul.

On 29th April, a combined B.B. and G.B. enrolment service was held at our Church. The service was led by Rev. Tan Chee Keong.

The Boy's Brigade's International Secretary Mr. Ressle Rawlson (from London) was the Reviewing Officer of our 2nd K. Lumpur Battalion Anniversary Parade on 1st May, 1973. The Parade, formed by two hundred boys, was accompanied by the Battalion Band. Our juniors did a splendid basic drill that impressed the spectators greatly. Mr. Rawlson later joined in the N.C.O. Seminar. Others present were the 2nd B.B. Patron Dr. Tan Chee Khoon and the B.B.M. President Mr. Paul Peter and Mr. David S. H. Chia.

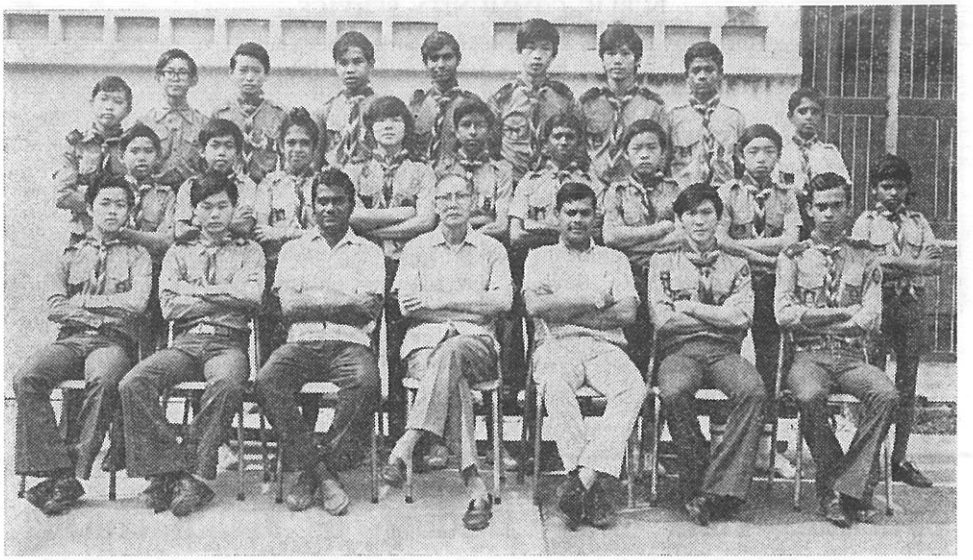

Our buglers sounded the opening of the new M.C.A. branch in Ampang.

This year's B.B. Week collection amounted to $1,300,000. The winner with the highest collection was Cpl. Lee Seng Chee who also got the Ramachandran Shield. This year many badge classes were conducted for example Safety Stage One and Two. Communication badges.

* TIME IS PRECIOUS, DO NOT WASTE YOUR YOUTHFUL DAYS. JOIN THE BOY'S BRIGADE.*

Recruitment begins in Jan. + Feb. 1974

12th K.L. SCOUTS GROUP

SITTING (LEFT TO RIGHT): Wong Swee Yee, Tan Chai Yit, Tang Fook Leong (P.L.), Abdullah, Mahandrean, Low Yik Leng, Khaw Leong Seng, T. Gunaseelan (P.L.), Jagamogan.

MIDDLE ROW (LEFT TO RIGHT): Soon Heng, Kor Poh Seng, Patwan Singh, Low Seng Guan, J. Victor (P.L.), Selvakumar, Ohi Lok Koim, Low Peng Hooi, Rajasakri.

SITTING (LEFT TO RIGHT): Theang Kok Keng (*Treasurer*), Cheong Chee Kin (*Secretary*), Mr. Thevarajah, Mr. Kwong Sea Khoon, Mr. Ibrahim, Cheong Kok Chong (T.L.), Rosli (A.T.L.).

12th K.L. SCOUTS GROUP

MOTTO : BE PREPARED

MEMBERSHIP

10 senior and 30 junior scouts. Of these, 6 are first class scouts.

MEETINGS

Patrol Meetings are held weekly and group meetings are held fortnightly. Sometimes these meetings are held out of doors, followed by a picnic.

ACTIVITIES

Our annual campfire held on 31st March was attended by over 300 scouts, guides, parents and members of the public. Careful planning and the dedication of our scouters and the assistance of some ex-scouters made this campfire one of the best we have ever had.

There was a seniors' camp at Templers Park and a juniors' camp at Pang Soon. Both groups underwent tough training. Three of our scouts also ascended Gunong Nuang, near Pang Soon, where they saw tiger tracks and heard the distant roaring of a tiger. One weekend 13 of our boys spent a night in Batu Caves, on another weekend 4 scouters went for an adventurous raft exploration on Sungei Langat.

Another campfire was held on 16th June in honour of our former troop leader, Mr. Ellance Tzu who has left for England to continue his studies there.

PUBLIC COMMUNITY SERVICE

We attended the rally at Balai Datuk Harun during the Youth Day celebrations.

FUND RAISING

This year's job week earnings fell short of our expectations. To compensate for this we sold drinks during our primary school sports day and held a hamper sale.

On the whole, we had a successful and eventful year. On behalf of the troop I would like to express my heartfelt gratitude to our principal Mr. Kwong Sea Khoon, our scout masters Mr. Thevarajah and Mr. Ibrahim, our scouters and our parents, without whose assistance our scouting programme would not have been so successful.

Banerji the star triallist with 57

ALL-ROUNDER P. Banerji, 17 scored a fine innings in a selection trial between Selangor Club Invitation XI and the Rest at the Kuala Lumpur Padang yesterday.

Watched by four SCA selectors —Johnny Oi, K. Ramakrishnan, Daljit Singh and Carl Schubert —Banerji topscored with an unbeaten 57 (eight fours) in 126 minutes.

Despite Banerji's innings, Selangor Club were beaten by five wickets.

After Selangor Club had lost five wickets for 69 runs, Banerji joined skipper Alex Delilkan and they took the score to 184 when Delilkan fell to the pace of K. Selvam for 56 which included seven fours.

Selangor Club declared at 214-7 half an hour before tea.

Opening bat Ranjit Singh gave The Rest a good start. He topscored with 62 before retiring.

Ranjit shared an opening stand of 30 runs with P. Balakrishnan—older brother of Banerji — and then a second wicket partnership of 79 runs with K. Selvam, who scored 55 runs.

Scores: Selangor Club Invitation XI 214-7 dec. (P. Banerji 57 n.o., A. Delilkan 56, B. Bandiah 40.) The Rest 226-5 (Ranjit Singh 62, K. Selvam 5).

Banerji the S'gor star

A BRILLIANT all-round performance by schoolboy P. Banerji earned Selangor a convincing 93-run victory with a day to spare over Singapore in the Malaysian Colts cricket final at the Kuala Lumpur Padang yesterday.

Final scores: Selangor 103 and 156; Singapore 63 and 103.

Banerji, 16, mesmerised the Singapore batsmen with his off-breaks to claim six of their second innings wickets for 19 runs off 12 overs.

Singapore, set a target of 197 runs, were all out for 103 in their second innings.

Banerji finished with match figures of 7-31 off 20 overs.

By IAN PEREIRA

In the morning, Banerji topscored for Selangor in their second innings with 35, which included four boundaries.

Singapore, 63-9 overnight, were all out without adding to their score yesterday morning, giving Selangor a first innings lead of 40 runs.

Selangor fared better in their second innings to total 150 runs.

Bannerji stars

NORTH COLTS cricketer P. Bannerji turned in a splendid all-round performance in their drawn match against South at the Malacca Club Padang yesterday.

Bannerji, who took four wickets for 39 runs in South's first innings of 130 on Friday, yesterday went on to topscore with 73.

His innings, which included five fours and a six, helped North reply with 163.

South had scored 14 for one wicket by lunch in their second innings when the match was called off due to rain.

Negri's Clarence Samuel took six wickets for 50 for South.

Scores: South 130 and 14-1. North 163 (P. Bannerji 73, C. Samuel 6-50).

SENTUL METHODIST BOYS' SCHOOL
OLD BOYS' ASSOCIATION

REPORT FROM THE HON. SECRETARY FOR THE YEAR 1972/73

PATRON : ENCIK ARTHUR G. LEE, P.J.K.

I have the pleasure in presenting a report of our activities for the year 1972/73.

(A) 13th ANNUAL GENERAL MEETING

The 13th Annual General Meeting was held on the 13th January, 1973 at 5.00 p.m. The Chairman was Mr. Chan Weng Chiu.

The following were elected as office bearers for the years 1972/73:—

President	Mr. Chan Wong Chiu
Vice-President	Mr. Low Gan Chuan
Hon. Secretary	Mr. B. Gopinathan
Asst. Hon. Secretary	Mr. A. H. Ponniah
Hon. Treasurer	Mr. P. Venugopal
Asst. Hon. Treasurer	Mr. Michael Chong
Members of the Committee	Mr. Tan Geok Soon
	Mr. Lim King Huak
	Mr. Samuel Low
	Mr. Yap Wing Chun
	Mr. Stephen Samuel
	Mr. Mohd. Ariff
	Mr. Yong Wah Loong

(B) APPOINTMENT OF COMMITTEES

At the first management committee meeting held in March, 1973, the following were appointed to serve on these committees:—

Finance and Membership :
P. Venugopal — (Chairman
A. H. Ponniah
Michael Chong
Stephen Samuel
Gopinathan.

Sports :
Michael Chong — (Chairman)
Tan Geok Soon
Venugopal.

Publication Committee :
Yap Wing Chun — (Chairman)
Gopinathan
Yong Wah Loong
Stephen Samuel
Lim King Huak.

Social Committee :
Samuel Low — (Chairman)
Michael Chong
Yap Wing Chun
Low Gan Chuan
Mohd. Ariff.

(C) O.B.A. BALL

The Grand O.B.A. Ball was held on November 3rd, 1972 at the Dewan Bahasa dan Pustaka. The Ball as in past years was a great success. The music was provided by the 'Revolvers'.

(D) ANNUAL DINNER

Our Annual Dinner was held on Wednesday the 11th of July at Ming Court, Town House Hotel. It was very well attended and indeed one of the most memorable annual dinners held to date. Many distinguished old boys attended the dinner amidst much reminiscing, exchange of anecdotes and renewal of acquaintances.

(E) ANNUAL PRIZE GIVING DAY

At the school's prize giving day, Mrs. D. R. Daniel gave away the prizes. Several members and their wives were present.

(F) SPORTING ACTIVITIES

Practices :

Badminton, Football, Table Tennis and Tennis practices were held regularly in the school.

School Sports :

Many old boys atttended the Annual School Sports, and apart from being mere spectators, some officiated as judges. Others took part in events scheduled for old boys.

The Singam trophy donated by the O.B.A. in honour of Mr. J. N. Singam, a retired master of the school, was awarded to White House. White House was the Champion House.

6th Annual Badminton Tournament :

This year the Annual Badminton Tournament was thrown open to present boys and members of the staff. The results were as follows:—

Single Champion	Jeyaraman
Runner Up	M. Krishnan
Doubles Champion	Jeyaraman & Bala
Runner Up	M. Krishnan & R. K. Nathan.

1st Annual Table Tennis Tournament :

The O.B.A. initiated a Table Tennis tournament this year. The trophy for the Single Champion was presented by Mr. Low Gan Chuan and for the double by Mr. Sam Paranjothy. The results were as follows:—

Single Champion	Mr. Lai Siow Hoong
Runner Up	Mr. Low Yit Seow
Doubles Champion	Mr. Chan Kam Weng & Mr. Low Chee Keong
Runner Up	Mr. Ng Lik Lin & Mr. Goh Ban Swee.

Annual Dudley Shield Competition :

The O.B.A. were successful this year in wresting the Shield from the present boys. The result were as follows:—

Chess	Won 3 — 2	Volleyball	Won 2 — 1
Badminton	Won 6 — 1	Table Tennis	Won 3 — 2
Footbal	Won 7 — 2	Tennis	Lost 1 — 4
Hockey	Walkover	Speak Takraw	Won 3 — 0

(G) PEACH SCHOLARSHIP

We are thankful to old boys and well wishers who have continued to support the Peach Scholarship Fund. The fund is named after Rev. P. C. Peach founder principal of Sentul M.B.S.

The Peach Scholar for 1973 is Master Teo Wee Chee.

(H) MEMBERSHIP

New members joined in the year. We have now a total membership of 257 of which 20 are life members.

(I) CONCLUSION

The O.B.A. wishes to record once again its appreciation of the selfless service and able leadership of our President, Mr. Chan Weng Chiu.

We also wish to thank the principal, Sentul Methodist Boys, Secondary School and the Headmaster of the Sentul Methodist Boys' Primary School for allowing the O.B.A. the use of the School Hall and court for their games and social events.

Thanks are also due to our Patron Mr. A. G. Lee for his encouragement and interest in the affairs of the association.

Finally, our grateful thanks to all our old Boys who have supported us in all our activities.

B. GOPINATHAN,
HON. SECRETARY, OLD BOYS' ASSOCIATION.

METHODIST BOYS' SECONDARY SCHOOL
SENTUL, KUALA LUMPUR

SCHOOL RULES

1. **School Hours :** The School Hours are from 7.30 a.m. to 1.10 p.m. (Pupils Own Language/Islamic studies classes will be held in the afternoons).

2. **School Uniform :** Every pupil should come to School in the School Uniform. This consists of a white shirt (with the school badge pinned above the left pocket of the shirt), a pair of white shorts (trousers are permissible for boys in Forms Four and Five), a pair of socks and shoes. The School Tie should be worn on Mondays and during special school occassions and public functions outside the School. (Malay boys should wear the national costume including maroon "samping" on Fridays). Boys coming to School in the afternoons for games or sports should be in proper attire *and must wear the School badge.*

3. **School Fees :** School Fees should be paid by the 3rd working day of every month. Pupils who fail to pay their fees by the 10th working day will be regarded as defaulters and their parents will be notified accordingly.

4. **Extra-Mural Activities :** Every pupil who is physically fit is expected to take part in School Games. He should play at least two games for his House/School. Every pupil should also be an active member of at least two societies/clubs.

5. **Absence from School :** Any pupil who is absent must produce a Medical Certificate or a letter from his parents when he returns to School. Parents are expected to inform the School of their Children's absence by letter or by telephone as early as possible.

6. **Late Comers :** Pupils are expected to be punctual. Habitual late comers will be sent to the Detention Class.

7. **Misbehaviour & Indiscipline :** It is expected of every pupil in M.B.S. Sentul to maintain excellent behaviour and very good discipline in and out of School at all times. Any boy found to be persistently breaking School Rules and misbehaving himself in or out of School is liable to severe disciplinary action including suspension/dismissal. (Parents will be notified by letter of their children's misdemeanour).

8. **Cleanliness of School Premises :** It is the duty of every pupil to keep his classroom and the school premises neat and tidy at all times. Remember to throw litter, waste-paper, etc. only into the dustbins or receptacles provided for the purpose. "Cleanliness is next to godliness".

9. **Classrooms :** No pupil should remain in a classroom before 7.30 a.m. during the interval or after School unless he has obtained the necessary permission from the teacher-in-charge of the class. No one should enter the laboratories, workshop, staffroom or office when a member of the staff is not present.

10. **Furniture & Fittings :** Pupils are expected to cultivate "civic sense". Pupils found defacing or damaging School furniture and fittings are liable to be punished severely.

11. **Obedience :** Pupils should obey the teachers and the prefects at all times.

12. **General :** The pupils of the School :
    (a) should walk in an orderly manner on the right side of the road without blocking cyclists and motorists;
    (b) should not leave the school premises during the interval or when the school in session;

(c) should not enter the compound belonging to the Chinese/Tamil School;

(d) should maintain silence in the School Library. They should not make unnecessary noise in the school premises;

(e) should avoid using the office stairs except when going to the office on business;

(f) should not eat in the classrooms;

(g) should go to the Tuckshop during the interval only;

(h) should leave the classroom only with the permission of the subject teacher concerned;

(i) should not loiter or congregate on the verandahs/corridors;

(j) should maintain silence while moving from one classroom to another during change of periods;

(k) should at no time patronise the hawkers at the school entrance;

(l) should park their vehicles only in authorised places.

KEEP DISCIPLINE AND DISCIPLINE WILL KEEP YOU.

KWONG SEA KHOON,
PRINCIPAL.
